Local Night Policeman Aborts Break-In

As city policeman Frank DeBorde was making rounds about 3:30 Thursday morning, he spotted two shadowy figures standing on the back steps appearing to be trying to work the door handle of the residence of Mrs. Chloe Farmer on West Main Street.

According to DeBorde, they apparently saw his car and began to run. When DeBorde saw them dart through the passageway between the Farmer residence and the neighboring house, he drove to the dead end street behind the First Christian Church off Lovell Court and got out of his cruiser to shine the light and try to head them off.

They then fired four shots at DeBorde before they made their escape across Lovell Lane and toward the direction of the swamp behind the elementary school.

Later Thursday morning, a storm glass and a stained glass window in the Mt. Vernon Pentecostal Church were discovered to have been broken, apparently by one of the shots as a bullet was found lying on the floor inside the church.

Sometime near the same time period, a window in Wayne Sigmon's home. Supply store was broken out and apparently the store was entered. According to DeBorde and Stewart, two small portable televisions and a radio were taken. Later in the day, one of the televisions were recovered from the hedgerow near the store.

Also during the same night, or early morning, the Mt. Vernon Elementary School was broken into. Windows in the principal's office were broken out, papers and records were strewn about but, according to school officials, nothing of value was discovered missing.

REPUBLICAN MEETING THURSDAY, AUGUST 6

There will be a Republican meeting at the Courthouse, Thursday night, August 6 at 7:30 p.m. All precinct captains, co-captains and young captains are urged to attend. All candidates and everyone interested in the Republican party should attend this meeting.

ENNIS RESIGNS

According to Sergeant Jim Wilson of the London State Police Post, Greg Ennis, state policeman assigned to Rockcastle County, has resigned his post with the department effective July 31.

Ennis will be moving to Florida to run a motel operation owned by Commonwealth Attorney Lester Burns, according to another source.

INDUSTRY UPDATE:

Rockcastle Mfg. and MVP Have Plans to Expand

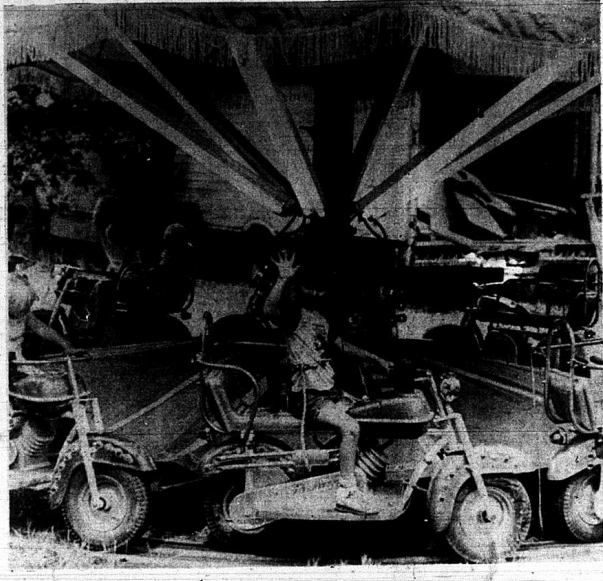

By Nancy Mullins
Mt. Vernon Plastics

You might check the plastic lids that are used on many of the items these days for the small letters MVP at the top edge of the lid.

The letters stand for Mt. Vernon Plastics and means the lids was manufactured here by the company that began production 4 months ago, alongside Rockcastle Manufacturing at the county's new Industrial Park.

The company began with one press, a large piece of equipment which costs in excess of one-quarter million dollars. It soon added a second press. A third press, to be delivered in August (despite delays in shipping) is still ahead of schedule, according to Jack Tourastos, president.

Because the presses are so expensive, they have to be added at intervals as the company grows and expands the market. However, business

It's fair time again in the county and this year's fair is already well underway. Little Brandon Harvis of Waynesburg waves to his grandmother as he rides one of the many rides on hand Kids' Day Tuesday. The fair will run through Saturday and there will be another kids' day Thursday (today).

Tom Mills Named County Extension Agent

Rockcastle County has a new County extension agent for Agriculture.

Mills served as 4-H agent for the last two years but said that he had always wanted a position in the agriculture field.

Mills is replacing H. Lee Durham, who retired last year. Mr. Mills is married to Cloye Mills and is a native of Knox County, where he was raised on a beef cattle farm.

The 25-year-old graduate of the University of Kentucky has a B.S. degree in Animal Science. Mills will take over as Agriculture agent effective August 1st.

Tom Mills

Tom, Mills, now county extension agent for 4-H, has been approved as Agriculture agent by the Rockcastle County District Extension Board.

County Extension Agent for Home Economics, Cheryl Witt and Mr. Mills will take care of 4-H activities until a 4-H agent is found.

The University of Kentucky is now taking applications for a new 4-H agent for Rockcastle County. All applicants must be from out of the county.

has been so good for the company that an expansion, planned for late fall or early spring, will double the present 10,000 square feet of floor space. This extra floor space will allow for the installation of four new presses.

A little longer range planning calls for another expansion which will bring the total floor space to 40,000 square feet. With this floor space, the plant can easily accommodate 12 presses. According to Tourastos, the average plastics molding plant has about 12 presses; a few have as many as 50.

The future looks extremely bright for the new company which prides itself on having developed some new techniques and methods of production which have allowed the company to be extremely cost competitive and has caused buyers, to switch to their product.

For instance, the four top management people, who had the ample experience and knowledge in the plastics industry and founded the

company, have come up with a lid that is 10% lighter than any previously made available on the market by competitors.

Production of a lighter-weight lid, which comes about through exacting precision in various aspects of development is a prime example of the benefits of the initiative and incentive drive of the free enterprise system.

MVP has also come up with a new type margarine lid. Others have been trying for years to perfect this lid from a new type resin but have failed, according to Tourastos. The new lid is completely dishwasher safe and will last through 168 hours of bending, whereas the ordinary lid cracks after only 3 minutes of bending. The added advantages to consumers make this an attractive item to food producers.

Recently, Kyle Thompson, one of the vice presidents of the company, visited Germany where a new machine is being manufactured for their plant. He also traveled to Holland to see the same type press in

Chester Brown Dies Suddenly at Fair

Chester Brown, 78, of Route 1, Brodhead, died suddenly Monday night, following an apparent heart attack, according to Rockcastle County Coroner Bill Dowell. Brown died around 7:30 p.m. while in attendance at the Brodhead Fair.

According to witnesses, Brown, who was standing near the show ring, complained of being tired and asked for a seat. Upon sitting down, Brown slumped over and was dead upon arrival of the ambulance.

Mr. Brown was born in Sharonsville, Ohio and Monroe Brown of Reading, Ohio; one daughter, Mrs. Elizabeth Harris of Route 1, Mt. Vernon; one brother, Henry Brown of Route

Survivors are three sons: John Brown of Route 1, Brodhead; Fretsel Brown of Sharonsville, Ohio and Monroe Brown of Reading, Ohio; one daughter, Mrs. Elizabeth Harris of Route 1, Mt. Vernon; one brother, Henry Brown of Route

In Order to Receive "Total Coverage" Rockcastle

Needs to Contribute More

By: Rick Anderkin

Rockcastle County residents are in great danger of losing "Total Coverage" from the Central Ky. Blood Center in Lexington due to a strong disinterest in the first two blood drives of 1981, according to information supplied the Signal recently by Harry J. Alheid, Regional Donor Service Representative for the Central Ky. Blood Center.

Alheid said that Rockcastle Countians have given only 91 pints of the needed 195 pints of blood during the first two drives. This means that 104 pints are needed for the county to receive total coverage during the following year.

Rockcastle County fell 27 pints short of the needed 195 in 1980 but, because of the County Homemaker's efforts to try and reach the goal, it was decided by the blood center to give the county total coverage again.

However, this year, the county has put itself in a position of losing total coverage which is very much needed. By having total coverage, residents of the county do not have to pay registration fees for the blood that is used. A serious accident or illness could cause a family great expense just for the blood that is needed.

Sixty percent of all Rockcastle Countians will use blood or some blood product in their lifetime, according to Mr. Alheid, who went on to say, "If residents do not donate the blood, then where will they get it?" "Blood cannot be manufactured and insurance policies will do no good during an operation."

POSTING ADVERTISEMENTS ON RIGHT-OF-WAYS IS ILLEGAL DOT SAYS

State Department of Transportation officials remind Kentuckians that posting advertisements on state right-of-way and defacing traffic signs are illegal.

Under Kentucky Revised Statute 512.080, placing posters, advertisements or signs on public property is a violation and may be punishable by a fine of up to \$250.

Placing stickers on street signs or defacing them with paint or bullet holes is a violation of KRS 512.040. The penalty may be a sentence of up to 90 days, a fine of up to \$250, or both.

Transportation officials said that in addition to the expense of replacing signs and removing posters from the right-of-way, these violations

The third and final blood drive of 1981 will be held at the Bank of Mt. Vernon on Tuesday, November 17. The Homemakers would like to see some new faces along with the caring who come out time after time. The Homemakers urge those who have tried to give blood once but couldn't to try again because the problem may no longer exist.

Circle November 17th on your calendar. This is a day of great importance for Rockcastle Countians.

The following people came out to donate blood at the last drive: Bige Towery, Jr., John Holbrook, Cheryl Witt, Michele Mihalko, Eunice Abney, William Abney, Marsha Hones, June Coleman, Glenna Brooks, Yvonne Carmack, Michael Crank, Rebecca Kinner, Loretta DeBord, Freda Fulmer, Sarah Lewis, Mary McWhorter, Janice Cheek, Dennis DeBord, Lois Rowe, Lester Cottrell, Lena West, Dallas Graves, Barbara Graves, Nancy Parkerson, Kathy Cromer, Barbara Rader, Beverly Jean Allen, Kimberly Bullock, Zade McClure, Virginia Machal, Stephen Bullen, Raymond Graves, Dennis Harris, Kenneth Taylor, Loretta Bray, James Huddleston, Judy Stewart-Shackelford, Carl Edwards, Carolyn Jones, Merita McGuire, Donald Jones, Rosalind Phibcock, June Stevens, William James, Judith Bullock, Leola Wynn, Della Smith, John Chalfiff, Norma Eversole, Elbert Eversole, Bessie Hansel, Bobb Hansel, Paul Mason, Lisa Jones, Charles Abney, Ramona Stewart, Barbara Powell and Mildred Himes.

GOSPEL JOURNEYMEN TO BE AT FREEDOM

The Gospel Journeymen of Cincinnati will be at the Freedom Baptist Church this Saturday, August 1 at 7:30 p.m.

The following Sunday morning, they will be at the Northside Baptist Church in Mt. Vernon for the morning worship service. For luck dinner will be served. Everyone is invited to both services.

MT. VERNON B&P TO MEET AUGUST 6

There will be a meeting of the Mt. Vernon Business and Professional Organization Thursday, August 6 at 10 a.m. at the Bank of Mt. Vernon concerning the Molasses Festival and the possible organization of a Harvest Queen Pageant. All members are urged to attend.

Forest Products Cooperative Could Bring Income to County

If extra income is needed during the winter months then this is for you. FIREWOOD! In cities like Lexington, Louisville or Greater Cincinnati, firewood can sell for as much as \$80.00 per cord. But, the problem is getting the wood to the city without expending a lot of time and money.

For this reason, the Forestry Committee of the Cumberland Valley Resource Conservation and Development Project is making an effort to organize a Forest Products Cooperative.

The hope is that enough firewood cutters could join together and share the expenses of hauling firewood to cities and in this way get more money for their firewood without having the added time and expense of

hauling it as individuals.

This is an excellent opportunity for any forest owner or farmer to receive income on a regular basis from their wood lots. Either by the wood themselves or receiving a commission for letting someone else cut the firewood. For all firewood cutters, forest owners, loggers, sawmill operators and anyone else interested, an organizational meeting is going to be held Tuesday, August 4 at 9 a.m. in the meeting room of Production Credit Association in Mt. Vernon.

Plan to attend, everyone is invited and see if this idea could fit into your operation. There is no obligation if you attend and if you do not attend, you will be served. For further information, contact Bob Fields or call 256-2541.

Rockcastle Mfg.

Marvin Fritsch, new plant manager for Rockcastle Manufacturing, says that plans are to expand the size of the 2 year old plant sometime in the near future to 3 times its present size and increase employment by the

Letters to the Editor

Dear Editor:

It was with great pleasure that my family and myself had the opportunity to see "The Marvelous Adventures of Ty" and "The Fantastics" performed by The Junkyard Players of Lexington, Ky. these past two Monday evenings. It was a marvelous opportunity to see quality professional theater performance right in our home community. The Woman's Club of Mt. Vernon is to be commended for making the arrangements and financially underwriting the performances. It is hoped further such plays can be brought to the area.

Yours very truly,
William D. Gregory

Like Pheidippides, we're determined to deliver...and we do!

2500 years ago, a Greek messenger combined skill, spirit and determination to help save his country from defeat. Pheidippides unknowingly participated in the first Marathon when he ran 26 miles from the battlefield at Marathon to Athens to deliver news of a great victory.

We at Marathon know the heritage of our name and strive to live up to it. The combination of skill, spirit and determination helped us develop the new additive program that resulted in our Long-Distance gasolines.

There is a difference between Marathon Brand Long-Distance gasolines and others now available in the midwest... four important differences:

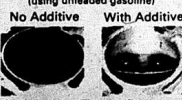

- First, Marathon brand gasolines can give improved fuel economy.
- Next, Marathon brand gasolines can clean up your engine.
- This results in a third important difference, a smoother running engine that misses less and stalls less.
- Marathon brand gasolines protect against rust and corrosion to reduce engine maintenance.

These are not empty claims! They are facts... facts covered by extensive laboratory and road testing. Your car will notice the difference.

Important Notice!

Marathon Long Distance Gasolines can be purchased only from stations selling Marathon brand gasolines. The special additive is placed in the gasoline at the time Marathon transport trucks load for delivery to stations displaying the Big Red "M". These gasolines are not available from any other service stations.

Presently 79 persons are on the payroll at Rockcastle Manufacturing which could mean that in the near future employment could increase to near the 240 mark which would in turn mean a big boost in the county's economy.

According to Fritsch who was hired last May to replace Lee Gloschen as plant manager, the Cintas Company, based in Cincinnati, Ohio will begin manufacturing shirts with the anticipated expansion.

Right now, Rockcastle Manufacturing, Cintas' only factory makes only uniform-style work pants. Fast growing Cintas, which was exclusively a rental agency before it expanded to include manufacturing two years ago, now sells its product as well as producing a commodity for its own use.

Things are going well at the plant now, says Fritsch with production up to 7500 pieces a week as compared to 5000 this time last year.

Darrell Seals of Mt. Vernon has served as assistant plant manager since last September and local employee, Lottie

Sayers is supervisor at the plant.

Fritsch, an industrial engineer, most recently held the position of plant manager at the Winchester Curlee Men's wear plant. Fritsch still lives in Winchester but has plans to move to the area when he sells his home there.

YOUR NEED FOR CALCIUM

Did you know that there is more calcium in your body than any other mineral? Calcium is used for two very important purposes by our bodies. First, is the building of bones and teeth,

and second is the regulation of body functions.

Calcium is vitally important during the growing years for building strong bodies, but the need for it does not stop when we stop growing. Old bone is destroyed and new bone is built throughout our entire life cycle.

If the food in the diet doesn't supply enough calcium for the body's everyday use, the body will draw calcium from the bones for its use. It usually is taken from the spine and pelvic bones first. If this calcium is not replaced, the bones become weak and mishappen. Such bones break very easily also and are difficult to get to heal. A person with such a calcium shortage may actually become shorter because of bone changes.

Bones can store a limited reserve supply of calcium if the diet provides extra for storage beyond what is needed for growth and repair.

Calcium is needed constantly for the body's use. It helps blood to clot, contract muscles, controls passage of fluids through the cell walls, aids action of some enzymes in the body, and keeps nerves calm and working well.

The amount of calcium the body is able to absorb depends on other nutrients present at the same time, either in the food or in the body.
(Cont. to 10)

Marvin Fritsch, left, of Winchester is Rockcastle Manufacturing's new plant manager. Lottie Sayers, center is the supervisor and right is Darrell Seals, assistant plant manager, at the two-year-old factory which plans expansion.

These four men are co-founders of Mt. Vernon Plastics. They are, from left: Jack Touratsos, Bob Hutchins, Tom Lord and Kyle Thompson.

Rebecca Reynolds

Mrs. Rebecca Reynolds, 68, of Brodhead, died Friday, July 24, 1981 at the Rockcastle County Hospital. She was born in Rockcastle County on July 27, 1912, the daughter of the late George and Allie Carter Johnson. She was a homemaker and a member of the Brodhead Christian Church.

Survivors are one daughter, Miss Margie Reynolds of Brodhead; one brother, Jack Johnson of Richmond; one sister, Mrs. Dollie Miracle of Crab Orchard and one grandchild, Mary Jane Reynolds of Brodhead.

Funeral services were held Sunday, July 26th at the Watson Funeral Home Chapel with Bro. Virgil Brock officiating. Burial was in the Piney Grove Cemetery.

Visitors of Mr. and Mrs. Virgil Lawrence recently were Mrs. Lawrence's granddaughter and husband, Mr. and Mrs. Mario Spagellini from San Francisco, California; granddaughter, Mrs. Virginia Shephard and grandson, Robert Shephard of Louisville. Robert Shephard remained with Mrs. Lawrence for a two week visit. Mr. and Mrs. Virgil Lawrence and son, Billy Lawrence, were in Lexington recently to see Mr. Lawrence's doctor.

Bro. Cornelius Horn preached at Orlow's Sunday morning and evening while Bro. Davidson was on vacation.

Mrs. Donna Hamm is in Lake Cumberland Hospital for surgery. We wish her a speedy recovery.

Mason Reunion

Fifty members of the family of the late Henry R. and Jammie E. Mason gathered at the home of Floyd and Lucille Halcomb of Albany for a two-day reunion last Saturday and Sunday.

Everyone greatly enjoyed the fellowship, food and getting acquainted with several new additions to the families. Those attending were:

Mr. and Mrs. Floyd Halcomb and Jill and Mr. and Mrs.

Robin F. Halcomb, Jennifer and John, all of Albany; Mr. and Mrs. William D. Gregory, Bill David, Joe and Cindy, Mrs. Evelyn Gregory, Mrs. Carolyn Brown and Greg, all of Mt. Vernon; Mr. and Mrs. Brent Battorff and Anthony, Mr. and Mrs. Kevin Hopwood and Michael, Mr. and Mrs. Delbert Roberts' all of Charlestown, Indiana; Mr. and Mrs. James Gradon Mason and granddaughter, Jennifer Emrick of Dayton, Ohio; Mr. and Mrs. Elmer Halcomb and Mrs. Jane Brake and Allyson of Frankfort; Mr. and Mrs. William A. Louden, milk and Tina of Evansville, Indiana; Mr. and Mrs. Farris Mason and Brian of Davpville; Mr. and Mrs. Luther Mason and Alex of Jeffersonville, Indiana; Mr. and Mrs. Marlin Mitchell, Marla, Linda and Michael of Midway; Mrs. Charlene Rosenthal and Dori and Terri Montgomery of Louisville and Mr. and Mrs. Ted Ponder and Denise of Richmond.

growing, during pregnancy, after childbirth or when recovering from an illness or injury. Half of the calcium in a new baby's body was deposited during the last six weeks before birth. The amount of calcium increases rapidly as a person grows and continues as long as they are growing and into adulthood.

The body's calcium needs can only be met if there is enough calcium in the diet. If calcium intake is low or nutrients that work with calcium are low, then the bones and teeth cannot develop normally.

It is almost impossible to get enough calcium unless milk, cheese, or other milk foods are used daily in fairly large amounts. Children need 3 servings, teens need 4, adults need 2 and pregnant and lactating women need 4 servings.

Following are some sources of calcium and the amount needed for one serving:

- Buttermilk, 1 cup; whole milk, 1 cup; 2% milk, 1 cup; skim milk, 1 cup; dry milk powder, 1/2 cup; evaporated milk, 1/2 cup; chocolate milk, 1 cup; American cheese, 1 1/2 oz.; cottage cheese, 2 cups; vanilla ice cream, 1 1/2 cup; pudding, 1 cup; yogurt, 1 cup; salmon, 4 oz.; sardines, 2 1/2 oz.; green peas, 1 cup; cornbread, 3 pieces, beans, 2 cups; custard, 1 cup; macaroni

LAND FOR LAND EXCHANGE

Notice is hereby given that the Forest Service, United States Department of Agriculture, is considering an exchange of land with Carlos Carlotti under the authority of the Acts of March 1, 1911, as amended (16 U.S.C. 516) and October 21, 1916 (43 U.S.C. 1715, 1716). The lands under the jurisdiction of the Forest Service that are being considered for exchange are described as Tract 858, being that portion of original U.S.A. Tract 1976 by its west side dated the Livingston (State Road 909) interchange and containing about 63 acres gross (including the easement for I-75) in the Daniel Boone National Forest, Laurel County, Kentucky. The Carlos Carlotti lands are described as Tract 976 containing 130 acres, more or less, located on the waters of White Oak and Trace Branches being the same land acquired from Mason Poynter, Jr. and wife by deed dated August 21, 1969; also Tract 976a containing 40 acres, more or less, located on the Rockcastle River being the same land acquired from William Emly and wife by deed dated November 23, 1954. Tracts 976 and 976a total 170 acres and are in the Daniel Boone National Forest, Rockcastle County, Kentucky. Any or all of the above described lands may be exchanged provided the values are equal. In the event the values are not equal, either party may equalize the values by the payment of cash. The amount of cash payment may not exceed 25 percent of the value of the lands transferred out of Federal ownership.

Persons claiming such properties or having valid objections to this proposed exchange must file their claims or objections with the Regional Forester, Forest Service, U.S. Department of Agriculture, 1720 Peachtree Road, N.W., Atlanta, Georgia 30307, within 30 days after date of the last publication of this notice.

kins, son of Ruby J. Bryant of Rt. 1, Broadhead, has been assigned to Chanute Air Force Base, Ill., after completing Air Force basic training.

During the six weeks at Lackland Air Force Base, Texas, the airman studied the Air Force mission, organization and customs and received special training in human relations.

In addition, airmen who

complete basic training earn credits toward an associate degree in applied science through the Community College of the Air Force.

The airman will now receive specialized instruction in the missile maintenance field.

SIX WAYS TO HELP KEEP YOUR PHONE BILL FROM LEAVING YOU SPEECHLESS.

How much your phone costs depends partly on how you use it.

So here are six easy ways you can talk up some real savings.

1. Dial it yourself and save. Direct dialed calls cost less than going through the operator.

2. Call during off-peak calling times. Long distance rates are lower after 5 p.m. weekdays, all day Saturday and Sunday until 5 p.m.

3. Keep your calls brief. Having a clock within easy view of your phone helps.

4. Don't pay for mistakes. If you reach a wrong number, we don't want you to pay for it. Let the operator know right away, and you won't be charged.

5. Hang up on bad connections. And have the person who placed the call tell the operator. You'll be reconnected, and you won't have to pay for the interrupted time.

6. Use "800" numbers when possible. Remember that "800" numbers are toll free.

Follow these tips faithfully and your phone bill is less likely to leave you at a loss for words. Or money.

CURCI GEARS UP TO WELCOME WILDCATS

LEXINGTON — Governor John Y. Brown Jr. has apparently given up the idea of replacing Fran Curci with George Allen as the football coach at the University of Kentucky. Curci and his staff have been going full steam preparing for the beginning of practice. The freshmen report to UK in a little more than two weeks with the varsity checking in three days later.

"We've already planned just about every minute of the time when the players report until our opening game," Curci was saying. "We not only have to have our two-day practice sessions well planned but we have to build in a lot of other things in our schedule."

"Our players will be the only students here for about 10 days and we have to make arrangements for the rooms and meals," Curci continued. "We'll stagger the practices some, letting the varsity go to meals early one day and the freshmen another. The lines would be so long otherwise it would be like a Chinese fire drill."

Curci said it was necessary to schedule other things as well.

"We've got a day off scheduled for the players to register for school and another day off for the freshmen so they can take the ACT test," he said. "Then when school starts, we have . . ."

Curci said they'll have during the school year. It just takes a lot of planning.

Curci admits he and his staff have to coddle the freshmen. "It's all so new to them," he says. "They've never been exposed to this type of football in high school and then they miss their parents and their girl friends. Right after practice starts is when a player is most likely to get depressed and go home. We've had some leave here and later come back and become outstanding football players."

Curci thinks it would be a good rule to have the freshmen report more than three days ahead of the varsity so they could be brought along more slowly.

This time of year stories ought to be about football, not football coaches. Hopefully we're back on track with Kentucky opening the new season at Commonwealth Stadium on Sept. 5 against North Texas State.

Local 4-H and FFA members demonstrated their tractor driving skills Monday night at the Brodhead Fair. Nine boys drove the course which consisted of backing a 2-wheel trailer into a shed, down a 40 foot alley and then through an obstacle course consisting of four gates. Each person was timed and scored penalty points for safety as well as driving errors. Judges for the event were Harold Ballinger, local ASCS director and Danny McKinney, PCA manager. Premiums were provided by the Production Credit Association. Participants were, from left, Garry Hurst, 1st place Jr. 4-H; Greg Bullock, 1st place Jr. 4-H; Chris Sowder, 2nd place Jr. 4-H; David Sowder, 3rd place Jr. 4-H; and James Thompson and Mark Sowder. Senior FFA winner was Phil Ballinger, with Barry Hurst taking second place and Anthony Brock coming in third for FFA.

FACTS & FIGURES
Nuclear power plant operating capacity outside the United States rose nearly 25 percent in the last two years or so, according to an Atomic Industrial Forum international survey of 42 nuclear-powered nations.

In the United States, we have 74 nuclear plants now operating and 92 under construction. By 1990, nuclear energy will provide almost one-fourth of the nation's electricity, second only to coal in total output.

Outside the United States, the world has more than 70 new megawatts of installed nuclear capacity, the equivalent of 70 one-million kilowatt plants. This will be boosted to nearly 450,000 megawatts when plants that are under construction on order or planned are completed. France alone plans to bring one nuclear reactor into operation every two months, on the average, between 1980 and 1985.

Wald Community And North School Reunion

Sunday, July 26th was the date of the 2nd Annual Wald Community - Norton School Reunion held at the Family Life Center at Renfro Valley. The pavilions at the top of the hill provided a delightful meeting place in a rural setting for a large number of descendants of a rural area. Old friends and classmates, members of families and young people from many sections of the U.S.A. attended. There were new faces this year and some missing ones. We hope all of them and more will be able to attend next year, the last Sunday in July, at Renfro. A picnic lunch was spread and heartily enjoyed. We got a partial list of those attending. Our apologies to those whose names are omitted. But we know that all enjoyed themselves on the beautiful day.

Those attending were the following: Mr. and Mrs. Gordon Bray, Mrs. Hazel Bray, Mr. and Mrs. John E. Bray, Mrs. Anna Mae Hamm, Mr. Don Bray, Mrs. Retha Bray, Mrs. Ruby Bray and Regina and Mrs. Ruth Bright, Mr. Foster Norton, Mr. Norman Norton, Mrs. Melba Mize, Mr. and Mrs. Joe T. Norton and Karla, Mr. Jess Norton, Mrs.

Joanna Allen and Diane, Mr. Davey, Mrs. William Norton, Mr. and Mrs. Alonzo Bullock, Mr. and Mrs. Raymond Bullock, Mrs. Lois N. Witt, Mr. and Mrs. Arvil Norton and Rachel and Mr. Shelby Norton, Mrs. Gladys McKinney, Mr. and Mrs. Jesse McClure and Kathy, Mrs. Burnell Norton, Mrs. Joyce McKinney and family, Mrs. Mary Sower/McClure, Mr. and Mrs. Charles McClure and daughter, Mr. Keith Sower, Allison Sower, Anita Sower, Jenny Sower, Mr. and Mrs. Charles Sower, Mr. Vernon Sower, Mrs. Fern Sower, Mr. and Mrs. Jack DeBorde, Mr. and Mrs. Dallas Norton, Mr. Walker Norton, Mr. Bill McKinney, Mrs. Alta Bullock, Penny Lynn Frazier, Jane Frazier, Candy Jo Davey, Mrs. Oris Norton, Mrs. Nannie Rogers, Mr. and Mrs. Arthur Norton, Mrs. Juanita Scott, Mr. and Mrs. Robert Hayes, Mr. Lewis Whitaker, Mrs. Mary Mae Davis and daughter Rachel Graves, Mrs. Edna Cummins Roach, Mr. and Mrs. Eugene B. Funk, Mrs. Fern Godby and Mr. and Mrs. Thomas D. Graves.

As the family tree is the big thing with families now so it is with members of the Wald community. One family already has its history published thanks to the researching of Mrs. Frank Eugene Funk. There are Volumes I and II of

Cummins Ancient and Cummins New available. Mrs. Mary Mae Davis has done a vast amount of research into the Norton family. She isn't quite sure just when her book will be available. And I heard rumblings of researching of another family. Let's hope all the families trace their ancestors. Who knows? One might be first cousin to Prince Charles 37 times removed.

Health Tips On Water

Eight are great! Eight cups of water are what you need every day. Water is the medium for virtually all the body's chemistry. It's used by your body constantly, whether you're working hard or just relaxing.

Water is basic to balanced nutrition. It helps in your digestive process to break up, soften, and transport food particles from your mouth through your intestines. Then your body's blood (which is approximately 85% water) circulates nutrients throughout your body.

According to the American Bottled Water Association, water controls body temperature through perspiration. Each day your skin loses moisture equal to about two cups of water even if you work in a sedentary job. Greater water intake is important during illness as it helps regulate body temperature and control fever.

Advertisement for 'THE BIBLE SPEAKS' by Austin Mobley, Minister, Providence Church of Christ.

Now it is different... It is most likely that in the apostolic age, when there was but one Lord, one faith, and one baptism, and no differing denominations existed, the baptism of a convert by the very act constituted him a member of the church, and at once endowed him with all the rights and privileges of full membership. In that sense, 'baptism was the door into the church'. Now, it is different and while the churches are desirous of receiving members, they are wary and cautious that they do not receive unworthy persons... (Standard Manual for Baptist Churches, Edward T. Hiscox, p. 22).

FACTS & FIGURES. Creation of a single new job can bring \$35,000 per year to the federal government because it will reduce public assistance payments and produce the economic gain of a higher employment level. A \$600 million federal government investment program will create as many as a million new jobs for unemployed youths, the unemployment figures show. The goal can be reached by businessmen who join with Control Data Corporation and the people computer-based training in high school equivalency skills.
