Father Beiting Tells Council Lake Linville Needs Much Attention

Father Ralph Beiting, whose group Christian Appalachian Project (CAP) last year leased the recreational facilities at Lake Linville, told the Mt. Vernon City Council Monday night the CAP lost approximately \$10,000 in addition to the \$1,000 lease payment to the city and not including new equipment installed at the lake.

Saying that the lake was a tremendous asset to the community and should be developed even more over the years, Father Beiting told the council that a great deal of the loss was due to vandalism which was practically unchecked because of a lack of adequate patrolling of the lake by law enforcement officers. He said he and his group asked both the state police and city officials to allow their policemen to patrol the area on a regular basis but was always told that because of a lack of adequate manpower, this was not possible.

Father Beiting said a great deal of CAP's loss at the lake was because of inadequate maintenance of the property by the city. Citing such improvements which CAP made such as relaying almost all the water lines, replacing the water pump, work tank, work on the sewer system, repainting the buildings and signs and graveling roads and putting sand on the beaches plus replacing the electrical panels for camper hook-ups, Father Beiting said this was all to no-avail without adequate security protection.

The lack of qualified personnel to run the dock, mainly because of threats from undesirable elements, was one of the big problems, Father Beiting said. The man originally hired, Treford Arvin, did an excellent job, according to Father Beiting but he quit after a great deal of harassment and even threats to his life by people who were at the lake to vandalize and steal. Arvin left in July and, again according to Beiting, the next man hired did not do an adequate job and receipts fell off drastically.

Father Beiting listed three items which the area, need desperately in order to be run properly this summer and at the top of this list was adequate security. Other two items were additional work on the sewer system, which has come under close scrutiny by the Health Department and which is sub-par, and the lack of a fence around the lake.

Father Beiting said that CAP's water bills last summer were "horrendous" because of vandals who would sneak in and tamper with the faucets which would then run sometimes all night, depleting the water supply which had to be hauled in.

Beiting said he sometimes had to seek "no dis-cars" about the lake. However, Mayor Roland Mullins told Father Beiting that this was not the case that "City had a commitment to the park and we (the city) do care." Mayor Mullins cited the investment by the council, the Jaycees and the Mt. Vernon Woman's Club in construction at the lake of tennis courts, a basketball court, a planned softball field and the installation of playground equipment, financed in part by the Woman's Club.

Father Beiting then asked if there was any way to get together with a committee of some council members to work together and see if some of the problems connected with the lake couldn't be solved so the recreation area could be used by families.

Councilman Tom Welch was appointed to serve on this committee in his capacity as a member of the council's committee on police and recreation. There will be a presentation to the entire council at May's meeting to see what has been decided and will be necessary for the area to be operated right this summer.

In other business, the Council heard an informal proposal from Appalachian Computer

Service of London to provide the city with the calculating and printing of their water bills.

Appalachian Computer Service is a data processing and computer service which handles the billing for several towns and water districts and several garbage services. They also calculate and print tax bills, including those of the county.

The estimated cost for this service would be 24¢ per card per month and the council asked the service to draw up a formal proposal for presentation at the May meeting.

Local building contractor David Shivel was at the meeting with a set of specifications which he had drawn up for a new roof for the fire department area of city hall. The roof is leaking badly and has been almost since the remodeling project was completed.

The council accepted the specifications and voted to advertise bids for the project. Councilman Tom Welch reported that he and assistant fire chief Bud Cox had met with officials of the hospital to discuss the moving back of the curb behind the hospital.

The present location of the curb is hampering access to one of the streets in the area by the

fire department and Mr. Welch reported the hospital had agreed to move the curb back the necessary distance so the fire truck could get through unhampered.

Two bids for a new billing machine for the water works department were opened and Burroughs was the successful low bidder. However, the council decided to hold off on accepting the bid until the presentation by Appalachian Computer Service which, if accepted, would do away with the necessity for buying the machine.

The council also agreed to find out how many employees of the city and water works would wish to be included on a hospitalization plan which would be paid one-half by the city and one-half by employees. They also decided to get some cost estimates for this coverage from Blue Cross-Blue Shield and to take further action at the May meeting.

Councilman Welch reported on the house numbering project in Mt. Vernon. He said he had met with the Jaycees who were enthusiastic about the project and wanted to get the numbers and install them themselves as a money-making project for the club.

Joe Clark Wins Fight To Retain Magistrate Seat

Magistrate Joe Clark, who had lost his fight to stay on the Fiscal Court in Circuit Court and one in the Court of Appeals, won his final battle last week when the Supreme Court of Kentucky ruled that plaintiff's (Ernest Mason's) motion for discretionary review was improvidently granted.

According to Mr. Clark's attorney, Carl Clontz, this means, in effect, that the Supreme Court had reviewed briefs presented to them and felt they (the Supreme Court) should not have taken the case.

The Court of Appeals in effect and Mr. Clark had won that round.

The court's decision ended an almost three-year battle by former magistrate Ernest Mason, who was defeated by Mr. Clark in the November, 1977 General Election on a write-in vote. Mason had earlier defeated Clark in the primary and election fraud was charged by Mason in bringing his suit. Clark has been serving as magistrate since January of 1978.

Mason originally won a decision in his favor in Circuit Court. Then case was then taken to the Court of Appeals by Clark and there, on the first hearing, the circuit court's decision was upheld. Clark again appealed to the same court and this time, the appeals court reversed itself and ruled in Clark's favor. Mason then took

the case to Kentucky's highest court.

Grand Jury Issues Second Report

The March Term of the Rockcastle Grand Jury made a second report before being dismissed and this report mainly concerned their findings on the condition of the courthouse.

The report read: "The Grand Jury has heard testimony from the County Judge Executive, four of the Magistrates and the Jailer of Rockcastle County on the subject of its previous reports dealing with the lack of janitorial services being provided to the courthouse. The Jailer, Billy Kirby, has assured the Grand Jury that he will oversee the janitorial work as provided by statute and the County Judge

DHR Thinks Food Stamp Program In Serious Trouble

The Food Stamp Program is in grave danger, according to a letter from Harold L. Steele of the Department for Human Resources, Division for Field Services.

Mr. Steele said in his letter to Community Action Agency (CAA) Executive Directors, that "With every passing day, it becomes increasingly likely that food stamp benefits will stop on June 1, 1980."

Mr. Steele said the food stamp bill (S.1309) was expected to reach the House floor in mid-March but, because of all the activity around the 1981 budget, that time table was changed. It was then expected to reach the House floor some time during the week of March 31 and possibly not come up for consideration until after the April recess by the House.

The letter goes on to say, "In order for food stamp benefits to continue uninterrupted, the House must pass the bill by May 15th. (1) Congress must agree on the Third Concurrent Budget Resolution; (2) Authorizing legislation, lifting the food stamp cap above the current \$2.2 billion ceiling must be passed on the House floor (which will then go to a conference committee, whose recommendations must be passed by both the House and Senate); and (3) a supplemental appropriation

providing the funds must pass. However, Mr. Steele warns, "The likelihood that all three of these events will occur before May 15 is not good."

Also, according to Mr. Steele's letter, if this threatened cut-off should occur, "An estimated twenty million food stamp recipients throughout the nation could go hungry for months."

Mr. Steele is asking for support of S.1309 without the amendments included in the HEMS Amendment.

CLEAN-UP DAY MEETING

There will be a "Clean-Up Day" meeting at Mt. Vernon Elementary School on Saturday, April 26th at 8:30 a.m. which will last until noon.

Trash bags will be available at this time for home clean-up or can be picked up at the Soil Conservation Office.

County dump trucks will now travel to landfill. Any groups, in any area, willing to help should call Greg Stephens at the SCS office 258-2841.

ATTENTION POTENTIAL PEPPER GROWERS

This is the last week to sign-up to grow peppers this summer.

You may sign up to participate at either the County Extension Agent's office or at Stewart Fertilizer and Farm Supply in Mt. Vernon.

KIWANIS CLUB TO SPONSOR PAPER DRIVE

The Mt. Vernon Rockcastle County Kiwanis Club is beginning a paper drive in Rockcastle County and asks the cooperation of all citizens and businesses in their effort to raise money for local projects.

M.L. Becker, president of the club, asked Tuesday that everyone begin saving their paper, of any type, and more details will be announced next week as to a delivery point.

Hey Kids! It's Circus Time

The Rockcastle Shrine Club will once again be playing host to Rockcastle County children Saturday, April 19th when the Shrine Circus comes to town—or at least Lexington.

All children in the county, through 12 years of age, are invited to attend the circus as guest of the Shrine and transportation will be provided by school buses. Buses will be loading at Roundstone, Brodhead and Livingston schools and at Mt. Vernon Elementary. The buses will leave the first three schools named at 11:30 a.m. to come to Mt. Vernon School and all buses will be leaving there at noon.

So, mark your calendar, kids, for this Saturday, April 19th for a day at the Shrine Circus.

Four Escape Serious Injury in Accident

An elderly Wooten couple and their two daughters escaped serious injury last Friday afternoon when their tractor-trailer overturned on the interstate near the Burr interchange.

State Trooper Guy Blevins, who worked the accident, said a car, driven by Mrs. June Melton, 38, of Middletown, Ohio was traveling south on the interstate in the left hand lane beside another car when a truck, ahead of her in the right hand lane decided to pull into the passing lane. It did so, causing Mrs. Melton to have to leave the road and go into the median. Witnesses to the accident said the

REPUBLICAN WOMEN TO Meet and Install Officers

The Rockcastle County Republican Woman's Club will meet Monday, April 21 at 7:30 p.m. at Jean's Restaurant.

The program will include installation of officers for 1980 by Mrs. Emogene Holt, Governor of the 5th District of Republican Women.

Anyone wishing to join the club is welcome.

An elderly Wooten, Ky. couple and their two daughters escaped serious injury last Friday afternoon when their car was apparently forced off the interstate by a tractor-trailer truck. The car left the interstate, went into the median,

came back on the interstate, struck the rear end of the truck and went back into the median and flipped over several times. (See story elsewhere on front page).

If you think it wasn't cold Tuesday morning, you are wrong - It was cold enough and snowed enough to cover the windshield of a car on Wednesday morning, car owners awakened to find their windshields covered with ice. But, it's April and you can expect any kind of weather and Wednesday it improved considerably with sunshine and at least a little warmer temperatures.

Letter to the Editor

Dear Editor,
On April second I noted in a
story in the Commonwealth
Journal that the American Aca-
demy of Pediatrics had honor-
ed Representative Tim Lee Car-
ter, MD, Republican of Kentuck-
y for his leadership and achi-
evement in advancing the cause
of maternal and child care.

He had previously been
given the American Medical As-
sociation's highest award, the
Benjamin Rush Bicentennial A-
ward for citizenship and com-
munity service.

Tim Lee, as he is affection-
ately known in the Fifth Dis-
trict had acquired this ability
to influence health legislation
by becoming the ranking minor-
ity member of the subcommittee
on health of the House of Repre-
sentatives Committee on Inter-
state and Foreign Commerce.

It was my pleasure to have
worked with him on several
pieces of health legislation and
to be his sounding board in many
other cases of this type of
legislation.

Few people realize that
State Senator John Rogers in
the 1978 legislature was mainly
responsible for helping me get a
bill requiring all health insur-
ance in the state of Kentucky
to cover, from birth, all "sick or
deformed newborns." This bill
has been a blessing to the many
parents who have a "sick new-
born" since it required that all
health insurance policies pay
both the hospital and physi-
cian's bill for care of these
children from birth. Prior to
this legislation, no health insur-
ance policies covered new-
borns, either sick or well.

Few people, except young
parents who suddenly were con-
fronted with a \$400 or \$500 bill
for the nursery care of a normal
newborn, were aware that 4%
of all health insurance policies
sold in the Commonwealth of
Kentucky did not pay for the

newborn nursery stay of the
so-called "normal newborn."

In the current legislature,
Senator John Rogers sponsored
and "shepherded" through
both houses, a bill which will
offer a rider to all holders of
current health insurance in the
Commonwealth and make that
rider available to anyone buy-
ing health insurance so that
coverage may be purchased for
this type of newborn coverage.
This legislation was made ne-
cessary because of the extreme
increase in hospital rates for
nursery services over the past
seven to eight years since so
much more intensive care equip-
ment has had to be purchased
and nurses trained for this type
of care in our current hospital
set-up. Governor Brown recent-
ly signed this bill into effect.

It has been my pleasure to
have worked with both Repre-
sentative Tim Lee Carter and
State Senator John Rogers in
achieving worthwhile child
health legislation. It is my sin-
cere wish that the Republican
Party give Senator Rogers the
opportunity to continue in
Tim Lee's footsteps in your May
primary. I have found him very
concerned with the needs of
children and very competent to
fill the large shoes of our late
Congressman who is retiring
this year.

BLOOD DRIVE SHOWS POOR TURNOUT

On Thursday, March 27th,
the Rockcastle County Home-
makers sponsored the first
blood drive of the year. This
blood drive was the first of
three to be held in Rockcastle
County in an ongoing attempt to
keep all county residents
covered under Central Kentuck-
y Blood Center's "Total County
Coverage" program. The 1980
goal, which is the same as last
year, is 195 pints. With three
blood drives per year this
would break down to 65 pints
per drawing. Even though the
homemakers put much effort
into this program and the Mt.
Vernon Signal, WRVK Radio
and the Bank of Mt. Vernon
continued to lend their support,

the blood drive only produced
38 pints!

Those who came to donate
were:

Hal Midkiff, Virginia Ma-
chal, Dillingham, Betty
Allen, Charles Abney, Ricky
Thompson, Ruth McGuire, Mary
Hansel, Edison Coldiron, John
Holbrook, Shirley Long, Nori-
eta Thompson, Clayton Alexan-
der, Rosalind Philbeck, Marita
McGuire, Virginia Sowder,
Joyce Brown, Ruby Stewart,
Arnold McGaha.

Beatrice Hensley, Louise
Graves, Paul Mason, June Cole-
man, Betty Lewis, Thomas
Hayes, Wanda Carroll, Charles
Hurst, Edwin Brock, Patricia
Brook, Una Roberts, Debra
Brown, Gayle Scoggins, Debbie
Cash, Vicki Lowery, Jerry Mar-
tin, Sandra Franklin, Michael
Crank.

Roy Miller, Joyce Lark,
Jesse Thacker, Dollie Roberts,
Charles Napier, William James,
Polly Abney, Betty McKinley,
Jewell Hansel, William Par-
sons, Carol Abney, Henry Van-
Zant, Cheryl Witt, Sherrill Wood-
all, Carol Woodall, Kenneth
Taylor, Reta Singleton, L.C.
Mink.

Because of various reasons,
only 38 pints were drawn from
this list.

The next blood drive will be
held on Tuesday, July 1st at the
Bank of Mt. Vernon. This blood
drive will have to produce 92
pints in order to keep the county
"on schedule" for 1980.

Please Rockcastle Coun-
tians, there have been many
injuries, car accidents and ill-
nesses involving your families
and neighbors and the Central
Kentucky Blood Center did not
forget you. Please don't forget
the blood center when they
come to town.

All those interested in help-
ing with the blood program or
those wishing to donate, should
contact any homemaker or call
me toll free at 1-800-432-9528.

Sincerely,
1/s/ Harry J. Alheid

State Roads Damaged \$1.2
Million by 1979-80 Winter

Kentucky Department of

Transportation officials esti-
mate that state-maintained
roads suffered almost \$1.2 mil-
lion in weather related damages
during the 1979-80 winter.

This figure represents a
large decrease from the \$16.7
million damage estimate for
last winter and it is only about
three percent of the \$39 million
estimate for damages during the
severe winter of 1976-77.
A milder winter deserves
much of the credit for the
decrease, according to Transpor-
tation Secretary Frank Metts.
"We were fortunate to have a
mild winter with minimal dam-
age considering the deficien-
cies in the Road Fund and the
increased cost of asphalt,"
Metts said.

During the last week in
January, asphalt prices rose
from \$110 per ton to \$144 per
ton, an increase of \$34 on each
ton.

The damage estimates are
based on "anything above nor-
mal wear and tear that speeds
the aging of the pavement,"
according to assistant state
highway engineer A.R. Romine.
Included are abnormal slips and
slides of the right of way and
deterioration of the roadway
surface due to freezes and
thaws, he said.

District maintenance engi-
neers from KYDOT's 12 high-
way districts assessed damages
across the state, Romine said.
Four district offices, in Paducah,
Madisonville, Louisville and
Somerset, reported "no sig-
nificant damage" to roads in
their districts, he said. The
Jackson district office in East-
port, however, reported in the
highest damage estimate - a
total of \$600,000.

Estimates for the other sev-
en highway districts were: Dis-
trict 11 at Manchester, \$200,000;
District Six at Covington, \$170,
000; District 12 at Pikeville,
\$151,000; District Three at Bow-
ling Green, \$102,500; District
Nine at Flemingsburg, \$50,000;
District Four at Elizabethtown,
\$6,000 and District Seven at
Lexington, \$5,000.

Repair of potholes is cal-
culated separately and is not
included in the estimates, Ro-
mine said. More than \$2.8 mil-
lion was allocated by KYDOT
for pothole repair for the fiscal
year ending in June.

EXTENSION HOME ECONOMICS

By: Cheryl Witt
County Extension Agent for Home Economics

April comes to us with gifts of wildflowers and her voice is of happy songbirds. April is an attractive month and in the fields and gardens there is much to be done in preparation for the coming months of May and June.

Years ago the poet John Ruskin wrote that everyone should try to make some small piece of earth beautiful, peaceful, and fruitful. In so doing, he said, "we will have flowers and vegetables in our gardens, plenty of corn in our fields, and green grass on our lawns." Generally speaking, horticulturists with the University of Kentucky College of Agriculture agree, and add that if there is one month in the year that lends itself to doing this job well, it is April.

By April most gardeners have already planted corn, peas and beans in the ground, but of make the garden even more "fruitful" by planting beets, carrots, Bibb lettuce, radishes, cucumbers, and early sweet corn can be planted at various times during the month.

To have a beautiful green grassy lawn, UK horticulturists recommend the application of a herbicide for controlling broadleaf weeds, wild onions, and crabgrass in the turf. This type of lawn treatment should be carried out around April 15th, to be most effective. Since new and improved herbicides are coming out from time to time, any homeowner contemplating lawn renovation should first contact his County Extension Agent for advice on what chemicals to use and how to use them.

And since the bugs will be

coming out in force in April, be sure to give the old sprayer a routine check to see if it needs cleaning or repairing.

Then to further improve the appearance of the surroundings, as soon as magnolias, rhododendrons and azaleas have bloomed, apply acid fertilizers. Also check the rose bushes. If some of the canes have brown or discolored areas, remove the damaged portions by snipping them off about one inch below the discolored area.

Some other things worth doing in April are these: on Arbor Day plant a tree, read the song of Solomon and listen to the "voice of the turtle"; pick a mess of wild greens to eat with young onions; drink some saffron tea, and if possible, take one day off and go fishing.

Transplanting Wildflowers

Soon the tides of spring will be running high. Many folks will be taking to the woods and fields to gaze with wonder upon the exotic beauty of wildflowers and early blooming shrubs.

Often the temptation will be overpowering to dig up some exotic flower like the lady's slipper or columbine, or some shrub like the flame azalea, for transplanting in the flower garden or lawn. But, except in some rare circumstances, don't do it. More than likely the results will be disappointing. Removed from their natural environment, the plants usually pine away and die.

There is nothing wrong in the judicious removal of some wildflower or shrub if it appears somewhere in abundance and is not of an endangered species. When removing wildflowers it should be remembered that they are very selective as to type of soil and conditions of light. Some wild plants need plenty of sunshine and others very little. Therefore, before removing some wild plant, be sure the lawn or flower garden provides similar conditions to those existing in its original habitat.

Most wildflowers need plenty of sunshine and other very little. Therefore, before removing some wild plant, be sure the lawn or flower garden provides

removal is to take up a large ball of dirt around the roots of the plant. This will keep the roots from drying out during transportation and will supply the necessary soil requirements until the plant becomes adapted to its new home.

There are many good books on wildflowers and their culture. They should be consulted before attempting to start a garden of this kind. Actually the best way to get a specimen of some desired wildflower is to order it from some commercial seed company. Many of these companies now list most of the prettiest wildflowers to be found in Kentucky in their catalogs, and at very reasonable prices.

Something else to remember - in some places in Kentucky it is still illegal to pick a wild flower, much less dig one up.

4-H Area Talk Meet - Eight Rockcastle County youth participated in the Wilderness Trail Area Talk Meet held at Barbourville on March 29th. Participants gained this opportunity to compete against 4-H youth from seven other counties by winning first or second place in their age category at the Rockcastle County Talk Meet. At the area event, Rockcastle County 4-H'ers received six blue, two red and one champion ribbon. Amy Hamm, daughter of Mr. and Mrs. Doug Hamm was chosen champion of the nine-year-old category. She will now advance to the State Talk Meet to be held in June on the University of Kentucky campus. same trust package and, unlike real trust arrangements, these trusts are not tailored to the individual's needs.

The promoters of the illegal family estate trusts know competent attorneys and accountants do not let their clients use these illegal trust arrangements. The promoters misled Kentuckians by warning their potential customers not to seek the advice of their regular, reputable tax consultants.

Beshear warns Kentucky citizens to be aware of illegal family estate trusts. If any citizen is solicited for an illegal trust package, suspects they have paid for an illegal family estate trust package or desire additional information on illegal trusts, he or she should contact:

1. INTERNAL REVENUE SERVICE for particular tax information, legal trust arrangements and the illegal "FAMILY ESTATE TRUSTS" or other tax information at the local IRS office or call for tax information at: 1-800-428-9100.

NINTH BIRTHDAY - Susan Rae Smith celebrated her 9th birthday Saturday. Those attending were Melvia Wren, Tammy Bullen, Jennifer and Carol Leases, Shisley Bullen, Vera Dalley, Jimmy Lee and Kathy Merritt and Katherine Clark. Out-of-town guest was Dot Clark of Fairfield, Ohio. Many nice gifts were received and cake and punch were served. Susan is the granddaughter of Mr. and Mrs. Nathan Clark and Ollie Smith.

Furthermore, the package misrepresents that a Kentucky citizen can assign his/her assets and income to the trust, leaving the citizen exempt from paying taxes on the money.

The Internal Revenue Service and the U.S. Tax Court have declared the family estate trust money taxable as a corporation. The Attorney General's Consumer Protection Division is investigating the illegal family estate trusts to determine if the illegal practices involve criminal fraud, (theft by deception; KRS 514.040) or "unfair, false, misleading or deceptive practices" under the Kentucky Consumer Protection Act (KRS 387.110 to 387.900). The investigation is being coordinated with the Internal Revenue Service.

Farmers, businesses and professional people, company executives and wage earners in the five western counties are among those Kentuckians known to have been victimized and to have invested in the trusts. The price of the trust depends on the person's income, however, all citizens receive the

assessed by the IRS.

Promoters of these illegal family estate trusts have contacted Kentuckians in Marshall, Muhlenberg, Carlisle, Calloway and McCracken counties. However, information from the IRS indicates the illegal practice is spreading into other counties in Kentucky.

The Kentucky taxpayers involved are sold an illegal tax package misrepresented as a family estate trust. These illegal tax packages are also misrepresented as equity trusts, pure trusts and constitutional trusts. The illegal trust games the buyer as its officers or beneficiary and is misrepresented as paying the taxes on the undistributed net income of the trust

BWARE OF ILLEGAL FAMILY ESTATE TRUSTS

The Internal Revenue Service has recently identified more than 100 residents of Western Kentucky who have been deceived into paying \$1,200 to \$10,000 for illegal "family estate trusts," according to Attorney General Steve Beshear. These trusts are misrepresented as providing federal income tax exemptions.

The Kentucky victims are having their tax records examined and substantial additional taxes and penalties are being

Method of Planting On Hills Is Very Important

One of the first lessons learned about soil conservation is to plant row crops around a hill instead of straight up and down. Yet in the field, this is one of the most neglected conservation practices. And, for one, don't understand why?

Planting rows around the hill or contour farming doesn't cost a farmer any more money than running and down the hill. And yet this single conservation practice will cut soil erosion in half. Contouring also fits well into any cropping system including corn, tobacco, soybeans, or wheat. So why not try it?

In talking with farmers about contouring I find that most farmers are concerned about soil erosion but they don't understand how to plant on the contour. The Soil Conservation Service is available to anyone and has the manpower and know-how to layout fields using contouring techniques. So this

Fairview

By Mrs. Hubert Chasteen

Worship services were well attended at the Fairview Baptist Church over the weekend. Sunday School attendance was one hundred.

We have enjoyed our recent visitors and invite them back any time. We are always glad to have you at Fairview!

Our pastor, Reverend Harvey Pensoil will be conducting a revival in Pulaski County this week. We pray that souls will be saved.

Sympathy is extended to the families of Mrs. Betty Butler of Richmond and Mrs. Mae Anderkin of Conway. Mrs. Butler is a sister of Delbert and Oscar Alexander and Mrs. Anderkin is Mrs. Ada Saylor's sister. May God comfort the relatives in their bereavement.

Attending the Rockcastle County Youth Meeting at Freedom Baptist Church this past Saturday night were Mrs. Verna Croucher and daughters Vonda and Dawnna, Sherwood and Gary Pickle, Shirley Mullins and Sheila Patrick.

Mr. and Mrs. Bill Knapp and daughters Johanne and Traci of Wellington, Ohio spent a few days recently with her aunt and uncle, Mr. and Mrs. Hubert Chasteen. We enjoyed seeing them again.

Mrs. Joyce Seals and daughter Kim of Berea visited her parents Mr. and Mrs. Hubert Chasteen on Easter Sunday afternoon.

Mr. and Mrs. Oscar Alexander of London were guests of Mr. and Mrs. Eugene Alexander last Sunday.

Mr. and Mrs. Rex Davidson were supper guests of his mother, Mrs. Myrtle Davidson on Easter Sunday.

Mrs. Collier Scott of Berea spent the weekend with her sister and family, Mr. Tip Reppert and Melody.

Connie and Ricky Adams spent the weekend with their grandparents, Mr. and Mrs. John Adams of Cartersville.

Mr. and Mrs. Cletus Peters vacationed in Cumberland Gap, Tennessee from Thursday until Saturday of last week.

Mr. and Mrs. Eugene Alexander attended the funeral of Mrs. Betty Butler April 2nd in Richmond.

Visiting Mr. and Mrs. Gerald Alexander over the weekend were her mother Mrs. Christine Napier and daughter Lorene of Evans and Mr. and Mrs. John Thomas of Louisville.

Mr. and Mrs. Frank Mullins and Mr. and Mrs. Donald Seals of Roundstone returned home last week from vacationing in Florida.

Mr. and Mrs. Hubert Chasteen and Mr. and Mrs. John Church and daughter attended the funeral of Mrs. Mae Anderkin on Saturday.

Mr. and Mrs. Morton Jett and Mr. and Mrs. Eugene Combs of Jackson were supper guests of Mr. and Mrs. Eugene Alexander on Easter Sunday.

Please attend church and Sunday School in the church of your choice. Remember the hostages in Iran and their relatives in your prayers. They need extra strength for this ordeal. May God bless them in a mighty way, and you too wherever you are.

Roundstone

There will be a revival meeting at the Roundstone Baptist Church beginning May 5 at 7:30 p.m. Evangelist will be Charles Goad of Jamestown, Tennessee. Everyone is invited and welcome.

Rev. and Mrs. Nelson Powers were Sunday dinner guests of Mr. and Mrs. Willis Coffey and son.

The Burdette Family Singers enjoyed a gospel singing at the Young's Creek Baptist Church in Williamsburg Saturday night.

We are sorry to report that Mrs. Lawrence Frewitt of Williamsburg and formerly of this community, will undergo open heart surgery April 16th at the St. Joseph Hospital in Lexington. We prayerfully wish her a successful operation and a speedy recovery.

Vicky, Sherri, Melanie and JoAnne Burdette and Michelle Adams enjoyed a gospel concert last week by the Inspirations at the Pulaski County High School in Somerset.

Mrs. Jerri Burdette, Sherri and Vicky visited Mr. and Mrs. Berk Bullock Sundays afternoon.

Sympathy is extended to the family of Mrs. Ollie Denny (sister of Mrs. Pearl Bullock).

Mr. and Mrs. Tom Coffey and daughters spend a few days last week with Mr. and Mrs. Willis Coffey.

Library Notes

By Mrs. Allelyne Davis Librarian

Microfilmed copies of papers, ledgers and medical records of Dr. A.G. Lovell dating from 1883 to 1925 were presented to the Rockcastle County Library by his great grandson, Bill O'Mara of Lexington. Mr. O'Mara's grandmother, Mrs. Lela L. O'Mara, now of St. Petersburg, Florida gave the records to him upon her moving from Mt. Vernon.

Also, the library now has the Mt. Vernon Signal on microfilm from 1888 to 1979. This is a

Modest Apparel

Under the conviction that someone needs to speak out against the evils of immodest apparel, I do so at the risk of inciting resentment, not being given an impartial hearing and even being called "radical."

Many people rush headlong to follow the latest fads or fashions. They will wear anything, or nothing at all, if it's "in." The wearing in public of swimsuits, shorts, low-cut dresses, miniskirts or nothing at all does not get even a blush from most of our society.

The Bible teaches the necessity of proper dress. When Adam and Eve were created, they were naked but were not ashamed because of their innocence (Gen. 2:25). When they became aware of sin they also became aware of their nakedness and made fig leaves to cover their nakedness. God later made clothing to cover them (Gen. 3:6, 7, 21). An old preacher said that the he heard that Eve ate some kind of fruit which made her realize she was naked. "In which case," he said, "I think it is high time someone started passing the fruit!"

Immodest dress (or nakedness) of women causes men to sin. Jesus said, "Whosoever looketh on a woman to lust after her hath committed adultery with her already in his heart" (Matt. 5:28). A Gallup poll revealed that the majority of women dress (or

undress) for men. Women can definitely tempt men by the way they dress. This also has a reverse application, perhaps to a lesser degree.

Women who cause men to lust because of their dress are guilty of having provoked the evil thoughts (1 Peter 3:4; Rom. 14:21). It is not worth the risk of eternal condemnation. It is somewhat like walking on the edge of a cliff to see how close one can come to the edge without falling off. The sin of David and Bathsheba in 2 Samuel 11 illustrates the lesson well.

I have been wondering for a long time what it is that possessed people to go about naked or half-clad and I found the answer in the Bible. "And they arrived in the country of the Gadarenes there met him out of the city a certain man, which had devils for a long time, and wore no clothes" (Lk. 8:26-36). It is most significant that when the Lord cast out the devils which possessed the man, we find that he was "clothed and in his right mind."

"Communicating With Your Child" - Part IV

By Larry Keaton Associate Director Family Life Center

In communicating with our children, we need to help them know what their feelings are. When they hate, they must not be told it is only dislike. When they are afraid, they must not be told there is nothing to be afraid of. When they feel pain, they must not be told to be brave and smile and the pain will go away. This only confuses them and further reinforces an unhealthy concept called "self-deception."

Dr. Haim Ginott, noted child psychologist, suggests that in place of this pretense, we should tell our children the truth. This emotional education will help them to know what they feel which is more important than knowing why. When they can identify their feelings, they are then able to deal with them from a healthier position.

FAMILY LIFE CENTER CALENDAR OF EVENTS

April 18 - Youth Festival - recreation, Bible study, movie, music.

April 26 - Film Seminar - James Dobson film series, "Focus on the Family."

May 9 - Youth Festival - recreation, teaching, movie, music.

May 30-June 1 - Marriage Enrichment Retreat.

The Family Life Center of Appalachia warmly invites you to make use of its facilities, planned activities and counseling services.

Bonus Options

The Air Force is now offering cash bonuses to qualified six-year enlistees in three highly specialized career fields.

According to M/Sgt. Mike Hall, Air Force Recruiter, 415 Eastern Bypass, Robbins Motel, Richmond, the bonuses will be paid to recruits who complete technical training requirements for radio communications analysis, security, voice processing or explosive ordinance disposal.

Bonus amounts will vary. Radio communications specialists will receive \$1,000, explo-

sive ordinance disposal specialists, \$1,500 and voice processing specialists, \$2,000. Sergeant Hall explained that enlistees will be authorized a lump sum payment at their first duty assignment following completion of training.

Applicants for Air Force training in these specialties must be high school graduates or possess a state-certified GED. They must have no prior military service and be fully qualified for training in the specialty.

Further information about the bonus plan and other Air Force opportunities is available from Sergeant Hall at his office or by calling him at 806-623-9418.

RED CROSS PROVIDING ASSISTANCE TO TORNADO VICTIMS IN McCREARY CO.

Red Cross disaster specialists are helping local volunteers in providing assistance to the victims of the April 8 tornado that hit McCreary County.

Red Cross information of the destruction indicates two persons killed, eight injured, six hospitalized with two in critical condition. Eight mobile homes destroyed, two single family dwellings destroyed, one small business damaged, three single family dwellings damaged.

Mr. David Vargo, disaster director for the Kentucky Division American Red Cross stated that Red Cross will provide families with immediate assistance in the form of food, clothing, rent and supplemental medical and health needs.

He also stated "Red Cross is prepared to provide temporary lodging in the form of the first month's rental assistance for disaster victims."

Red Cross assistance will be administered from an office in the basement of the Whitley City Health Department and the Lake Cumberland Area Chapter in Somerset.

Current estimates of Red Cross assistance is over \$7,800 with 13 families assisted.

CONTINENTAL PRESENTS THE \$1.30 FAMILY REUNION.

The cost of getting a family together shouldn't keep a family apart. Fortunately, long distance rates are still a bargain. In fact, they're low enough to keep you close to every side of your family. No matter how far away they might be.

For example, if you have family in Bakersfield, California and you live in Lewiston, Maine, a three-minute call will cost you no more than \$1.30, excluding federal and local taxes.

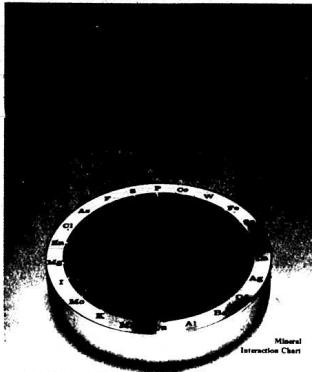

Those regular rates apply if you dial direct without operator assistance anytime between 8 A.M. and 5 P.M. If you call during one of our bargain calling periods (weekends and week nights after 5 P.M.) you can save up to 60% off our regular rates.

So don't wait until next week, or next month, or next year to have your next family reunion. Pick up your phone and have it now.

Mineral Interaction Chart

One mineral decision depends on another.

Planning an effective dairy mineral program cannot be accomplished without a complete knowledge of mineral interactions. That's why more and more dairymen rely on their Wayne® dealer for all their mineral needs.

Plan your mineral program around your roughage program.

The people at Wayne Feeds can simplify mineral planning. Because they're experts in animal nutrition.

Add your Wayne dealer will help balance your alfalfa, silage or other roughage with special minerals designed to meet your dairy herd's requirements with P12, P16, P19 and P20 as calcium phosphorus sources.

Wayne Feeds is your mineral source.

Your Wayne dealer carries a full line of minerals—all fortified with additional vitamins and trace minerals. And compatible with Wayne Feeds' full line of feed products.

For peak production, you need the hard facts on minerals. Let your Wayne dealer make it simple with Wayne dairy minerals.

behind the house where she has lived for more than 35 years. "I grow my own green beans, corn and tomatoes, fresh from the garden," she said proudly.

One year ago, however, her thoughts were not on her garden. Three months earlier, in December 1978, the Kentucky River, which now flows gently below her modest frame home near Brooklyn Bridge in Jessamine County, rose quickly and flooded much of the low-lying areas of Jessamine County and Kentucky.

The unexpected flood caused widespread damage across the state.

Mrs. Robinson's home was nearly buried under the hostile river. "All I could see was a little bit of the corner of the chimney," she said recently, pointing to the top of her house. When the level of the river dropped back to normal, she returned and found the plaster-board walls of her home crumbling and most of her furniture damaged or destroyed.

Up the river, near Camp Nelson (Jessamine County), John Stipes, a tobacco farmer, faced a similar disaster.

During the flood his small frame home was nearly hidden under flood water from the river "two feet deep in the loft," he said.

"It was awful rough looking, nothing but mud," Stipes said of his damaged home. "I never know if I would get it straightened up or not."

Not only was Stipes' home damaged, but a hill which lay behind his house was dangerously eroded by the flood and posed a threat to the home.

With the help of friends and family, Mrs. Robinson and Stipes were able to clean up their homes and move back in three months after the flood. They still faced another problem—how to finance repairs of their homes. Both were uninsured and on limited incomes.

Through a program offered by the State Department for Local Government they found help to finance reconditioning

of their homes.

After being recognized as a disaster area following the 1978 flood, Kentucky received \$1 million last summer from the U.S. Department of Housing and Urban Development's contingency fund for eligible homeowners affected by the flooding.

The money is being used to provide \$8,000 grants to 100 elderly persons and people on limited incomes to renovate and recondition 100 housing units in the state damaged by the flooding. The state Department for Local Government administers the program.

Since the money was allocated, 23 homes in the state, including those owned by Mrs. Robinson and Stipes, have been renovated under the program.

Stipes' home has new storm windows, columns, siding and paint. Contractors have built up the eroded hill behind his home with blocks.

Included in the renovation of Mrs. Robinson's home was the installation of new plaster-board, paneling and new kitchen appliances.

In many cases, the grants have been used to renovate homes that were substandard before flood damage.

The purpose of the program "is to develop sufficient housing even if all the repairs are not flood related," said Clarence Beaven of the department's division for community and economic development.

BRINDLE RIDGE

The Brindle Ridge Baptist Church extends their deepest sympathy to Bro. Howard Parton and family of Laurel County in the loss of his mother-in-law who died Thursday morning.

Bro. Parton was conducting revival services at the time of her death and Bro. Taylor finished holding the services.

Bro. and Mrs. Arnold Pingleton, Kay and Amy, Mr. and Mrs. Steve Chasteen and sons were Sunday dinner guests of Mr. and Mrs. Arvil Burdette.

Mrs. Mattie Weaver is confined to her home with the flu. We wish her a speedy recovery.

The many friends of Mrs. Irma Mullins were glad to see her be able to attend revival services part of last week after being ill for several months.

Allison and Anita Souder spent Thursday night with their grandparents, Mr. and Mrs. W.L. Coffey.

Chris Burdette spent Thursday night with his sister, Mrs. Bobby DeBorde, Mr. DeBorde, Bridgit and Brandi of Mt. Vernon.

of the great out-of-door and respect for our country's natural resources.

According to an AFMA report, 75 percent of adults who fish today were taught the sport by a parent or close relative before the age of 12.

When taking a kid fishing during National Fishing Week, remember these suggestions:

Don't force them! Young ladies like to fish too.

Teach them about proper equipment and care. Keep them comfortable with proper clothing.

Use simple methods. Using sun cast outfits for bluegills is a good place to begin.

Once you teach them the fundamentals, let them do their own fishing. Learn as well as teach. Don't take fishing too seriously. It's a good chance to talk and become closer to the youngster.

MAKING FAMILY LIFE MORE FUN

Take A Kid Fishing During National Fishing Week

In the belief the sport of fishing brings families closer together, the American Fishing Tackle Manufacturers Association has adopted "Take A Kid Fishing" as the theme for National Fishing Week, May 12-18, 1980.

With the declaration of National Fishing Week, the 75 million adult anglers in America are being urged to share with the youth of the country their knowledge of the sport, an appreciation

Economic Emergency Loan Program Extended

President Carter has signed legislation extending the Farmers Home Administration

Economic Emergency Loan Program until September 30, 1981. The program was due to expire on May 15th, this year.

William E. Burnette, Farmers Home Administration State Director said, "President Carter's action will enable us to continue the Economic Emergency (EE) Program, not only through the remainder of this year but through the next fiscal year as well. Although the EE Program was not due to end until May 15, we were just about out of funds when the President signed the bill on March 30."

The EE Program provides direct or guaranteed loans to farmers and ranchers who suffer economic hardship because of area or national economic conditions beyond their control. FmHA provided \$96,438,700 in Economic Emergency assistance to Kentucky farmers last year.

Burnette said the new law immediately increases the ceiling on outstanding principle for EE loans nationwide from \$4 billion to \$6 billion. FmHA has already obligated the \$4 billion authorized under the agriculture credit act of 1978. The additional \$2 billion was allocated to the states of which Kentucky received \$27,685,000. About half of this allocation will be available this year.

The new law requires that stronger "credit elsewhere" criteria be enforced before an EE loan can be approved. Any application for an insured loan of \$300,000 or more must be accompanied by letters from at least two private lenders explaining why they turned down the request for a loan. FmHA expects to issue the strengthened regulations within 30 to 60 days.

The new law also requires the Secretary of Agriculture to

conduct a comprehensive study of the EE Loan Program and to recommend to Congress by Mar. 31, 1981, whether or not the program should be extended beyond the September 30, 1981, expiration date.

Rockcastle County is serviced by the Jackson County FmHA Office at McKee. Office hours are held in the Education Building in Mt. Vernon each Wednesday morning, 9 a.m. to 11:30 a.m. The phone number at the McKee office is 287-7126.

Kentucky Has Another Great Recruiting Year

Kentucky Sports
The University of Kentucky put together its second consecutive super basketball recruiting season when it signed four of the nations top prep players to national letters of intent on April 9th.

Three of the preppers had signed the Southeastern Conference letters last month. They were Bret Bearup of Central Point, N.Y., Jim Mastey of Ft. Wayne, Ind. and Melvin Turpin of Lexington, Ky., who is attending Fork Union Military Academy in Virginia.

The fourth player, Dicky Beal of Covington, signed both letters today.

UK head coach Joe B. Hall, who personally signed Beal, said "This is another outstanding recruiting year for Kentucky." "It gives us great back-to-back years and that is most important to a program that has the competitive schedule we have at Kentucky. This means we'll be in contention for national honors for the next four years.

Bearup, a 6-foot-9, 225 lb. power forward, was signed by assistant coach Dick Parsons in New York. A consensus prep All-America, Bearup was selected the No. 1 power forward in the country by Midwest Basketball News. He led Harborfields High School to a 19-3 record this year while averaging 28.5 ppg, 17 rebounds, four assists and six blocked shots. He hit 60 percent from the charity line.

"Bret Bearup can do more things than you normally would assign a power forward," said Hall. "He handles the ball well, takes it to the basket on the dribble and he can handle it on the break. He's a good jumper and outside shooter and a fine passer. Beal is a bright young man who will add spirit and aggressiveness to our squad and his contributions will come in many ways."

Master, a 6'4", 165 lb. guard, was signed by assistant coach Joe Dean in Ft. Wayne. The pure shooting Hoosier, who only Monday gained his greatest honor by being named Indi-

ana's "Mr. Basketball," thus became UK's third No. 1 pick from Indiana, joining former UK stars Mike Flynn (1971) and Kyle Macy (1975). A consensus All-America, Master led Paul Harding High School to a 17-8 record this year while scoring at a 27.8 mean and hitting 52 per cent of his shots. He scored 30 consecutive points in the last 12:38 against state ranked South Side the city tournament and broke the Ft. Wayne season scoring record set by Tom Boley in 1959 with 694 points.

"Jim is a good one," said Hall. "He is an outstanding prospect with an unlimited future and one who will contribute with greatness to the Kentucky tradition. He is an outstanding young man with high academic ideals, self discipline, dedication, high character and he will be a credit to our program."

Turpin, a 7-0, 218 lb. center, was signed by assistant coach Leonard Hamilton in Virginia. An awesome prospect who had a late start at Bryan Station High School in Lexington, Turpin showed tremendous improvement as a senior and was spectacular in the 1979 prep All-Star games. A prep All-America, Turpin played the past season at Fork Union and led that school to its finest record ever, 25-1, while averaging 24.5 ppg, 14.2 rebounds and 7.5 blocked shots.

"Melvin is a player who at 7-foot, will put on some weight and increase his strength the next couple of years," said Hall. "He's had a year of prep school, which has helped him mature and better prepare him for the scholastic challenge of college. Along with Bowie (7-1 sophomore-to-be Sam Bowie), he gives us that double-size look we had with Robey and Phillips (Bill Robey and Mike Phillips) of the 1978 UK Ncaa champs, that double-post potential, a one-two punch inside and definitely more depth at the post. It also gives us potentially two big men in the lineup at the same time. Turpin is a very aggressive player who runs well up and down the court. He is aggressive on both the offensive and defen-

sive boards, scores from a variety of moves and is a good one-on-one player. He is team oriented and will assume any roll to contribute to the team's success."

Beal, who at 5-11, 160 lbs., is one of the most exciting players in Kentucky high school history. A super-quick, darting player with hummingbird like moves, Beal electrified the crowds at the state tournament this year while leading Covington Holmes High School to the semi-finals.

A four-year letterman, Beal led Holmes to a 33-3 record this year while averaging 23.6 ppg and 8.3 assists, hitting 55 per cent from the field and 68 per cent from the charity line. He scored a season high 50 points against Northern Kentucky's second ranked team, Holy Cross, for a school record, and scored 30 or more points in five other games, including 35 against Bryan Station.

An outstanding student who carries an 88.2 classroom average out of 100.0, Beal plans to major in Business Administration at the University.

"Dicky Beal is a most exciting player," said Hall. "No doubt he has the talent to contribute to our program. He is an outstanding student and a young man of high character who will be a great asset to Kentucky basketball. He will be a crowd favorite with his fast break magic and competitive spirit. He joins a fine group that

will have a good future at Kentucky."

Beal was recruited by Kentucky early in the year but made a verbal commitment to DePaul in January. On his decision to attend the University of Kentucky, Beal had these thoughts.

"Kentucky is a great school that has great coaches and players and tradition," he said. "And it is a lot closer to home. There are many Kentucky fans in Northern Kentucky and I know they'll be watching UK even more than they have and that makes me excited about coming to Kentucky."

Beal is the first Northern Kentucky player to sign with UK since Randy Noll of Covington Catholic in 1988 and the first sub-six-footer since Ronnie Lyons in 1971.

UK is not expected to sign any more players this year, so the Wildcats will go into next year's schedule with a 13-man squad, including seniors Fred Cowan and Chris Gettelfinger, juniors Bo Lanter and Chuck Verderber and sophomores Bowie, Tom Heltz, Derrick Hood, Charles Hurt and Dirk Minniefield.

Baseball Team Loses To Laurel

Lee Cain, No. 25, is shown attempting to throw a Laurel County player out in Friday afternoon action at the baseball field at the grade school. Lee is the leading hitter on the team with a .375 batting average but the Rockets are doing very well with a 1 and 6 record on the season. The Rockets lost 5 in 6 innings Friday, 10-0.

The Rockcastle County Rockets baseball team is now 1 and 6 on the year with their only win coming against Oneida.

Lee Cain, one of the Rockets few seniors, is leading the team in hitting with a .375 average and Mark Parsons is second at .333. Robbie Owens is in third position with a .313 average and Tony Saylor, who has had more times at bat and as many hits as anyone on the team, is at .300.

The rest of the batting averages are as follows: Kenneth Johnson, .211; David Riddle, .182; Craig McGuire, .188; Willie Hiatt, .187; Danny Offutt, .133 and Mike Manis, .077.

The Rockets lost the last game they played last week to Laurel County on Friday by a score of 10-0.

The Rockets were scheduled to play every day this week but with the weather not cooperating at all, they will be lucky to get one of them in.

In some cases, these surveys are conducted by creel clerks whose only duty is gathering information from fishermen. Pfeiffer says, "Each survey must be completed within a certain time limit and if there are many fishermen on the lake, the officer must select a representative sample, since he doesn't have time to interview them all."

The surveys are conducted under strict controls, according to Pfeiffer, so the results will be statistically valid. After a season of sampling, the raw data are mathematically expanded to give biologist a picture of the total fishery for each body of water.

There are several ways to express these results, none of which mean very much to anyone except a fisheries biologist. Fishing pressure, for example is measured in man-acres hour -- one man fishing one hour on one surface acre of water; harvest is expressed in fish hour, fish acre or pounds of fish acre.

In isolation, these figures don't mean much even to the biologist. But when data from different lakes (or from different years on the same lake) are compared, trends and patterns begin to emerge. Creel surveys, for example have documented the rapid rise in the popularity of bass fishing in the past 10 years and have shown biologists how much and in what ways angling pressures have increased or decreased.

Other data, such as the number of men and women anglers, the percentage of resident and non-resident fishermen, the proportion of bank and boat fishermen and enumeration of fishing methods (casting, trolling, still fishing, etc.) also help both biologists and administrators with long and short range planning.

This year, creel surveys will be conducted on the Markland Pool and below the Meidahl and Greenup dams of the Ohio River, at Cumberland, Herrington, Barren, Green and Dewey Lakes, in the headwaters and tailwaters of Lake Cumberland and in the Cumberland River near Burkesville.

Since most are comparatively small samples, your chances of being interviewed are slim. But if an officer or creel clerk does start asking you questions, remember that your answers are helping biologists find ways to improve fishing in the future.

Fishing Report

Frankfort, Ky., April 14 - Weekend rains have delayed white bass runs and slowed fishing for other species around Kentucky. The lake-by-lake rundown, as compiled by the department of Fish and Wildlife Resources:

Cumberland: Crappie fair drift fishing (4-12 feet deep); black bass slow to fair jigging nighthawkers and casting medium runners in heads of coves; headwater white bass areas high and muddy; in tailwaters, trout fair clear to mucky to muddy, rising, one foot above timberline and 53 degrees.

Cawood Comments

By the voice of the University of Kentucky Wildcats Cawood Ledford

LEXINGTON—Seven of the eight are still on hand. Eight Kentucky players were charged with rape last year. A grand jury cleared them of the charge, but Coach Fran Curci still suspended all of them for one year for breaking football rules. It was a very courageous move on his part. They are all good players and Kentucky could certainly have used them last year. Seven of the eight will sit out Saturday in the annual Blue-White game at Commonwealth Stadium.

Norman Green of Martinsburg, West Virginia, is the only deflector. A defensive back who had played for the most part on the kicking teams, Green took part in fall practice but decided to quit the team this spring. He's still in school. Curci says the other seven have really been playing hard this spring, but that they are not. They were on our scout team last fall. That helps a player stay in shape but he really doesn't learn anything. Taking the seven one by one here's the way Curci describes them: Randy Brooks of Louisville is a very good back. He is a complete back that will block as well as run with the football. He's solid.

Larry McGrimmon of Tampa, Florida, started for us as a freshman. He is one of the most talented players on our squad. Missing last season has really hurt him. He's going to be a good one.

Charlie Jackson, a running back from Georgetown has been the most pleasant surprise of spring practice. He is doing well and is going to be an exceptional back. Henry Parks and Venus Meaux are both from Harrodsburg and both doing well. Henry is a running back and is a home run guy. He's capable of going all the way every time he touches the football. Venus is a defensive back and is a great prospect. He's quick and he's strong.

Earl Bubba Wilson from Atlantic City, New Jersey is our biggest and strongest player. If he continues to work hard he can be an All American and a player in the pro ranks.

Robert Cobb of Sheffield, Alabama, is an offensive lineman. He's a little behind the others, but it takes longer to learn how to play on the offensive line. He's working hard and he'll make it.

Welcome back fellows.
