Comprehensive Employment and Training Act: These funds will provide Public Service Employment, Classroom Training, On-the-Job Training, Work Experience, and In-School and Out-of-School Youth Training. Laurel, Rockcastle, and Whitley Counties are three out of 89 Balances of State Counties who are eligible for these funds. Applications may be picked up at the Cumberland Valley Area Development District Office, T.B. Hospital Grounds, London, Kentucky. Project Summaries and budgets are to be completed and submitted to Betty Calhoun at the above address by April 4, 1980. Projects will then be reviewed by the local Manpower Council and forwarded to the State Manpower Planning Council, which then recommends to the Governor or his designee as to which projects should be funded.

If you have any questions or need additional information, please contact Betty Calhoun at the Cumberland Valley Area Development District Office, 864-7391.

IT'S THE MOST!

The most lemons - skin, seeds and all - known to be consumed at once is three, eaten by Bob Blackmore in 1977.

Most people prefer their lemons in other forms. One popular way is blended with the natural juices of oranges, grapefruit, tangerines and limes in new Snow Crop Five Alive, a refreshing fruit beverage containing 60 percent fruit juice. Parents and children alike enjoy it throughout the day, and it's an ideal way to give children the goodness of natural fruit juice.

V. NOTICE OF SALE

Earl Cameron and wife, Patricia Defendants

By virtue of a judgement and order of sale of the Rockcastle Circuit Court rendered on February 22, 1980, in the above cause, to produce the sum of twelve thousand six hundred four dollars and fifty-eight (\$12,604.58) cents, interest and costs, I shall proceed to offer for sale at the Court House door on Main Street, Mount Vernon, Kentucky, to the highest bidder, at public auction on the 21st day of March, 1980, at ten o'clock (10:00 a.m.), or thereabout, the following described real property belonging to Earl Cameron and wife, Patricia Cameron, to-wit:

Tract No. 1--Beginning at the county road at a sycamore tree; thence 399 feet up the hill west course with Mullins line to a stone corner; thence with the said same Mullins line north course to a white oak and Daisy Scott's line; thence with the Daisy Scott line down the hill west course to the county road; thence with the county road south course to the beginning corner and containing eight (8) acres more or less.

Tract No. 2--Beginning at a stone corner of Floyd McKinney, Raymond McCurtain and Dean Mullins; thence east course up the hill to top of ridge; thence north course with the ridge of Daisy Scott's line;

The Ordinance authorizes the issuance by the County of Rockcastle Hospital Improvement Corporation of \$343,000 principal amount of Mortgage Bonds, Series 1980, for the purpose of financing improvements and overruns in the Hospital Project previously established. A supplemental and amendatory lease agreement between the County and the Improvement Corporation and a supplemental and amendatory inden-

thence west course down the hill with said Scott's line to a white oak, corner in Floyd McKinney's line; thence with said McKinney and Dean Mullins line to the beginning and containing eight (8) acres more or less.

Defendants, Earl Cameron and wife, Patricia Cameron obtained title to said real property by deed dated January 28, 1976, executed by Eugene Robinson, et ux of record in Deed Book 100, page 553, in the office of the clerk of the Rockcastle County Court, Mount Vernon, Kentucky.

The property shall be sold to the highest bidder on terms of cash, or 20% (20%) of the purchase price in cash at time of sale, the balance in six (6) months, with the purchaser being required to execute bond with surety thereon to be approved by the Commissioner to secure the unpaid balance of the purchase price; said bond to bear interest at the rate of eight percent (8%) per annum from date of sale until paid. The purchaser shall have the privilege of paying all of the purchase price in cash, or paying said bond before maturity by paying the principal and interest accrued to the date of payment. The purchaser shall have possession of the premises after complying with the terms of sale.

CARD OF THANKS

We, the family of Andy Sargent, would like to thank those who shared our grief in the death of our loved one. We would like to express special thanks to our many friends for their prayers, flowers, food and services on behalf of the family.

We also would like to thank the staff of the Rockcastle County Hospital, Drs. Griffith and Griffith, Watson Funeral Home, the Ministers-Bro, Randall Adams, Bro. Rick Everts, and Bro. Virgil Brock, and Mrs. Barbara Brock Faulkner for the singing.

The Children, Brothers
And Sisters

THANK YOU

We would like to express our appreciation to all those who helped to make Mr. H. Lee Durham's retirement dinner a huge success. The lovely table decorations of blue and white carnations were donated by John and Florence Zupancic of Zupancic's Greenhouse, Henry Hines of Mt. Vernon Printing supplied the invitations, and Mrs. Don Smith, owners of Rockcastle Steak House, set up the dining room and provided the cake and punch. And to all the friends and associates of Mr. Durham who came and participated in the program, we say a very sincere, "Thank You."

Roy Brown and the County Extension Office Staff

Varigous preparations from the leaves and roots of the deadly *Delphinium* weed known as *Soldanone* are used to counteract pain, spasm and opium poisoning.

Gave us George Washington, our first great leader, today is among the leading 10 U.S. counties in per capita income, top grade bond ratings and economic growth. One example, David A. Edwards, executive director of the Fairfax County Economic Development Authority, notes that 125 national trade and business associations are now headquartered there versus only two a decade ago.

Where the first great naval battle in 1776 took place, continues today its maritime tradition as the site of the world's largest naval base. It also attracts record numbers of tourists, notes Jeter Walker, executive director of the Norfolk Convention & Visitors Bureau, with attractions like the new Scope Convention Center, the Douglas MacArthur Museum and the Annual Azalea Festival.

State to join the union is also the first state in the nation in terms of business incorporations. Delaware Governor Pierre S. D'Ignazio says that more than half of the famous Fortune 500 blue chip companies are incorporated there and many are also establishing manufacturing and corporate offices.

THE FAMILY LIFE CENTER OF APPALACHIA

"A Thought for Married Couples"

By Larry Keaton

Because of our firm conviction of the rightness of a marriage that is ordained by God, we of the Family Life Center of Appalachia would like to submit to you a single sentence that more than summarizes our feelings. It is taken from a collection of Jewish teachings compiled during the 14th century:

"God Creates New Worlds Each Day By Causing Marriages To Take Place"

The Family Life Center facilities are open to the public. We invite you to use our family game room and library, indoor/outdoor recreation facilities, emergency shelter and picnic areas. Twenty-four hour counseling services are available. For more information, call (606) 256-5612 or write to: Director, Family Life Center of Appalachia, Renfro Valley, Kentucky 40473.

Volume 91 - Number 27

Thursday, March 6, 1980

The home of Mr. and Mrs. Oscar Hetsuley and their four children at Maple Grove was leveled by fire about 3 a.m. Tuesday morning and all contents were lost. Cause of the fire, which apparently started in the kitchen area of the brick home, has

not been determined. The Mt. Vernon Fire Department responded to the call but were unable to save the home since Mrs. Hetsuley told Fire Chief John Cox that when she awakened, part of the ceiling in the home was already caving in.

Agenda Light for Fiscal Court Meeting With only Routine Items for Consideration

The Rockcastle Fiscal Court had no "big" items of business before them for Tuesday's meeting. They did clear their agenda of several items of routine business including the opening of bids for a television sign and distribution system, between Livingston and the Burr Hill exit of Interstate-75.

Lewis Cable and TV of Livingston, owned and operated by Ronald and Janrose Lewis, were the only bidders on the project and were awarded the bid for \$50 per year.

Mr. Gilpin of the State Highway Department was before the Court to obtain approval of a contract under the County Road Aid program for the county to haul replacement rock for 45.1 miles of county roads. The contract is for \$3,543.12 and is for fiscal year 1979-80. The county has already hauled the rock and the approving of the contract was a formality enabling the county to be paid.

During the discussion with Mr. Gilpin, the magistrates brought up the possibility of the county taking over maintenance of the gravel roads in the county with the state still maintaining the blacktopped roads.

Gilpin told the court that this practice was becoming quite common and that it was a simple matter of the state turning over to the county their share of the monies collected from the gasoline tax. At present, the state keeps the money and the county submits a list of roads they wish maintained and upgraded—sometimes the state agrees with the priorities and sometimes they don't.

It was finally decided to have another official of the highway department to meet with the court to further discuss switching the program to the county.

Jerry Cox, attorney for the Northern Rockcastle Water District, was before the court to request approval for a salary increase for the water district to \$50 per month from their present \$25 per month and the re-hiring of Jerry Cox as attorney for the district.

Under Kentucky statutes, the court must approve this action and they did unanimously.

The court also took over a road into the Lloyd Monk farm off the Spigo gravel road of approximately 900 yards on the request of Charles Shivel.

Roy Brown was also present to talk to the magistrates

about a road to Lake Linville from the Negro Town Hill Road. Mr. Brown said construction of the road would open up a large area which could be developed for home sites besides providing another access to the lake.

The magistrates agreed to provide assistance where possible but took no formal action.

The court also went on record as approving HB 202 which would switch the sale of drivers licenses to the Court Clerk's office from the Circuit Clerk's office.

Mr. Iron Bales said this bill would, if passed, provide more money for the county in the way of fees.

Bill Hendrickson with the department of Disaster and Emergency Services was before the court to request that they designate someone to handle any federal funds which might come into the county in the event of a presidentially declared national disaster in the county.

Juveniles Arrested in Connection With Break-Ins

Two juveniles have been arrested in connection with two break-ins Monday night in Mt. Vernon and were scheduled for a juvenile hearing Wednesday.

One of the juveniles was caught inside Rockcastle Farm Service after City Policeman Tyree Gray, Jr. noticed a side door at the business slightly ajar about 1 a.m. Tuesday morning. Gray then notified Trooper Jimmy Silvers, city policeman Frank DeBorde and Wayne Stewart, and they went to the store and found the juvenile. Another juvenile attempted flee the scene but was caught. When apprehended, the two juveniles had items in their possession which had allegedly been taken from the Signal building on Main Street earlier in the night.

Last Thursday afternoon,

Woods Named Rec Council President

The Recreation Council held their first meeting of the year Monday night and elected officers. Larry Woods was elected president and Dwight Griffin was chosen secretary-treasurer of the organization.

During the meeting, the council discussed the method which will be used this year to raise funds for the summer program. More information on this will be forthcoming.

Also, the council asked that anyone interested in entering a team in the men or women's

softball league this summer to please turn in a roster and team name to Mr. Woods, Wildlife, Ky. by Saturday, March 29. Any roster turned in after this date will not be accepted.

Mr. Hendrickson told the court that in other counties, it was usually the County Judge Executive who was appointed. The court approved Judge Thacker.

During the meeting, the court also discussed the fact that no funds have been forthcoming from the federal off roads system program which were promised for the last two years.

This program was supposed to be in addition to the county and state's regular road programs and all the magistrates had to do was to agree on one project per year. A bridge on the Cupps-Chapel Road was one of the projects approved along with one mile of blacktop on the Cove Branch Road for the other project. But, Tuesday the magistrates were told by Mr. Gilpin of the state highway department that, as far as he knew, this program was never funded and likely wouldn't be.

the home of Mr. and Mrs. Jack Parsons on U.S. 25, 5 miles north of Mt. Vernon was broken into and personal property valued at between \$1200 and \$1300 was taken.

Detective Fred Walton said that among the items taken were a Smith-Wesson nickel-plated revolver; 4 Nazi daggers with swastikas on the handle, \$20 to \$30 in quarters and 4 silver dollars, 150-200 arrowheads, an am/fm Minolta radio, electric guitar, a speaker and other miscellaneous items.

The articles were removed from the home in a pillowcase. Detective Walton said the entry was reportedly gained through a rear window.

Walton said there were several clues which were being investigated.

NOT THE ONE

Tommy H. Burdette of Rt. 3, Mt. Vernon is not the Tom Burdette of Wildie who has been charged with arson in connection with a fire which destroyed the Howard Gadd home at Wildie recently.

Supt. Charles Parsons' Contract Renewed by Board for Four Years

Charles B. Parsons, superintendent of Rockcastle County Schools for the past 12 years, was re-hired by the board Tuesday night for another four years.

Supt. Parsons pointed out to the board that out of 120 counties in the state, 106 counties pay their superintendent a higher salary than Rockcastle does and that the average salary paid superintendents in six counties around Rockcastle averages \$32,285 per year.

Parsons also told the board that, if re-employed, he would be happy with a base salary of \$29,900 plus whatever raise teachers get under the foundation program during the four-year term of the contract.

Willie Taylor made a motion to renew Mr. Parsons' contract for another four years effective July 1, 1980 at the salary suggested. The vote was unanimous.

In other business, Mr. Parsons gave each board member a copy of a letter from Arnold Guess, director of the Kentucky School Building Authority, which detailed how much his agency would provide for construction of the first phase of a new school for Mt. Vernon and several classrooms at Roundstone Elementary School.

According to Mr. Guess' letter, 64.5 percent of the debt service required would be provided if Rockcastle is funded, and Supt. Parsons pointed out to the board, Rockcastle has an excellent chance of being funded since they are about 26th on the priority list.

This means that should new construction costs be \$3,000,000, the state would provide 64.5 percent of \$1,935,000 of the costs which would not have to be repaid by the board leaving only \$1,065,000 for the school board to have to pay through the sale of bonds.

There is one problem and that is that no funding of the program has been recommended for the 1980-81 fiscal year only for the second year of the biennium which means that any construction plans would have to be delayed a year. Mr. Parsons said this would give the board time to deal with some of the red tape involved in getting the project started but also pointed out that the delay would also mean, no doubt, an increase in construction costs.

Of course, the final vote on the program by both houses of the legislature has not been taken and Mr. Parsons urged everyone to talk with their representative or senator to show their support for funding of the program in the 1980-81 fiscal year.

On the same subject, Mr. Parsons reported to the board that he had been informed that Mrs. Oscar Bullock did not wish to sell her property adjacent to Mt. Vernon School which the

board had been trying to obtain to get the acreage required for the site to be approved by the state department of buildings and grounds.

Mr. Parsons said he was looking into some alternate land adjacent to the school and would keep the board informed as to his progress.

In other action, the board: Approved bids for lunchroom and teaching supplies and the low bids were accepted on all items.

Approved the advertisement and acceptance of bids for fire and extended coverage insurance, fill dirt and grading of the baseball field at RCHS; for brick work (remotaring of joints) the administration building, old bus garage and the high school and for heat detec-

tor systems at Mt. Vernon and Livingston school and for fire doors at Brodhead School, per recommendations by the fire marshal.

Approved revised statement of values on school buildings for insurance purchases which has been upgraded by \$3,000,000.

Approved GED certificates for Teresa Roberts, Pamela J. Bradley, Mattie Mae Bullock and Lela Mae Harrison.

Employed Mildred Kendrick as assistant handicapped bus driver for 4 1/2 hours per day at \$3 per hour.

And, approved a contract with Mike Barr as physical therapist for handicapped children providing this service is not available to the child at their home through a state agency.

If Possible, It's Best Not To Leave Car On Interstate

If it comes the time that you have to abandon your car on the Interstate-75, don't be surprised if someone comes along and helps you out by towing your car away—without your permission—and to a place where you may never see it again.

Jeff Demouth of Portland, Oregon found this out last Saturday night while traveling from Pittsburgh to Atlanta. He had the misfortune to run out of gas about a mile north of Mt. Vernon about 8 p.m. Some time later, he was taken by Trooper Jimmy Silvers to a service station on the Renfro Valley exit to get some gas. While waiting for a ride back out to where his car had been left, Mr. Demouth was surprised to see a tow truck pulling into the station with his 1972 Torino attached.

It seems that Silvers had left Mr. Demouth at the station and not too long afterwards driven by where his car had been left on the interstate to see if Demouth had gotten back to it alright. There he reportedly found a tow truck hooking to the vehicle preparatory to pulling it off. Knowing that Demouth had not called a wrecker, Silvers arrested the two men (one a juvenile) for theft by unlawful taking. The man, Dock Brumley, aka Dock Hodges, 52, of Corbin was later released on \$5,000 bond and juvenile was released to his mother.

End of story, right? Wrong. It seems that Demouth did not have official proof of ownership of his car and it involved some little time to get things straightened out so that he could be on his way. Meanwhile, a job that he had been promised in Atlanta Monday was lost because he was not there and his money ran out because of his having to wait in Mt. Vernon for the red

tape to be ironed out. Finally, Tuesday he was sent on his way when Trial Commissioner Robert Robinson released his car and some people in the courthouse supplied him with a little cash provision to help buy gas to make it to Atlanta.

Of course, all's well that finally ends well, but be very careful about leaving your car unprotected on the interstate the next time you see it you might not recognize it.

4 More Inches of Snow

Four more inches of snow fell last Saturday, bringing this winter's total accumulation to 15 1/2 inches, according to local weatherman, Bud Cox.

The snow and cold; cold, temperatures combined to keep school children home Monday and Tuesday, bringing the total number of days to make up to five.

A possibility of more snow on Thursday (today) was in the forecast.

Legislation to Help

Low Income - Elderly

Legislation that would help low-income, elderly Kentuckians obtain inexpensive loans for home repairs was passed by the House Monday on an 85-0 vote.

The measure, House Bill (HB) 62, would allow Kentuckians 62 years of age or older, whose income combined with his or her spouse does not exceed \$6,000 annually, to obtain home repair loans from the Kentucky Housing Corp. at 3 percent interest.

The loans could not exceed \$7,000, said the bill's sponsor

AN ORDINANCE OF THE CITY OF BRODHEAD, KENTUCKY, AMENDING PROVISIONS OF EXISTING ORDINANCES AS TO WATER AND SEWER RATES, WATER AND SEWER CONNECTION CHARGES, DEPOSITS, BILLING, COLLECTION, PENALTIES, DISCONNECTION OF WATER SERVICES, RECONNECTION.

THE BOARD OF TRUSTEES OF THE CITY OF BRODHEAD, KENTUCKY, DOES ORDAIN AS FOLLOWS:

That Sections 2, 3, 15, and 16 of an ordinance of the City of Brodhead, Kentucky, enacted June 7th, 1971, and amendments thereto be amended as follows:

SECTION 2. WATER AND SEWER RATES.

A. MONTHLY WATER RATES

Number of Gallons Of Water Per Month	Monthly Charge To Properties Within City	Monthly Charge To Prop. Outside City
First 2,000 Gals. or less	\$6.00	8.40
Next 8,000 gals.	2.00 per 1,000 gals.	2.80 per 1,000 gals.
Next 40,000 Gals.	1.40 per 1,000 gals.	2.00 per 1,000 gals.
Next 50,000 Gals.	1.00 per 1,000 gals.	1.40 per 1,000 gals.
All over 100,000 Gals.	.80 per 1,000 gals.	1.20 per 1,000 gals.

B. MONTHLY SEWER RATES
The charges for sewer service shall be seventy five percent (75) of the monthly water bill as determined in Section 2 A above.

SECTION 3. WATER AND SEWER CONNECTION CHARGES:

Customers shall pay a charge for connecting to the water and sewer system in the amount of \$25.00 plus actual expenses for connecting said service.

SECTION 15. DEPOSITS.

Deposit shall be required of all applicants for water service as follows:

1 inch meter	40.00
1½ inch meter	50.00
2 inch meter	60.00

SECTION 16. BILLING, CONNECTION, PENALTIES, DISCONNECTION OF WATER SERVICE, RECONNECTION

That the rates or charges aforesaid for both water and sewer service shall be billed monthly on or before the first of each month, and all bills for such service shall be considered due and payable twenty days after rendition. If a bill is not paid as aforesaid within such twenty day period, there shall be imposed a penalty on each bill not so paid, in an amount equal to ten percent (10%) of the charges (other than sales tax) shown on the face amount of said bill not so paid. Also, if a bill is not paid within said twenty day period after said due date, the charges shown on such bill shall be deemed delinquent, and the Superintendent of the waterworks system, after furnishing 24 hours written notice to the delinquent water user, shall thereupon, if such delinquency continues, turn off the water of such user according to the current practices existing at the time of the turn-off for water delinquents and may further enjoin use of the water facilities of the City by said customer until payment in full is made. If the deadline date falls on a Sunday or legal holiday, such deadline shall not expire until the next second day thereafter. If such water service is cut off by the City, reconnection of such service shall not be made until the owner or user pays all charges and penalties owed plus the amount of Fifteen Dollars (\$15.00) as a disconnection and reconnection charge. This ordinance shall take effect from and after its enactment and publication as provided by law.

Enacted and approved on this 3rd day of March, 1980.

Legislative Report

By Rep. Harold DeMarcus

Public hearings represent an important part of Kentucky's General Assembly.

When citizens come to the State Capitol and express their views on proposed legislation, legislators being so informed, are better able to represent the best interest of all Kentuckians.

Most probably, the 1980 General Assembly will conduct more public hearings than ever before. Brief descriptions of three public hearings, held on February 14th, serve to illustrate the impact of citizen involvement.

Senate Bill 149 has been introduced and seeks to allow school teachers with a petition signed by 51% of their number in each county to professionally negotiate with local boards of education. The Education Committee held a public hearing on the bill in the Senate chamber.

Over 100 people attended and many spoke for and against the bill. The debate was becoming emotionally heated until a state senator fainted and was removed from the Chamber on a stretcher.

At the same time, in the House Chamber, the State Government committee was holding a public hearing on a proposed bonus for vietnam veterans. Several hundred veterans attended the hearing which resulted in a welcome display of American patriotism.

Later in the day, the Natural Resources and Environment Committee held a public hearing on House Bill 261. House Bill 261 seeks to designate the red fox as a game animal solely for the purpose of being chased by hounds and also prohibits the hunting of red fox pellets.

Over 400 coon and fox hunters attended the hearing to display their support for the bill. There were many spirited speeches delivered, which convinced the committee to send House Bill 261 to the Rules Committee with the expression that it should pass, however, Rules recommended the bill to the Agriculture and Small Business committee.

The hearing was originally scheduled to last two hours, after that the Judiciary Committee was to use the meeting room to hear the Chief Justice of Kentucky's Supreme Court give a plea in favor of salary increases for Supreme, Appeals, Circuit and District Court Judges.

However, with so many hunters wishing to speak the hearing lasted four hours. After the Red Fox hearing had gone on for 2 1/2 hours, the Chief Justice and Judiciary committee members became quite impatient while waiting out in the

Balance Calorie Intake
With Energy Output
To Hit Your Stride, Eat

"Smart," is the theme for National Nutrition Month in March, calling special attention to energy balance. This means balancing our intake of calories from foods and beverages with our body's output of energy. Our body uses calories in three ways for body functions such as the work of the heart, for physical activity and for utilization of food by the body. Of these, physical activity is the only one over which we can exert much control. By changing the amount of activity in our lives, we can adjust our energy balance and use exercise to help maintain or reduce body weight.

Many studies have indicated that exercise in conjunction with a balanced, reduced-calorie diet is more effective for weight loss than diet alone. In addition, the person who exercises tends to lose adipose or fat tissue, while the person who relies solely on dieting may lose some body protein or lean body mass.

For a rough estimate of your calories needs to maintain body weight, use the following formula. Multiply your body weight by one of the following, depending upon your activity level.

Sedentary, women 14, men 18; Moderately active, women 18, men 21; Very active, women 22, men 26.

Choose sedentary if you sit most of the day, moderately active if you do some walking or light exercise, and very active if you participate in active sports such as tennis, biking or jogging.

For example, Mary Smith who weighs 145 pounds is a 35-year-old secretary who types and takes dictation most of the day. At a height of 5 feet 6 inches with a medium frame, her ideal weight is 130 to 145 pounds according to the Metropolitan Life Insurance tables. Mary's daily caloric needs to maintain body weight can be estimated as 145 x 4 (sedentary) or 2,030 calories.

To lose one pound, Mary would need to decrease her calorie intake or increase her calorie output in exercise by 3,500 calories, the number of calories in one pound of fat. Since a goal of one pound weight loss per week is ideal, Mary might divide her 3,500 calories by seven to get 500 calories a day. Instead of consuming her usual 2,030 calories, she would subtract 500 and take in 1,530 calories. Or she could combine a reduced-calorie diet with exercise and take in 1,780 calories in food and use up the

other 250 in activity.

The following is a list of activities and approximate time it would take Mary to expend 250 calories (a man would use more):

Sitting quietly—3 hours, 40 minutes
Walking, moderately fast—1 hour, 23 minutes
Playing tennis—50 minutes.

These figures show the difference in caloric expenditures between sedentary and strenuous activities. However, even slight increases in energy output can help. Taking the stairs rather than the elevator and using more elbow grease and fewer electrical gadgets will help expend extra calories.

Williams Named CF Chairman

Mr. Charles Thayer, president of the Bluegrass Chapter of the Cystic Fibrosis Foundation, announced today the appointment of Mr. Larry Williams as chairman of the 1980 "Breath of Spring" campaign in Mt. Vernon. "Mr. Williams has displayed concern for children who suffer from Cystic Fibrosis by once again volunteering to lead local citizens in coordinating this year's campaign," said Mr. Thayer. Mr. Williams has conducted a previous Cystic Fibrosis community campaign.

Details of the 1980 campaign, which will be held in e-

her March or April will be announced at a later date. However, according to Mr. Thayer, "All funds raised in the 'Breath of Spring' campaign will support research and care programs for children affected by Cystic Fibrosis."

Henry McCracken and his granddaughter, Sandra Himes, recently celebrated their 80th and 5th birthdays. Sandra is the daughter of Mr. and Mrs. Roscoe Himes. A birthday party was given in honor of them at the home of Mr. and Mrs. Himes with several friends present to help celebrate.

"Self Protection for Women" is the topic of the Homemaker Club lesson for March. Last Thursday, February 29, 22 women received information on this subject from Trooper R.L. Turner, Somerset headquarters of the Kentucky State Police and from Debbie Murray, County Extension Agent for Home Economics in Laurel County. It was a very informative and interesting program. Shown here with Trooper Turner are Emily Glovak, Brothead Willing Workers; Dr. Hazel Noble and Shelbv Fathergill, Town and County Homemakers.

Local Doctor Retains Membership in AAF

Dr. George H. Griffith has completed continuing education requirements to retain active

membership in the American Academy of Family Physicians, the national association of family doctors. The Academy formerly was called the American Academy of General Practice.

The requirements call for members to complete a minimum of 150 hours of accredited continuing medical study every five years. Members become eligible for re-election at the end of the third year following their election to membership. The Academy, the county's second largest national medical association, was the first national medical group to require members to keep up with medical progress through continuing education.

The Academy, founded in 1947 and headquartered in Kansas City, Missouri, was instrumental in the establishment of a new primary specialty in family practice in 1969. The new specialty is expected to increase the numbers of family physicians available to serve the public in the primary specialty. Continuing education program is the foundation of eligibility for family doctors now in practice who apply for certification in the new specialty.

March KET Highlights

[All times refer to Eastern Time Zone]

"Live From the Grand Old Opry" Two full performances, back to back and live, are broadcast as they occur at Nashville's famed Opryland. Many of the country music's greatest artists and entertainers are expected to perform. (Saturday, March 1, 7:00 p.m.-1:30 a.m.)

"National Geographic Special" A whole universe, smaller and larger than man can see, might escape his wonder if it were not for some extraordinary techniques. "The Invisible World" uses amazing cameras and imaging devices to uncover microscopic life in minute detail, penetrate galaxies and atoms, freeze movements, and alter forever our perception of the world. (Monday, March 3, 9:00 p.m.)

"TV: The Fabulous 50's"-A look back at the early days of TV, hosted by Lucille Ball, David Lanning, Mickey Shannon, Mary Martin, Dinah Shore and Red Skelton. With many memorable clips, this retrospective looks at some of the exciting live moments and some of the new formats regarded as TV's "golden years." (Thursday, March 6, 9:00 p.m.)

"Bogart"-A biography of Humphrey Bogart, one of the film world's still-commanding presences, is seen in clips from his pictures and interviews with his co-workers. Scenes from many of his most famous films contrast the tough, guy image with the description given by his friends. (Saturday, March 8, 9:30 p.m.)

"Fred Astaire" The early days of his career with his sister Adele, through the high times with Ginger Rogers are portrayed in "Puttin' on His Top Hat," part one of a two-part series. Part two, "Change Partners and Dances," covers the latter part of Astaire's career and the many remarkable partners with whom he danced. On-camera comments from several of his celebrity friends and co-workers are included. (Monday, March 10, and Tuesday, March 11, 11:00 p.m.)

"Mystery"-This four part adaptation of Daphne du Maurier's masterful 1937 tale of suspense follows the story of a young girl's dream-come-true marriage to the wealthy, brooding owner of an ocean-side estate in Cornwall. "Rebecca" and Joanna David star in "Rebecca" the story of a young bride ensnared in her new husband's dark past. Monte Carlo is the setting as romance falls in a young woman serving as companion to the wealthy Mrs. Van Hopper in the first episode. (Tuesday, March 11, 10:00 p.m.)

"The Cruise: Odyssey"-Oceanoographer Cousteau goes beneath the ocean's surface to observe some of the most famous shipwrecks on earth. In "Lost Relics of the Sea," Cousteau cruises the Mediterranean in search of sunken remnants of antiquity and explores the many wrecks which resulted from the giant eruption of Martinique's Mt. Pelée. (Wednesday, March 12, 9:00 p.m.)

"Hollywood: The Selznick Years"-A tribute to the artistry of David O. Selznick, using clips from some of his most famous films and comments from many people who worked with him. Scenes from some of the most popular Selznick productions are featured, as well as the numerous screen tests for "Gone With the Wind" and "Rebecca." (Friday, March 14, 11:00 p.m.)

"G.I. Give"-The historic Bowling Green is the setting for a tribute to the entertainers and organizations who gave time and talent to bolster the morale of American servicemen during WW II. Hosted by

Van Johnson and June Allyson, this period-piece features the talents of Maxene Andrews, Cab Calloway, Maxine Sullivan and Andy Russell. (Saturday, March 22, 9:00 p.m.)

"The National Nuclear Debate"-This program is designed to enhance public understanding of the issues surrounding the use of commercial atomic power. It will be broadcast live from Harrisburg, Pa. one year after the nuclear accident at nearby Three Mile Island. It includes a moderator, two panels of the top nuclear proponents and critics, and a general audience. (Friday, March 28, 9:00 p.m.)

Roy Brown, seated left, of Rockcastle County and Mrs. Arletta Skeen of Whitley County represented the Wilderness Trail Area at a recent meeting of the State Extension Advisory Council

Extension Advisory Council Meets

The need and concerns of people in Rockcastle County were reflected in recommendations of the State Extension Advisory Council during its annual meeting in Lexington February 19-21.

The annual meeting summed up a year of grassroots efforts in helping to develop statewide programs conducted by the Cooperative Extension Service for the people of Kentucky.

Each of the 14 Extension geographical areas in the state are represented by two members of the State Advisory Council. The Wilderness Trail Area, which includes Rockcastle County, was represented at the annual meeting by Roy Brown of this county and Arletta Skeen of Whitley County.

Recommendations of the State Extension Advisory Council will be used by Extension

administrators in the University of Kentucky College of Agriculture to develop educational programs that continue to serve the needs and concerns of people throughout the state, according to Cheryl Witt, County Extension Agent for Home Economics. Recommendations cover ongoing programs, expanded programs and new programs in agriculture, home economics, 4-H and community development.

The grassroots process for developing Extension programs starts at the county level. Our county and every other county in the state has an Extension advisory council.

Members of the county council elect 4 of their members to represent the county on their area Extension advisory council. Two members from each area serve on the state council.

Super Living

With St. Patrick's Day almost here, I thought that you might enjoy a recipe for St. Patrick's Day cake.

St. Patrick's Day Cake

- 1 pkg. yellow cake mix
- 2 pkgs. pistachio flavor instant pudding pie filling
- 4 eggs
- 1 cup club soda
- 1/4 cup chopped nuts
- 1 1/2 cups cold milk
- 1 envelope whipped topping mix

green maraschino cherries or Green gum drops or.

Preheat oven to 350 degrees. In a large mixer bowl, combine cake mix, 1 pkg. pudding mix, eggs, club soda, salad oil, and nuts. Blend well, then beat at medium speed for 4 minutes.

Pour batter into a greased and floured 10 inch tube pan. Bake 55-60 minutes or until tester inserted in center comes out clean and cake begins to pull away from sides of pan. Let cool in pan 15 minutes.

Meanwhile, pour milk in a deep narrow bottom bowl; add whipped topping mix. Beat at low speed until well blended. Gradually increase beating speed to high, and whip until mixture forms soft peaks about 6 minutes. Refrigerate.

When cake is completely cooled, remove from pan to wire rack. Split cake into 3 layers. Spread about 1 cup of the frosting over bottom and middle layer. Stack cake and top third layer. Spread remaining topping over sides and inside the tube hole. Garnish with cherries or candy, cut and arranged to resemble shamrocks.

COCA COLA CAKE

- 2 cups sifted all-purpose flour
- 1 teaspoon baking soda
- 2 cups sugar
- 1/2 cup butter
- 1 1/4 cups miniature marshmallows
- 3 T. cocoa powder
- 1 cup Coca Cola
- 2 eggs
- 1/4 cup butter milk
- 1 teaspoon vanilla

Cola Iceing

Grease and flour a 13x2 inch baking pan. Preheat oven to 350 degrees. Sift flour and sugar in a large bowl. Stir in

Heat butter, marshmallows, cocoa and coke slowly in a medium size pan stirring constantly until butter and marsh-

mallows are melted. Do not allow mixture to boil. Pour over flour mixture beating well to blend.

Beat eggs in a small bowl until light and fluffy. Stir in buttermilk and vanilla. Beat egg mixture into flour mixture until well blended and batter is smooth. Pour into pan.

Bake at 350 degrees for 50 minutes or until center springs back when lightly touched. Remove to wire rack and frost while cake is still hot.

Cola Iceing

- Combine:
- 1/4 cup butter
- 6 T. Cola
- 3 T. cocoa powder

Heat to boiling, stirring constantly. Remove from heat. Stir in 1 pound confectioner's sugar until smooth. Stir in 1 cup chopped pecans and 1 teaspoon vanilla.

Hints:

Don't leave a spoon or other metal object in a pot that you want to boil quickly. The metal deflects the heat lengthening the time to reach the boiling point.

Always keep food stored in refrigerator. Cover. Cold dry air dries out food's moisture and deposits it as frost.

I'm sure everyone has some pet peeves. A Pet Peeve is a small thing that just "bugs you up". It's a good conversation item when things are dull. Here are a few of mine.

Doesn't it burn you up when the person behind you in the grocery lets a child push the shopping cart and he keeps banging you in the heel with it.

Doesn't it just burn you up when you have your arms overfilled with bags and packages, and someone says, "Do you need any help?"

Doesn't it get you when you've planned all week to watch a special movie on T.V., and on that night it find out it's being cancelled.

Doesn't it just break your heart when you've cleaned the house from top to bottom and everything is shining as a new penny, and hubby comes home to ask, "What have you done all day, watched T.V.?"

Doesn't it knock your day for a loop when you're trying to park your car and all of a sudden a tiny little car wiggles itself into the space you were trying to move into.

Oh, well, guess it all goes with life. Remember! Look to today and all its glory. For yesterday was just a vision, and tomorrow is only a dream.

Have a happy week!

Senate Bill on Delinquent Taxes

Senate attention was directed at bills on delinquent taxes, which require motorists and users of Kentucky coal when it met Monday for the 30th legislative day.

Monday was the halfway mark for the 1980 General Assembly since a session is limited to 60 legislative days. A legislative day is one on which either the Senate or House meets.

The three bills passed by the Senate were:

—House Bill 83, relating to collection of delinquent taxes. The senators approved two technical amendments to the measure before passing it 32-1. The bill was introduced by the Inter-Joint Committee on Cities.

The bill addresses problems relating to abandoned, deteriorating property and sale of property for delinquent taxes, explained Sen. Ed. O'Daniel (D-Springfield).

HB 83 would allow abandoned delinquent property to be sold within a 60-day redemption period rather than a two-year period during which the owner can redeem the property. It would also allow cities to file a single suit against several delinquent taxpayers.

The bill is primarily aimed at Louisville, the state's only first-class city and Jefferson County, but the procedures can be adopted by other cities, said O'Daniel.

—Senate Bill 135, which would ban persons using a compound lens system (a small "telescope" attached to glasses) for both eyes from obtaining a driver's license. It passed 28-3 after addition of an amendment.

The bill does not concern bifocals, trifocals, or any other "regular" glasses, said Sen. Jack Trevey (R-Lexington), the bill sponsor.

Trevey said under current state law a person is only required to see "20/40" vision with his "best eye" when obtaining a license. It is possible for a person who is using a compound lens system to pass the test but "basically be driving blind" with "normal" vision, said Trevey, a physician.

Sen. Trevey said the state Department of Transportation's licensing division had said that he introduce SB 135. Officials can already by regulation refuse to grant a license if the applicant's disability would affect his driving, but did not "feel comfortable" enforcing the restriction by regulation only, he said.

The bill was amended to

ban licensing of a person using the compound-lens system on both eyes, then on one eye. The amendment was proposed by Trevey after some senators voiced concern that the law bar a person who had one normal eye and one eye using the system.

Trevey said he didn't think the amendment was necessary since a person with one normal eye could pass the test without the system. And he said it was highly unlikely that someone with a normal eye would invest \$3,000 in correct vision in the other.

—House Joint Resolution 8, which would require industries in the commonwealth to burn Kentucky coal as a boiler fuel whenever feasible. It would also require Kentucky coal use in state-owned facilities and state testing of innovative coal-burning equipment in state facilities.

Originally the bill referred to coal rather than Kentucky coal specifically. The measure was amended to specify Kentucky coal by a motion by Sen. Doug Moseley (R-Columbia).

Some objections were made concerning the amendment. Sen. Gene Huff (R-London) said he feared the change would have an adverse effect on the resolution because it would appear "blased (and) narrow" in lieu of encouraging use of coal in general.

Sen. Delbert Murphy (D-Owensboro) said utility companies sometimes use alternate sources when Kentucky coal is not available and the resolution might hinder that use.

Moseley responded by saying the resolution urges use when feasible and is not mandatory.

The measure, sponsored by Rep. Roger Noe (D-Harlan) and five other representatives, passed 34-0.

Annual Report Deadline Nears

People receiving social security benefits who earned more than the annual exempt amount in wages or self-employment during 1979, have until April 15, 1980, to file an annual report of their earnings, Bob Anderson, social security manager in Richmond, said recently.

The 1979 annual exempt amount was \$3,480 for people under 65 all of the year and \$4,500 for people 65 or over. In general, a person has \$1 in benefits withheld for each \$2 of annual earnings over the exempt amount.

The annual report is used by the Social Security Administration to determine whether the person received the correct amount of benefits during 1979. If too much or too little was paid, any adjustment necessary is made after the annual report is received.

A special monthly test is used during a person's first year of retirement. Under this test, a person can receive a benefit for a month in which he or she did little or no work regardless of total annual earnings. This monthly test can be used only in the person's first year of retirement.

Most people who need to file a report should have received one in the mail. If a person did not receive a form, or lost or misplaced one, or if she or she received, additional copies of the annual report form can be obtained at the Richmond social security office, located in the University Shopping Center on the Eastern Bypass. The phone number is 623-5858.

The people at the office will be glad to answer any questions. They also have a leaflet, "If you work after you retire," which contains more information about the annual earnings test.

The annual exempt amount for 1980 is \$3,720 for people under 65 and \$5,000 for people 65 or over.

"LEGISLATION" (Cont. From Front)

Rep. Mae Street Kidd (D-Louisville). The amount loaned "will be determined by the needs," she added.

"It is a little bill," said Kidd, but added it will allow senior citizens to keep a roof over their heads.

Kidd said the loans would be limited to necessary outdoor home repairs and would not be for "cosmetic" indoor repairs. An amendment tied to the bill, filed by Rep. Royce Dawshars (D-Whitesburg), would require the housing corporation to provide loans equally among congressional districts.

Dawshars said, in the past, Eastern Kentucky counties have been unfairly deprived of

housing corporation loan monies. "Fifty percent of our people (in his legislative district) live in mobile homes," Dawshars said.

Another measure, HB 235, passed by the House, would permit counties to purchase current service current in the County Employees Retirement System for employees who are members of the system and for former employees employed on or after the system was created July 1, 1958. The bill passed 82-1.

HB 239 passed by a 74-6 vote and would require a legislative committee to review proposals for further occupational regulation boards in the state.

HB 233 also passed the House. The measure, sponsored by Rep. Bob Jones (D-Crestwood), would amend state law to permit the establishment of sanitation districts in second-through-sixth-class cities for the purpose of managing onsite sewage disposal systems.

The bill sponsored by Rep. Buddy Adams (D-Bowling Green) would allow the state to transfer funds electronically. Adams said the state issued six million checks annually and would save money with the measure. The measure, HB 310, passed 85-0.

HB 293, which also passed the House unanimously by a 89-0 vote, would delete the expiration date from state inheritance tax laws for agricultural and horticultural land. The bill is sponsored by Rep. Bobby Richardson (D-Glasgow).

A bill that would remove amateur boxing and wrestling from the regulation of the Kentucky Athletic Commission was passed 86-10.

Rep. James Yates (D-Shively) said the attorney general's office has said in several opinions that the commission is limited to the issuance of permits for such contests.

*Recruiters to Seek 76,000

Air Force recruiters are seeking more than 76,000 enlistees during the present fiscal year, including 73,300 people without prior military service and 2,800 men and women who have served before.

This is an increase of 7,300 over last fiscal year's enlistment totals, Air Force Recruiting Service officials said.

To offset the increased numbers, recruiters have several enlistment incentives to offer eligible, qualified men and women. Prior-service people may be given a base of choice for their initial assignment provided

the Air Force has an opening at that base in their specialty.

Additionally, many prior-service people may retrain into a needed Air Force skill.

People without prior service will find several options, including early promotions, guaranteed training, assignment to foreign countries and more. Recruiting Service officials said.

Earlier, Recruiting Service announced it would seek to recruit 480 physicians during fiscal 1980. Openings exist in some 20 specialties, 12 of which are in critical demand.

Physicians entering the Air Force receive direct commissions in the rank of captain to lieutenant colonel, depending on previous experience and education, and other benefits. For more information about Air Force opportunities, contact:

hall with 70 or 80 hunters who could not get inside the packed meeting room. At that time a loud voice from the back of the crowd shouted, "Well boys, if the snow melts, we'll run big red tonight."

That statement was followed by much laughter and many cheers, and the Judiciary Committee decided to hold their meeting in another room. It is a good feeling to know that Kentucky's state government still belongs to the people.

House of Representatives to Hold Special Meeting on Shale Mining

This message is directed to all farmers and landholders who signed mineral leases with Addington Oil Company, as well as all those who are interested in the impact that large-scale synthetic fuel development may have on Central Kentucky.

At 8:30 a.m., Thursday, March 6th, the Committee on Agriculture and Natural Resources, Subcommittee on Shale Mining, of the Kentucky House of Representatives, is holding a public hearing in Room A of the Capitol Annex, in Frankfort, Kentucky. Representatives of the State Department of Energy, the Department of Natural Resources and Environmental Protection, Addington Oil Company, The Appalachian Research and Defense Fund, Buffalo Trace ADD, the Appliance Coalition, the Kentucky Rivers Coalition, the Attorney General's Office of Consumer Protection and all concerned citizens have been invited to attend.

Citizens from several surrounding counties will gather in Frankfort to present the Subcommittee with their concerns.

Those persons in Rockcastle, Madison and surrounding counties who are dissatisfied with the conditions under which they signed their leases with Addington, are urged to come to this public hearing and make their concerns known to the Committee and to the Attorney General's Consumer Protection Representative.

Questions will be raised at the hearing: What will the impact of heavy energy development be on the social structure

of our communities?; what influence will this new industry have on our local economies: more jobs for many local people or a lot of money for machinery and few new jobs in our communities?; what about our land, will it be heavily strip mined?; what are the environmental costs and benefits of the underground mining methods being experimented with?; where will the massive amounts of water needed for this industry come from?; what will the effects of blasting be on our underground water table and our springs and wells?; what about the possible decline in property values?

All persons in Rockcastle,

Madison and surrounding counties interested in raising these questions and hearing the answers are urged to attend this public hearing.

The hour is a difficult one for many folks, but it is important that concerned people be heard and that there is broad, county-wide public participation in Central Kentucky's energy development planning.

Come to the hearing! Thursday morning 8:30 to 12 in Frankfort, Ky., Capitol Annex, Room A. For more information call Jan Sutherland, 758-4127, at the Appalachian Coalition central office.

agent ever to serve the county in this capacity. During his tenure he initiated the Rockcastle County Improvement Council which was directly responsible for a recently completed industrial park. The Livestock Improvement Association was begun in the county by Mr. Durham, introducing many innovative livestock management practices, including artificial insemination of both beef and dairy cattle. He encouraged commercial production of bell peppers and cucumbers which has greatly enhanced the county's agricultural industry. Numerous research plots have been established in the county for the University of Kentucky's College of Agriculture through his efforts. Pasture renovation practices, for which he is chiefly responsible, have vastly improved livestock herds while reducing the producers' cost. Mr. Durham initiated an annual agri-business tour. Ten such tours have been made to many farming, research, and agricultural development sites. As administrator of the Small Farm Program in the county, he has helped farmers with limited resources to operate their enterprises more economically and productively. He is one of the chief advisors and supporters of Vocational Agriculture teachers and students.

Mr. Durham has received recognition for outstanding service from Epsilon Sigma Phi, Kentucky Department of Agriculture, Rockcastle County Leaders, Rockcastle County Livestock Improvement Association, Kentucky Livestock Improvement Association, Production Credit Association, and a Distinguished Service Award from the National Association of County Agricultural Agents.

Mr. Durham was honored with a retirement dinner last Friday night at the Rockcastle Steak House. Seventy-five of his friends and associates were on hand for the occasion.

Freshmen Win Three

The RCHS boy's freshman team has found the going a little tough this year as they lost their first 10 games of the season.

However, the freshmen came back to win the last 3 out of 4 games which included wins over 49th District foes, Jackson County and Clay County and a hard-fought win over Pulaski County.

When the freshmen beat Clay County, a week ago Tuesday night, it was the first time a Rockcastle team has beaten a Clay County team in basketball in approximately five years.

In that game, the freshmen won 39-33 and were led in scoring by Steve Halcomb with 16 points; Spencer Bengé got 11; Derrick Singleton and Anthony Brock each got 3 and Mike Bullock and Steve Collins scored 2 each.

The freshmen then defeated Pulaski County Thursday night by a score of 42-40.

The freshmen never trailed in the game which was closely contested all the way.

Anthony Brock led the scoring with 12 points; Collins got 10; Jerry Fain got 7; Holbrook 6; Jeff Ham 4; Singleton 2 and

Benge 1. Jackson County was next on the Freshmen's list and were trounced by a score of 58-30.

Steve Halcomb had a season high 22 points as the younger Rockets played extremely well.

Also scoring were: Singleton 2; Brock 8; Fain 6; Ham 2; Bengé 4; Bobby Bailey 2; Terry Cromer 2; Bullock, 2 and Collins, 8.

The freshmen ended their season with a record of 3-11.

REC Council

The RCHS boys' team won their final game of the regular season Friday night as they downed Williamsburg 50-49.

Mike Manis, who had 15 points for the game, hit the front-end of a one-and-one with 2 seconds to go on the clock to give the Rockets their margin of victory.

Manis also led the Rockets in scoring with 17; David Riddle pumped in 11 but made a key steal toward the end of the game that helped the Rockets to their victory; sophomore David Burdine got 5; Trent Mullins, Matt Poynter and Anthony Davidson all had 4 points; Marty Hensley got 3 and Clinton Graves finished with 2 points.

The boys will play Ben Franklin and company Thursday night (tonight) at Jackson County in 49th District play starting 25 minutes after the girls' game.

B-TEAM WINS

The B-Team also won Friday night by a score of 51-37. The boys led the entire way and there was never any doubt as to the outcome.

David Burdine led his team in scoring with 19 points; Jeff Stevens got 9; Barry Proctor, Willie Hiasf and Scott Henderson all got 6 points each; Dwight Hensley had 3 and Craig McGuire got 2.

The B-Team ended their season on a winning note.

Kegler's Corner

LEXINGTON—DEAR CAWOOD: What are the possibilities of getting some tickets for the home basketball games next season at Rupp Arena? How should I go about it? S.J.H. Princeton, Ky.

DEAR PRINCETON: Frankly, your chances are pretty slim. At Morgan, the ticket manager at U.K., says the procedure is to send your name and address to him. If tickets become available when the season tickets are offered, a drawing is held to determine the right to buy those tickets. Good luck.

DEAR CAWOOD: How many of the players on this year's Kentucky basketball team are married? Which ones are single? N.S., London, Ky.

DEAR LONDON: None of the players are married. All 12 members of the team are single. I have a feeling that's good news for you.

DEAR CAWOOD: I read in the paper that Kentucky held an open practice before the trip to LSU. Do they plan to let the public watch any more practices this year? G.G., Louisa, Kentucky.

DEAR LOUISA: It's very difficult for Coach Hall and the team to get much done when there's a big crowd in the gym. I would think it would inhibit both the coach and the players some too. All the games will be in tournaments the rest of this season and Coach Hall doesn't plan any open practices. The one this year was so well attended I wouldn't be surprised if they did it again next year.

DEAR CAWOOD: How can I get an autographed picture of the Kentucky players? I am interested in getting one of Kyle Gray in particular. G.L., Hartford, Kentucky.

DEAR HARTFORD: You can obtain the picture by sending \$1.50 to the Sports Information Director, University of Kentucky, Lexington, Kentucky, 40506. You're on your own in locating Macy or any of the other players to sign it for you.

If you'd like to ask a question or make a comment just send your inquiry to Cawood Comments, Suite B-6, 120 Kentucky Ave., Lexington, Kentucky, 40502.

Five Rockcastle Men Win Madison Association Tournament

These five Rockcastle men won the Madison County Men's Association Handicap team tournament when they posted a score of 3,084 for the event. The close team to the men had a score of 2,084. Members of the team were, from left: Jimmy Cromer, James Noe, Rick Anderkin, Roy Winstead and Ed Jackson. All five men bowl in the Rockcastle Mixed League on Thursday night. Roy Winstead was second in all-events which means that all his games combined, team-double and single events, was the second highest total in the tournament.

Girls Play Pulaski Co. Close

The RCHS girls' team played host to the 13th ranked team in the state Thursday night and gave Pulaski County all they could handle. The girls finally lost by a score of 57-49 but had led in the entire first three quarters of play.

At the end of the first quarter, the girls were ahead by Pulaski but had seen this lead dwindle to 2 points at the end of the third period. A rash of baskets for Pulaski and tenacious defense brought the Pulaski girls back for the win.

The RCHS girls shot 49% for the game, one of their better outings of the season in that category.

Donna Faulkner, as she has done all year, turned in a fine

performance leading the girls in scoring with 15 points. She also pulled down 5 rebounds.

Tracy Mulberry had 9 points and 6 rebounds; Kay Hammonds, who shot an outstanding 80% of her shots - hitting on 4 of 5 field goal attempts, had 8 points; Sandy Clark also got 8; Kim Howard scored 5 points and Libby Ruppe got 4.

The girls will play in 49th District play tonight (Thursday) at Jackson County at 6:30 p.m. against Onida.

Fishing Report

As soon as the water temperatures in the major headwaters of Lake Cumberland rise above 43 degrees, walleye should start moving upstream on their annual spawning runs. Along with the fish (and the walleye fishermen) will come a number of employees from the Kentucky Department of Fish and Wildlife Resources.

Kentucky Afield AFIELD

By John Wilson

Mention "D-J" to the average fisherman and chances are he'll think you're talking about some new bass bait. But D-J isn't something you tie on the end of your line, even though it has helped anglers all over the country catch more fish.

"D-J" is easier to say than the "Federal Aid to Sport Fish Restoration Act of 1950." It's also less of a mouthful than even the shortened "Dingell-Johnson Act"—named for the two congressmen who sponsored the federal legislation which has provided more than \$4 million toward improving Kentucky fishing.

So among the fisheries biologists and administrators who use this federal money, it's just "D-J." Currently, Kentucky receives around \$500,000 in D-J funds annually, money which pays 75 percent of the total cost of approved projects, according to Jim Axon, assistant director of the division of fisheries and the man in charge of administering the D-J program in Kentucky.

But D-J is not just another federal give-away. If you're eyeing federal income tax bill and wondering how much of that check you've got to write to the IRS will be used for fishing, the answer is none. Unless you're a fisherman, you don't pay a penny for this program.

All D-J funding comes from a 10 percent federal excise tax on selected items of fishing tackle—rods, reels, lines, leaders, hooks, bobbers, artificial lures and similar equipment.

This tax is added at the manufacturing level, so most fishermen aren't aware that they pay it. The money collected is distributed to the states by a complicated formula based on the number of licensed sport fishermen and the size of each state. Kentucky currently receives around 1.6 percent of the total, Axon says.

Each project on which D-J money is spent must be approved and must be aimed at improving sport fishing. Typical projects include research programs (such as the current black bass evaluation project), surveys, technical guides to pond owners, lake construction and some money for construction programs—a portion of the Clark Hatchery near Morehead was financed with D-J funds. Money is also available to purchase land for access sites and build the necessary launching facilities.

In each case, D-J pays 75 percent of the total cost of approved projects, with the Department of Fish and Wildlife Resources the state treasury paying the rest—mainly from the sale of Kentucky sport hunting and fishing licenses.

Like everything else that costs money, D-J projects have been hit hard by inflation. But bills have been introduced into both houses of the U.S. Congress to expand the program by taxing certain items now exempt—items such as stringers, creels, landing nets and almost all other tackle not presently covered.

The proposed legislation would also put a 3 percent excise tax on the sale of boats (less than 25 feet long), outboard motors, trailers, depth finders and other similar items.

If it gets through Congress this expanded D-J bill could mean an additional \$1.5 million annually for Kentucky—which is more than the current total budget of the entire fisheries division. Needless to say, those who manage Kentucky's fisheries and those concerned with the future of fishing in Kentucky are catching with great interest the progress of these new bills currently in committee in both the House and the Senate.

If this expanded D-J legislation does become law, chances are that the average fisherman still won't know what "D-J" means, but he'll nevertheless see a lot more activity designed to improve his chances of catching fish.

A creel clerk will be on duty in the area to keep a record of the number of walleye fishermen caught.

Several biologists and their crews will also converge on the area. Their main task will be to net walleye, strip them of their eggs and milt and release them back into the stream and to tag as many walleye as possible to obtain an estimate of the walleye population.

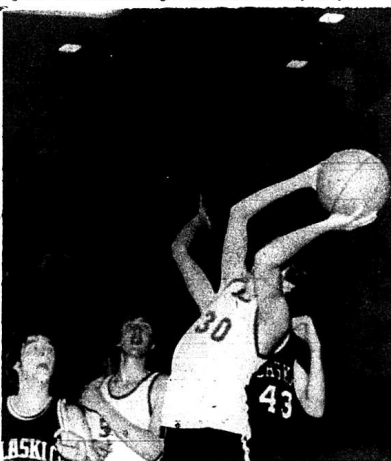

The eggs will be fertilized on the spot, then taken to the

Libby Ruppe, No. 52 for the Rockets, puts up a shot in earlier action this year against Berea. The girls played the 13th ranked team in the state, Pulaski County, last week and lost by only 8 points. They will play OneDay Thursday night (tonight) in district play at Jackson County at 6:30 p.m.

David Krumm, No. 10, brings the ball up the court in Friday night action against Williamsburg—a game the Rockets won 58-49. Krumm is one of the top scorers in the district play this year. The district is being held at Jackson County this year.

Derrick Singleton, No. 30, puts up a shot in action against Pulaski County Thursday night at home. The freshmen won and finished their season this week with a 3 and 11 record, one of their wins coming over Clay County last week. Derrick had 3 points against Pulaski.

Clark hatchery near Morehead for rearing to stocking size. All of the fish raised in this manner will be returned to the Cumberland headwaters.

This round-about process, biologists explain, is an attempt to give Mother Nature a helping hand. The most critical time in any fish's life is just before and after it hatches, and survival should be higher under controlled hatchery conditions than in the wilds.
