State unemployment rate declines in August

Unemployment rates in 90 of Kentucky's 120 counties decreased from July to August, according to statistics released today by the Cabinet for Human Resources.

Even though most Kentucky counties reported declines during August in unemployment, 75 counties still reported rates of 10.0 percent or higher and four counties' rates were above 20.0 percent.

Kentucky's statewide unemployment rate declined to a preliminary rate of

10.8 percent in August, down from the 11.3 percent revised June rate. The comparable national rate for August was a nonseasonally adjusted 9.6 percent. The state's unemployment rate for August of last year was 7.7 percent.

The number of unemployed Kentuckians during August was 181,000 down 6,000 from July but 52,400 more than were jobless during last August.

Kentucky's civilian labor force only includes persons currently employed

and unemployed persons actively seeking jobs.

The state's total employment was estimated at 1,494,400 during August by the cabinet's labor market analysis section. This represents an increase of 32,600 over July but down 43,200 from the August, 1981 estimate. According to cabinet labor market statistics, the improvement in employment from July to August can be attributed to seasonal increases in job openings. These increases occurred primarily in state and local

Last spring, Mary Harding and I talked of the professions that Clear Creek had given to the world through the people who had gone out into it. Not all have left the creek however. I refer to musicians from Clear Creek made proud of them and that they had enriched their lives, as well as others, with their music. I heard them with the group singing many religious songs after the dinner at Macedonia Church Sunday. Many young people took part in this but the young men

Private Credit Participation With FmHA Increases

Private lender participation in Farm Operating loans is up sharply this year Kentucky FmHA State Director Kendall L. Seaton said today.

Seaton credited participation lending and other cooperative efforts of federal and private lenders with successfully providing needed agricultural credit for hundreds of hard hit farmers in Kentucky during 1982.

Recent meetings in Kentucky with representatives of Farmers Home Administration, Federal Land Bank, and Production Credit Association emphasized the need to continue cooperative financing, lending to meet farmers' credit needs.

Seaton said FmHA will continue to enhance its role with the private sector in making Farm Operating loans to meet the anticipated heavy demands during this crucial period.

Loans of about fifty of the Agency's Operating Loan borrowers were shared with Kentucky lenders in Fiscal 1981. In the first 11 months of FY 1982, the number rose to 184. The Agency may subordinate part or all of its security in favor of the local lender, giving the private lender first rights in event of default.

Seaton said that meetings with farm lenders will be emphasized through Kentucky during the critical period to inform lenders, to enhance cooperation while at the same time helping farmers through their dilemma. Local and district FmHA offices are in the process of meeting and working with all farm lenders to establish a closer relationship.

Ambulance Tax Referendum

ON NOVEMBER 2, THE FOLLOWING QUESTION WILL APPEAR ON THE BALLOT:

YES

NO

REFERENDUM

Are you in favor of authorizing the Rockcastle Fiscal Court to impose a special ad valorem tax, not exceeding five cents per each one hundred dollars of assessed valuation, for the purpose of maintaining and operating a county ambulance service?

WHY IS THIS QUESTION ON THE BALLOT?

Your Rockcastle County Fiscal Court believes that you, the taxpayers should have the right to say whether you want to support your county ambulance service or not.

WHY DOES THE AMBULANCE NEED THIS SPECIAL TAX?

Up until September 30, 1981, the ambulance service employees were paid by the federal government through the CETA program. The federal government cut this program out, so now the county has to find a way to pay the ambulance service employees salaries.

The ambulance service has 9 ambulance attendants and 1 secretary. The ambulance attendants are paid only \$3.63 per hour and the secretary is paid only \$520.00 per month. Michael Barr, who is the therapist at the hospital, manages the ambulance service for the county and he does this free. He does not receive any salary. The Rockcastle Hospital also does the dispatching for the county free, plus it supplies back-up personnel free, when needed. Even though the ambulance service employees only receive a little bit over minimum wage, the total amount for salaries will run over \$62,000.00 per year. In addition to the employee's salaries, the cost for gas, maintenance, etc. of the ambulances runs another \$12,000.00 per year. So then, all together, it costs around \$94,000.00 per year just to operate the ambulance service and this is not allowing for replacing equipment as it wears out.

HOW MUCH WILL THIS TAX BE?

If passed, this special tax, which can only be used to support the county ambulance service, will be only one nickel (5c) per each one hundred (\$100.00) dollars of assessed valuation. That means that the ambulance tax will only be 50c on each \$1,000.00 of property. If your house or property is assessed at \$30,000.00, then you will only pay \$15.00 in ambulance tax. If your house or property is assessed at \$50,000.00 then the ambulance tax will only be \$25.00.

The total assessment for the whole county is \$147,000,000.00. This ambulance tax of 50c per \$1,000 would generate about \$73,500.00 for the ambulance service. With this support from the people, the ambulance service could continue to serve the people with very low rates. The Rockcastle County Ambulance Service has one of the lowest rates of any ambulance service in the state. Some of the other counties charge two or three times more for the same service.

Along with collections of around \$35,000.00 per year, the \$73,500.00 of ambulance tax would allow the county ambulance service to continue paying its employees, plus there would be enough money to replace the ambulances and other equipment as it wears out. (A new ambulance costs around \$30,000.00).

We hope this information will help the people of the county to make up their mind about whether they want to help support their ambulance service. No one likes to pay extra taxes but there comes a point when everyone must take this share of the responsibility for things that benefit the county as a whole. No one knows if or when they might need the ambulance service but it's nice to know that it's there if and when you need it.

District Establishes Demonstration Plots

by J. David Stipes
Soil Conservation Service

Conservation District has recently completed the establishment of some Forage Demonstration Plots located off Hwy. 70 at Quail.

The Demonstration Plots consist of Grass and Legume mixtures. Each plot is labeled with a marker showing the varieties each plot contains.

The Conservation District will maintain the Plot Area for 1982 and 1983. The sponsors donated funds and materials such as lime, fertilizer, seed and machinery, etc. The Conservation District is truly grateful to everyone who helped make the Demonstration Plots possible. The Conservation District encourages everyone to drive by and see the plots located off Hwy. 70 at Quail adjacent to Bell's Grocery.

Local persons meet with engineers for Downtown Revitalization project

Twenty local business and professional people summed up 37 goals for Mt. Vernon's future at a meeting of the Downtown Revitalization committee last week.

The meeting, held at the City Hall last Thursday, was conducted by Eric Kuhn of the Proctor-Davis-Ray (PDR) Engineering firm of Lexington and Mollie Bellew of McLoney-Oml Co. of Lexington. The P.D.R. firm is under contract to the City of Mt. Vernon Local Development Corp., which is sponsoring the Downtown Revitalization Project.

Members of the L.D.C. were asked to list things they would like to see happen in, or to, the City of Mt. Vernon and as a result 37 goals or as some said "problems" were listed.

The suggestions ranged from adopting an overall theme for store front appearances to a flag pole with the American Flag in the City Park, to more "zest for life" among local clerks and store operators. Some of the 37 suggestions overlapped and some contradicted others. The elimination of parking meters was suggested by one person where another person suggested the utilization of parking meters more positively.

Other suggestions include more parking areas, a designated parking area for car poolers, unity among local merchants and county wide involvement in upgrading business places, and beautification of business places and homes. Suggestions for business places in the entire city limits include longer business hours, more shops,

more attractive window displays, better merchandising, up-to-date products, eliminating overhead signs, more special attractions days such as the annual Christmas Parade and the annual May Festival, and general face lift of business places. Handicapped access to stores and on walks was also mentioned.

Some committee members suggested the City of Mt. Vernon should eliminate lotteries, especially a round pool room area, arrange for street numbering system in entire city area, arrange for city owned and operated trash pick-up in

Richmond Street, have more foot patrol by city police around business places, and replace damaged sidewalks on Main Street.

Some others suggested city add more trash receptacles, especially along Richmond Street, have community swimming pool, bowling alley or types of commercial recreation and to ask utility companies to re-locate all unsightly poles near shopping areas.

Some members felt the Fiscal Court should be asked to have county employees use parking lots and not take up meter space, leaving meter space for shopping areas.

Some members felt the Fiscal Court should be asked to have county employees use parking lots and not take up meter space, leaving meter space for shopping areas.

Rockcastle Chapter of Cancer Society to have Pot Luck Supper

REVITALIZATION

(Cont'd from front)
From the list of 37 goals or problems, the committee members were asked to write down the goal or goal they felt would be the most desirable to help the merchants and people of the city, and to improve the city. Mr. Kuhin took the last list of suggestions and is to make a report at the next meeting of the local Development Corporation.
Floyd Owens, Project Director, stated the next procedure is to run a merchants survey of county merchants in the city area, asked their opinions of parking, city improvements and things they would help the city. Mr. Owens said he is to conduct the merchants' survey within the next week.
Other surveys are to be conducted on the street by talking to shoppers in town at certain hours and a telephone survey of county people all pertaining to the city shopping and improvements needed.

TABERNACLE OF LOVE

Fairground Hill Sun.- 10 p.m. Tues. - 7 p.m.
150 - 1/2 mile past Pic Pac 606/256-5894

The Tabernacle of Love is a United Pentecostal Church. We are not part of any sect. Some people have questioned the name of our church. It is called the Tabernacle of Love because, while praying, the Lord impressed us with this name. He called us to build a church in Mt. Vernon, also to let the people of Rockcastle County know that we love and care for their souls but JESUS loved the people so much more that He gave His life for them. That is the only reason we call the church by the Tabernacle of Love. The following information will explain to you the way we believe and worship the way we do.

How We Worship

- WE SING WITH ALL OUR HEARTS because - In the Bible we read, "make a joyful noise unto the Lord ... and sing praise." (Ps. 98:4)
WE LIFT OUR HANDS AND PRAISE GOD ALLOUD because - In the Bible we read, "Lift up your hands in sanctuary, and bless the Lord." (Ps. 134:2)
WE ALL PRAY TOGETHER because - In the Bible we read, "They lifted up their voice to God with one accord." (Acts 4:24)
WE CLAP OUR HANDS because - In the Bible we read, "O, clap your hands all ye people."
WE TESTIFY PUBLICLY because - In the Bible we read, "Whoever shall confess me before men, I will confess him before my Father." (Matt. 10:32)
WE ANNOUNCE WITH OIL FOR DIVINE HEALING because - In the Bible we read, "Is any sick among you? Let him call for the elders of the church and let them pray over him, anointing him with oil in the name of the Lord." (James 5:14)
WE BAPTIZE IN THE NAME OF JESUS CHRIST because - In the Bible we read, "Repent and be baptized every one of you in the Name of Jesus Christ for the remission of sins and ye shall receive the gift of the Holy Ghost." (Acts 2:38)
WE BELIEVE IN RECEIVING THE HOLY GHOST because - In the Bible we read, "For the promise is unto you ... and to all that are afar off, even as many as the Lord our God shall call." (Eph. 2:13)

Rockcastle Ambulance Service; the emergency may be yours

by Leigh Anne Hiatt

The Rockcastle County Ambulance Service may often be the difference between life and death in an emergency situation. The emergency may be yours.

What does the Ambulance Service mean to our county? It means that you have constant coverage in all parts of the county whenever an emergency might occur.

This coverage is provided by a crew of three trained Emergency Medical Technicians (EMTs) who are on duty 24 hours a day, seven days a week. The Ambulance Service hires nine EMT's who rotate being on 24 hour shifts, with a schedule that requires them to work three full days every two weeks.

To become an Emergency Medical Technician in Kentucky, a person must have an 84 hour training course in the classroom, 20 hours of experience in an Emergency Room, and take a written and practical exam. All those awarded the degree have been trained in cardiopulmonary resuscitation (CPR).

The Ambulance Service has three operating ambulances ready at all times. The ambulances carry all major first aid equipment, oxygen, suction, bandages, splints and backboards along with extrication equipment to remove people from a wrecked automobile.

The EMT's who make emergency runs are not qualified to start any type of medication, administer any drugs, or put a tube into any airway. What they can do is give a person oxygen, perform CPR, do bandaging, splinting, etc. and stabilize him enough to get him to a hospital.

The Ambulance Service has an organized, efficient system that they use in conjunction with the Rockcastle County Hospital. When a call is received for an ambulance the phone rings at the hospital switchboard and at the ambulance station. The ambulance crew and the switchboard operator answer simultaneously and both get directions to the scene of emergency and an idea of the condition the person is in.

The Ambulance Service keeps in radio contact with the hospital throughout the run and often sends reports of a person's condition to the Emergency Room so they can be prepared to deal with that patient upon arrival at the hospital. This enables the Emergency Room staff to deal quickly and efficiently with incoming trauma cases. This system also lets

the hospital know where an ambulance is at all times.

When the crew arrives at the scene of emergency they get the distressed person's vital signs, give basic life support and do bandaging, if necessary. In the case of a multiple car wreck, for example, the crew might have to radio back to the hospital for more help. There are about 10 hospital personnel, such as registered nurses, who answer 24 hours a day to serve as backups for the Ambulance Service.

On call hospital personnel make about 25% of the runs, and they are able to provide advanced life support while the EMTs are not qualified to give. The advanced life support would include such treatments as cardiac monitoring, drug administration, ventilators, etc. A drug kit is always ready to go, along with artificial airways and devices to insert them. The equipment does not board an ambulance unless it is with someone qualified to use it, such as a registered nurse or a physician.

The state requirement and third party payers maintain that patients must be taken to the nearest hospital. The Ambulance Service tries to take a person to the hospital of his choice if that person can safely make it to where he wants to go. If a person's condition is not stable, then he is stabilized at the Rockcastle County Hospital before being taken to another hospital.

The Rockcastle County Ambulance Service makes it a policy to have an ambulance available anytime it is called to an emergency. Not only do county residents benefit from this policy, but it also beneficial to tourists in our area or those passing through on interstate who may need emergency treatment. Because of the policy, non-emergency situations may have to wait until an emergency is taken care of.

The intent of the Ambulance Service in our county is to make an ambulance into a portable Emergency Room. Because the ambulance service personnel have the initial contact with the sick or injured person, a lot of the time their judgement at the scene can determine the outcome of a patient.

Rev. Harvey Pensol filled his regular appointments at the Fairview Baptist Church over the weekend with good attendance. Sunday School attendance was 86. Thank God for that number.

Mr. and Mrs. Hubert Chasteen visited Rev. and Mrs. Harbert Berry of Clear Creek on Tuesday evening, September 28. We always enjoy our visits in their home. They are such nice people and too, Hubert and Mrs. Berry are related and that makes our visits a little more special. Rev. Berry remains on the sick list and covets the prayers of all you good Christian people. God bless him and his family. They mean a lot to us and we love them dearly.

We received some much needed rain Sunday for which we thank the good Lord. Everyone is trying to get their fall chores done and get ready for winter time. We are having some beautiful weather. The leaves are just beginning to turn, not much color as yet.

I received a nice letter from my sister, Ruth Gatliff, of Rochester, Indiana last week. She was relating how she always gets home sick when the leaves begin to turn and how beautiful the hills and valleys used to be at this time of year when she rode the school bus to the Mt. Vernon High School years ago. You know there were thirteen children in the Reppert family and since we all married, I've never had the privilege of being with any of my sisters very much as most of them have lived in other states. I think about Ruth, Ira and Everett who are so alone with none of their brothers and sisters near them. But I do thank God for my brother, Tip, who lives near me. It helps to have him close. I enjoy so much our visits and good talks on the telephone. But to all my brothers and sisters, I'd like to say, Jesus has gone to prepare a home for all of us and I hope to meet

Two small children die in separate accidents

By: Richard Anderkin

Two Rockcastle County families have been stricken with tragedy during the past week. Two boys, ages 2 and 4, died in separate accidents, only four days apart.

Luke Melvin Bussell of Route 1, Mt. Vernon, died in a fire at his home on Highway 461 near Clayton Hammond's Supermarket, last Thursday night around 7 o'clock.

Timothy Edward McWhorter, age 4, of Livingston, died in a freak automobile accident on U.S. 25 in front of McKenzie's Motor Court in the scene limits of Mt. Vernon, Monday afternoon around 2:30 p.m.

According to Rockcastle County Coroner, Bill Dowell, the Bussell child's father, mother, great grandmother and younger sister were all at home at the time of the fire. Dowell said that everyone left the house but the two-year-old boy and when his father, Ricky Bussell, tried to go back into the dwelling to rescue his son, he was met with flames in the doorway and forced to leave the burning house.

According to a fire department spokesman, when the Mt. Vernon fire department arrived on the scene the dwelling had already fallen in and there was no hope of saving the house. The fire department concentrated on the room that the child was trapped in, trying to put the fire out in the hope of saving the boy's life.

The child died of asphyxiation caused by smoke inhalation, according to Dowell.

Timothy McWhorter was apparently riding in the back seat of a 1973 station wagon when the right rear door came open and he fell out of the car into the path of the right rear tire, according to State Trooper Jack Lawless. Lawless said that the four-year-old was in the back seat alone and his mother, sister and

grandmother were riding in the front seat. Lawless also said family members thought the back door was locked and did not know what might have caused it to come open. The child's grandmother, Mrs. Maude Susie Kidwell, was driver of the vehicle.

According to Coroner Bill Dowell, Rockcastle Deputy Sheriff "Jibb" Hasty was one of the first to arrive at the scene and he transported the child to the Rockcastle County Hospital, where he was pronounced dead on arrival.

Timothy Edward McWhorter

Bussell was born in Richmond, Indiana on December 19th. He has six brothers. Ricky Bussell, he is survived by his mother, Maureen Sherry Bussell, one sister, Jesse Bussell, at home; his grandfather, Melvin Bussell of Route 1, Mt. Vernon; his grandmother, Mrs. Rossie Stutzman of Illinois and great grandmothers, Mrs. Clella Bussell of Route 1, Mt. Vernon and Mrs. Ollie Sowder of Route 1, Mt. Vernon.

Funeral services were held Saturday, October 16 at the graveside, by Bro. Johnny Carter. Burial was (Cont. to 15)

Voting places changed

Three voting booth locations have been changed effective with the November General Election, according to Irene Bales, chairman of the Rockcastle Co. Election Commissioners.

Changed were: East Mt. Vernon from the Old Dinner Bell Building to the basement of the Rockcastle County Garage on Old 25, past Elmwood Cemetery, formerly Armour Creamery.

Roundstone precinct has been changed to the Northern Rockcastle County Water District office building on Green Hill. Conway precinct will be at Kidwell's Service Station on U.S. 25.

Tragedy struck two Rockcastle County families during the past week as two young boys died in separate accidents.

Interest rates lowered on Farmers Home Administration Loans

Interest rates on most loan programs in FmHA were reduced effective October 1, 1982. Kentucky FmHA State Director Kendall L. Seaton announced today. Seaton said, "the reductions, which will be as much as a full percentage point for Farm Operating loans and market rate Community Facilities loans, reflect progress in the Nation's drive to roll back inflationary interest rates." Reductions will apply to

farm, community and rural housing loans made by the Farmers Home Administration in Kentucky.

Legislation mandates FmHA interest rates parallel those in the money market. Interest rates can be lowered because the cost of money to the U.S. Treasury has been down in recent months.

In Farmer Programs, the interest rate for Farm Operating loans is reduced from 14.25 percent to 13.25

percent. For long-term farm loans, such as Farm (Cont. to 15)

Correction

In a front page story last week concerning a raid at Karen Cash's residence October 8, the name Darrell Dillingham was mistakenly given to the Signal as the person arrested at the raid scene. The person arrested was Harold Dillingham. The Signal regrets any embarrassment this may have caused Darrell Dillingham or his family.

The amount of beer confiscated was mistakenly reported as 59 cases, rather than 59 cans. The Signal regrets this error.

Cash Case Heard

Found guilty last Tuesday, October 12, of illegal possession of alcoholic beverages for resale was Karen Cash of the Quail community. The case was tried by jury in district court. Ms. Cash was sentenced to 60 days in jail and fined \$100 on the charge which stemmed from an August 19 arrest at her home. An appeal has been filed by Ms. Cash, according to Circuit Court records.

A charge against Ms. Cash for selling alcoholic beverages in a local option territory was dismissed. The dismissed charge against Ms. Cash was placed by law enforcement officials at the time of her August arrest.

Four locals volunteer summer of service at Baptist Village in Israel

by Nancy Mullins

Four youths from Rockcastle County had a unique and rewarding experience this past summer. Carolyn Browning, daughter of Mrs. James Browning and the late Mr. Browning, Lynelle Hammons, daughter of Mr. and Mrs. Jim Earl Hammons and Todd and Valerie Fields, children of Mr. and Mrs. Bob Fields traveled to Israel and worked for two months as volunteers in the Baptist Village near Tel-

and Todd was 10. The youths from here paid their own expenses and joined five other American volunteers who were sent by the Baptist Student Union organization.

The first duty of the volunteers was to prepare the camp and conference center for summer camps. The camps included two weeks in which English speaking children attended. During these two weeks the local volunteers served as counselors and teachers to children, some of whom were ambassador's and diplomat's children and others who were children from English speaking homes in Israel.

According to Lynelle, the trip was much like (Cont. to 11)

The trip was a nostalgic one for Todd and Valerie who had lived there as young children of missionary parents. The trip left Israel when Valerie was 7

Boyle Man Dies In Wreck

A Boyle County man was killed Wednesday around 9 a.m. when he apparently lost control of the dump truck he was driving and it overturned on Highway 1004 (Brush Creek Road) in Rockcastle County. Archie T. Colvin, 45, of

Junction City was pronounced dead at the scene by Rockcastle County Coroner Bill Dowell. Dowell said Colvin, who was an employee of Lincoln County Redi Mix, died from multiple injuries.

Rockcastle County's new health department will be built on the above site of the old Dinner Bell Building. Demolition work is being done by Clarence Hasty of Mt. Vernon who submitted the low bid of \$999. Health Board Chairman Attorney Jerry Cox said Wed-

nesday that as soon as architects and engineers finish their plans, work will begin on the new building. The above building is the same one the county paid \$50,000 for last year.

Letters to the Editor

To the citizens of Rockcastle County, and anyone who has read the charges brought against Karen Cash, Route 1, Brodhead, Ky.

I, Karen Cash, was astonished, shocked and have suffered definite embarrassment over the report of Sheriff William Taylor to

these complaining people are just mad about the good job they are doing. Please put this letter in your paper because I feel that someone else should have a say. I don't mean to make anyone mad but the truth has never hurt no one.

Geraldine Thomason

Dear Editor:

My father-in-law, Shirley Cable, received a letter in the mail 10-11-62 and I want to answer this letter for him, it seems that this person that sent this letter is good at picking thru the Bible, picking out a few verses to prove their point, but I wonder if this person has read the Ten Commandments with it under standing. Exodus 20:1-17 and Deuteronomy 5:6-21.

1. Thou shalt have none other Gods before me.

2. Thou shalt not bear the name of the Lord thy God in vain.

3. Keep the Sabbath day to sanctify it, the Lord thy God hath commanded thee.

State Legislature

By Sen. John Rogers

The state Commerce Cabinet is apparently delving deeply into Kentucky's tourist industry.

The state Parks Department has been appointed receiver for the privately operated and debt ridden ski area at General Butler State Resort Park in Carrollton, Kentucky.

Also, a Circuit Judge has granted the Parks Department permission to borrow \$300,000 from the Kentucky Development Finance Authority to improve and reopen the ski area.

The Kentucky Development Finance Authority and the Parks Department are agencies of the Commerce Cabinet.

Northbank Ski Partners, which originally proposed the ski area and obtained revenue bonds for the project, operated the ski area until it closed last winter with about \$1 million in debts.

The Parks Department has estimated that it will make a profit of \$153,000 on the ski area this winter.

In another area, the Commerce Cabinet has announced that it is coordinating efforts for the construction of a 195 room Inn Kentucky resort hotel in Frankfort's Capital Plaza.

A hotel is to be built by Wilkinson Enterprises of Lexington and operated by Service Inc. of West Palm Beach, Florida. The estimated cost of the project has been set at \$12,650,000.

The hotel project is to be funded by \$7 million from industrial revenue bonds to be issued by the Kentucky Development Finance Authority, \$3 million from state economic development bonds, \$1,150,000 from the builder, a \$750,000 loan at 8 percent interest from the Development Finance Authority and \$750,000 in a grant from the city of Frankfort.

However, it is worth noting that discussions and feasibility studies on this hotel have been going on for almost ten years. And, there stands a possibility, or some might say hope that discussions will continue for at least another decade.

Source: U.S. Labor Dept.

On September 22, KU requested a 12.5% overall increase in electric rates due to the continuing increases in operating expenses and the cost of capital funds. No one likes rate increases (including us), but they are necessary to continue serving your electrical energy needs now and in the future.

Even with the increase, our rates will still be among the lowest in the nation... just as they've been for a long time. The most recent survey of the U.S. Labor Department shows our residential customer's bill for 500 kwh is still low on the list. And our rates for commercial and large industrial customers compare favorably, too.

We're working to continue to supply the electricity you need at the lowest possible cost. But as costs continue to increase, it is even more important to use electricity wisely to help keep your bill down.

Your local KU office has a number of free pamphlets that will help you find ways to save energy. Please ask for them; we want to help you keep your bills as reasonable as possible.

Mr. and Mrs. Richard Stephen Earley

Farthing - Earley vows spoken

The marriage of Miss Sharon Elaine Farthing and Mr. Richard Stephen Earley was solemnized on August 14 at the Big Hill Avenue Christian Church in Richmond. The Reverends Keith Dimbath and Eddie Hammond, officiated at the double-ring ceremony. The bride, escorted in marriage and given by her parents, wore a Victorian gown of ivory quiana and schiffli embroidery. The lantern sleeves and Victorian neckline were enhanced with vertical strands of pearls. The empire bodice featured with embroidery and embroidery edged around the chapel length skirt. She carried a bouquet of white stephanotis with ivy and purple statice.

Mrs. Debbie Rouden, Earnest of Richmond, served as honor attendant. Other attendants were Mrs. Sharon Hurley Robinson of Berea, Miss Donna Farthing, Miss Kimberly Farthing-sisters of the bride, Debbie Earley of Wilmington, Ohio-sister of the groom, and Miss Rosemary Husted of Sebree, Ky. They wore ivory georgette crepe blouses with floor-length purple georgette crepe skirts accented by ivory ribbons around the waist. They carried loose bouquets of purple glads tied with ivory and purple ribbons.

Mr. Jay Harte of Wilmington, Ohio performed the duties as best man. Other groomsmen were Duane Earley of Newton, Kansas, Mike Earley of Wilmington, Jeff Earley of Wilmington-brothers of the groom- Jack Farthing of Rantoul, Illinois-brother of the bride, and Ed Turner of Bellbrook, Ohio.

Miss Jennifer Rose of Versailles, cousin of the bride, served as flower girl. She wore a floor length purple gown accented by an ivory and lavender hair piece. Master Sean Earley, nephew of the groom, served as ring bearer.

A program of traditional wedding music was per-

formed by Jamie Neal, organist and Jeff Earnest, vocalist. Selections included, "What A Difference You've Made in My Life," "The Lord's Prayer," "Always and Forever," and "Time in a Bottle."

Candles were lit by Ed Turner and Duane Earley. Mrs. Delores Earley, mother of the groom and Mrs. Janice Rose, the bride's aunt, lit the unity candles for the couple.

Mrs. Earley chose a floor-length gown of pale blue chiffon accented with a corsage of miniature white mums for her son's wedding.

Miss Martha Schwendau and Miss Pam Lee of Louisville, presided at the guest register.

A reception was held in the church fellowship hall. Assisting with serving were Mrs. Betty Brockman, Mrs. Arlene Brockman, Mrs. Janie Rose, Mrs. Susie Brockman and Mrs. Mary Allen Serton, all aunts of the bride.

Mr. and Mrs. Richard W. Earley hosted a rehearsal dinner at the church fellowship hall on August 13th.

Following a short wedding trip, the couple is residing in Berryville, Virginia.

Trebolo grows 171 Bu./Acre in UK corn contest

**By Tom Mills
County Extension Agent
For Agriculture**

Steve Trebolo

Steve Trebolo and high corn yields are not new stories to most Rockcastle county farmers. We can still remember two years ago when Steve won the Regional Southern Corn Contest with two hundred bushels per acre. There are many farmers who would like to see fields producing 170 to 200 bushels/acre but most would say it's not possible. If it were possible, most farmers would say the fertilizer cost would take all the profit.

Steve is not even prouder of accomplishing 171 bushels of corn per acre, he is one of few farmers that can say the only fertilizer added was nitrogen through a soils testing program. Steve has built the fertility level to a medium and high range. Knowing the soils potential and correcting its deficiencies is the key to successful competition. But in talking with Steve, you will find that his fertilizer program is not just for competition sake, he is investing in the soil.

Between corn strips. A rotation system will allow three years in corn and two years in alfalfa. Steve is to be commended for his practices and yields. He shows many of us that even with low corn prices there are ways to compensate. If other farmers would like to compete in the UK Corn Contest there are two divisions, No-till and Conventional tillage. A minimum of 10 acres of corn must be grown on the farm. One 6 acre field will have 1/4 acre if harvested and weighed. Corn must be harvested by leaving three times the number of rows picked, left standing. Outside rows are also left to make the yield test a representative sample of the total field. Fields must be signed up with the Extension office in early summer and yields must be verified by Extension agents.

As corn is removed from your field, this fall is

an ideal time to start a soil testing program. Soil samples are \$2.25 per sample. Representative samples can give you a better idea of your soil's needs and may answer questions of low yield.

UK Field Day to Feature Birth-to-Beef Project

**By Tom Mills
County Extension Agent
For Agriculture**

Cattle producers are likely to see high-quality pasture and harvest forage becoming more and more important in slaughter beef production—but this is good news in Kentucky, where good pasture is abundant. A "birth-to-beef" production system would be well-suited to many of the state's farms.

That means producers would grow cattle to the slaughter stage on their farms. It would be a use of forage and minimum use of grain and maintain beef quality. Beef researchers and agronomists in the University of Kentucky College of Agriculture have been studying such a system in a long-term research program at Coldstream Farm.

The researchers will be talking about their birth-to-beef project, and what they have found, at the Beef Cattle Field Day on Thursday, October 28 at Coldstream Farm in Lexington.

The study is looking at systems that emphasize maximum forage use, especially fescue, through all phases of production—from cow to calf to steak.

We think combining quality forages, cattle of the right breed and age and the right schedule can result in acceptable slaughter beef with about half the grain used in commercial feedlots.

The birth-to-beef project aims to find best management methods for efficient production, beginning with a high conception and calving rate. Then, once the calves are on the ground, they should be managed to obtain heavy, yet economical weaning weights. That may be a producer's last step, or if he's involved in a birth-to-beef program, he would implement the most efficient finishing system.

The UK researchers are investigating how breeding management and nutrition influence conception rate and calf weaning weights. For the study, practices include calving in March and April, breeding for 60 days starting in mid-May, and weaning in November; grazing year-round on fescue-clover, clipping and surplus pasture; and using mineral treatments or vitamin A injections and antibiotic supplements in a salt mineral mixture.

To evaluate forage use, and the production of heavy calves at weaning, the study looks at breeds, straightbreds versus crossbreds, and pastures, fescue or fescue-clover with or without 100 pounds of nitrogen applied in August.

The researchers are comparing nutritive value and productivity of fescue and fescue-clover with straight Angus or Hereford-Holstein cattle during the preweaning phase. They also are evaluating amount of winter feed produced and body weight changes of both types of dry cows.

Fescue is an ideal grass for many Kentucky farms, but a few problems may limit its use. One problem in many Kentucky pastures is a deficiency of sulfur and selenium. Research is underway to see if sulfur and selenium supplementation benefits cattle grazing tall fescue.

Producers in Kentucky and much of the Southeast also see "summer slump" problems with cattle in the pastures. Work on this problem includes testing a plant growth regulator, applied to cool season grasses in the spring to keep plants in a vegetative state during the time of normal seed head production.

Other research on summer-slump is investigating endophyte fungus, which grows within plant cells and is related to decreased summer performance. UK scientists are collaborating to develop endophyte-free fescue.

The birth-to-beef research also includes methods of finishing cattle on farm under Kentucky conditions. Beef specialists are comparing pasture finishing systems—wheat and finish versus winter, graze and finish—and combinations of forage and grain used in low-labor, low-over-head systems.

The field day will include a tour of the farm and new beef barn. The featured speaker is John Merrill, chairman of the research and education committee of the National Cattleman's Association.

Registration will be at 8:30 a.m. EDT with tours to run from 9 a.m. to noon. The program includes exhibits and a session on breeding management.

"LETTERS"
(Cont'd from P-2)

4. Honour thy Father and thy Mother shall not kill.

5. Thou shalt not kill.

6. Thou shalt not commit adultery.

7. Neither shalt thou steal.

8. Neither shalt thou bear false witness against thy neighbor.

9. Neither shalt thou desire thy neighbors wife.

10. Neither shalt thou covet thy neighbor's house, his field, or his maid servant, his ox, or his ass, or anything that is thy neighbors.

Take special notice to 7, 8, 10.

I don't think that any Christian can join a group of thieves in order to steal an honest man's land, who has worked hard all his life (7 years) and to bother anyone and heap care for an invalid wife and has credited a majority of the people of this county when no one else would in their stores.

You didn't even have the nerve to sign your name to this letter you sent, so don't hide behind God's words to put a point across, and if you and other people who are so interested in this matter, come to Mr. Cable and get the true facts instead of listening to false witnesses or at least sign your letters so he can answer you.

God didn't hide what he had to say, he said it for all to hear. It might help you to read Matt. 18: 7:1-29 and be sure to take a real close look at Matt. 7:15.

And another thing, we think we know who you are.

Johnnie B. Jones, Jr.
Rt. 1, Box 215
Brodhead, Ky. 40409
7584-9191

Dear Editor:
I received a phone call Sunday night from a lady who would not give her

name, but took it upon herself to bet me \$25,000 that my father would not get his roads on his land fixed the way he wants them, she must know something we don't. But she told me she used to visit her grandmother Norton, now who she was talking about we don't know, for my father is 77 years old and he has never known of anyone by this name living around his farm.

I suggest that if this lady has anything to say into this, that she comes to the hearing and says her piece, if she will call me and give her name, I will see if she can't get in on the hearing and then she can quit wasting my time and hers with phone calls. She knows who she is, I hope.

I told this lady if she would call a certified letter, that she would find that if the old county road is reopened it will run right through his barn, and that Dad's road is just an old log road that Dad had to get his logs out. This neighbor told this in front of witnesses.

Thank you,
Mrs. Jean Jones

To the Editor:

In response to Mrs. Glenna Brooks' letter, who didn't even have a child riding in the Bike-a-Thon, or doesn't even have a child of her own, has no way of knowing the disappointment or joys of a small child. When they hurt, you hurt; cry, you cry; laugh, you laugh.

First of all, I wasn't putting Mrs. Deborah Newland down for her fine work. Second, where do all the mothers come in in the Bike-a-thon, Glenna? There was a lot of mothers who would have helped, but weren't asked to help. Are

you fussing because you are one of the Brodhead Willing Workers and had to help? There were plenty mothers there that day, who weren't Willing Workers, but weren't asked to help out.

I didn't appreciate your letter trying to say I was putting everyone down, wasn't, if you read it that way, read it again or maybe you need glasses! I may just be Sharon Simpson to some people, which I don't care, but I'm also two children's mother. Because I don't run a beauty shop, teach school, work for the county, or teach Sunday School doesn't mean I'm a "nobody!"

There is one thing about it I didn't put in \$15 on Jackie after the ride was over. Anyone who let this happen doesn't seem right to me. At the start of the ride, everything was paid, each per mile and that was how it was to stay. That wasn't fair to everyone else. In that case, I could have added to Jackie's and caused her to win. I didn't even think about that, cause I was sure no adult would let that happen, but nothing is fair anymore.

If it weren't for the mothers taking their time and letting their child ride in the Bike-a-thon and helping them get sponsors to make up money and collecting the money (which isn't easy), the Brodhead Willing Workers wouldn't have to give their time! I'd say it's cheaper to raise a dog than a child and much less time-consuming!! I also don't need anyone else writing for my defense!!

Thank you,
Sharon Simpson
Rt. 1, Box 107
Brodhead, Ky.

P.S. The children know the money goes for a good cause-but what child didn't have their mind on winning! None!! The mothers that stay home and take care of their children have a harder job than people with jobs outside their

homes! Brodhead would be a better place to live if people would mind their own business, especially when they have to take defense for another grown-up and standing been said at all about the grown-up mentioned!!

HAPPY HEARTS HOLD MEETING

The Happy Hearts Homemakers held their first meeting for the 1982-83 year. Club president, Debbie Carpenter, called the meeting to order. Phyllis Holbrook has been elected to serve as vice president. The secretary-treasurer, Willetta Owens, was unable to attend, so Cora LePorin gave the treasurer's report and read the minutes of the last meeting. Club chairwomen have also been selected.

Our president reminded the members of the Area Professional Meeting at Cumberland Falls on November 4, 1982; the quilting workshop scheduled for October 12, 19 and 26th at 1 p.m. at the PCA building; the Holiday Decorating with the Williamsburg touch workshop scheduled for October 25th at 7 p.m.

and October 29th at 1 p.m. at the PCA building; and the Blood Drive scheduled for November 9, 1982.

The club members are making plans for a Christmas program and hand made gifts for the Extended Care Wing at the hospital.

The hostesses, Joyce Lark and Cora LePorin gave the members a very informative lesson on Food and Drug Interaction. They stressed the importance of being aware of the medicine you take and how the medicine reacts with the food you eat.

After the meeting was adjourned, lunch was served by our hostesses. Next Month's lesson will be on Holiday Decorating with the Williamsburg Touch on November 5, at the home of Bea Hensley.

Rockets lose to Lynn Camp

After leading 14-0 at half-time, the Rockets lost a heartbreaker to the Lynn Camp Wildcats Friday night in overtime, 20-14.

It was only the Rockets second loss of the season against seven wins. Lynn Camp is now 5 and 3.

The Wildcats had to kick to the Rockets and, with only 14 second gone in the first quarter, the Rockets were on the scoreboard on an 80-yard kick-off return by senior Steve Holcomb. Two key blocks, thrown by senior Jeff Ham and sophomore Troy Williams, were the decisive factor in Holcomb's successful 80-yard touchdown run.

Junior Scotty Robinson carried the ball for the two extra points and the Rockets were ahead 8 to 0.

Shortly afterwards, the Rockets turned back a Lynn Camp scoring threat when the Wildcats had the ball 1-10 on the Rockets 20

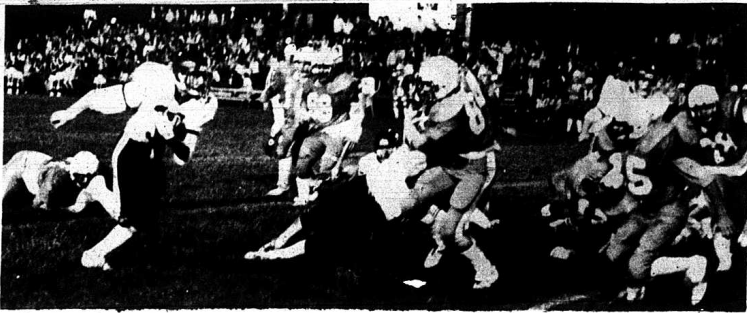

yard line. The Rockets' defense stood firm and forced the turnover on an unsuccessful 4-1 play by Lynn Camp at the 11 yard line.

Three plays later, however, the Rockets had to punt. Ham got the kick off under heavy pressure by the Wildcats and it was a short kick to the Rockets' 37 yard line.

On their first play from scrimmage, Lynn Camp fumbled the ball and senior Jeff Lear was there to claim it for the Rockets on the 31 yard line.

A short pass from Cornelius to senior Teddy Lawrence was complete and the Wildcats were also tagged with a pass interference penalty on the Rockets' 47 yard line. Three plays later, the Wildcats got to Ham again had to punt.

Lynn Camp returned the 33-yard punt to their own 40 and senior James Miracle and sophomore Elmer Robbins combined to stop the runner on the next play for no gain as time ran out in the first

Bozie Kirby, no. 34, has some running room against the Lynn Camp Wildcats in Friday night game which the Rockets lost in overtime, 20-14. Throwing a block for Kirby is Jeff Lear and far right is lineman James Miracle.

quarter. Three plays later, Lynn Camp had to punt the ball away and Holcomb called for a fair catch on the Rockets' 24 yard line. Holcomb picked up 52 yards on the next play and the Rockets were in position to add to their lead. But, it was not to be. Following a nine yard gain by Bozie Kirby and three more yards picked up by Holcomb which gave the Rockets a first down on the Wildcats' 12 yard line, a Cornelius pass was picked off by Lynn Camp on the Rockets' one-yard line on the Wildcats' 12 yard line, a Cornelius pass was picked off by Lynn Camp on the Rockets' one-yard line on the Wildcats' 12 yard line.

Lynn Camp then added 4 first downs to their statistics before having their drive stymied at the Rockets' 48 yard line where the Wildcats had to punt.

This play set up the Rockets' final score of the game because the ball was kicked over to the punter head. He picked it up and attempted to pick up some yardage by Miracle and Burley Burkhart brought him down on Lynn Camp's 30 yard line.

Two plays later, Lear took a Cornelius pass on the 10 yard line and went in for the score. The extra point attempt was no good.

The half ended with the Rockets on top 44-0. Neither team was able to move the ball in the third quarter, but early in the fourth quarter, the Wildcats had the ball 1-10 on the Rockets' 10 yard line but, they were unable to put the ball in the end zone against the Rockets' good defense and had to turn the ball over after a fourth down play on the 2 yard line. The Rockets were again in possession of the ball but, two plays later, Holcomb was jarred loose from the ball and the Wildcats recovered it on the Rockets' 10 yard line.

Two plays later, the Wildcats went in for their first score of the night. A pass into the end zone was good for the two extra points

and the Rockets lead had been cut to 14-8.

The second touchdown of the half came for the Wildcats with 1:44 left in the game and, it too, was set up by a fumble, this time by the Rockets' quarterback.

The Wildcats took the fumble to the Rockets' 7 yard line. They were then penalized 5 yards and they gained nothing on the next play. It looked for a while as if the Rockets might again be able to hold them out of the end zone but on a 3 and 15 play, the Rockets were whistled for pass interference and that gave the Wildcats a first down on the Rockets' 8 yard line.

Lynn Camp scored their second touchdown on the next play. The kick for the extra point was no good and the score was knotted at 14 all.

Regulation time ran out with the tie score on the board and Lynn Camp won the toss to determine first possession in overtime. It only took three plays for the Wildcats to score up the middle but the extra point attempt was no good and the Rockets had to chance to put it away.

However, the Rockets were penalized for clipping on their possession and a quarterback sack prevented the Rockets from scoring.

The Rockets appeared to be "snake-bit" in the second half of the game and despite some excellent defensive work by Kirby, Holcomb, Miracle and others, the two fumbles decided the game in the Wildcats' favor.

This Friday night, the Rockets host a tough Cadwood team at home. Cadwood is a sub-district foe of the Rockets and must be defeated, along with Knox Central, for the Rockets to have any hope of post-season play.

Calorie-Counters Can Be Fooled at Salad Bars

Salad bars are in vogue today as the "luncheon choice." From fast food to fancy restaurants, they are the choice of many persons, especially those who are weight conscious. But, this is where the Calorie-counter may be fooled.

A typical salad bar contains many items ranging from low-calorie lettuce to deep-fried zucchini. So, when you go to the salad bar, you're seeking a low-calorie meal.

Here is an example of a typical meal from a salad bar:

1/2 cup potato salad, 125 calories; 1/2 cup regular cottage cheese, 115; 10 ripe olives, 75; 1/4 cup diced ham, 100; 2 canned pear halves, 80; 4 tablespoons salad dressing, 400; 4 bread sticks, 160; 1 tablespoon butter, 80, for a total of 1,135 calories.

Most of us would agree that over 1,100 calories is rather high for a "low-cal" lunch.

For dieters the following choices are recommended: lettuce, cabbage, or other greens, such as raw spinach; "bacon" bits made of soy; onion, radishes, carrots, green pepper, small amount of cottage cheese or other cheeses; and a few boiled egg slices. Omit crackers and butter.

Do not pile on the croutons, especially those that have been deep-fried. Also, limit all other deep-fried foods since they have a tendency to be high in calories.

Salad dressings are also high in calories, about 100 calories per tablespoon. Instead, substitute lemon juice or vinegar!

You should avoid those foods with creamy dressing or mayonnaise, such as potato salad and macaroni salads. Remember that the foods you choose to accompany your salad bar meal can make a difference in calories. For example, a double-decker hamburger with three pieces of bun may give you 500 or more calories.

By making careful choices, salad bars can offer a meal that is light and nutritious, as well as one that is reduced in calories.

Healthy Women Make Healthy Mothers
Good nutrition before pregnancy is the best preparation for a healthy baby. A malnourished woman who becomes pregnant is in double jeopardy; her own health will suffer and her baby will not get off to a good start.

If you haven't established good eating habits before pregnancy, it is more difficult to improve them during pregnancy when nutritional needs increase. Eating a variety of foods each day from the four food groups that provide essential nutrients is important. Junk foods offer incomplete nourishment and are so filling that they reduce your appetite for foods that are needed.

Adequate fluids are important too. Six to eight cups are recommended daily. Milk, soups, fruit juices or water are all nutritional ways to achieve the needed level. Soft drinks supply little more than extra sugar.

Nonpregnant women of childbearing age need about 2,100 calories a day to provide energy essential for health and ordinary activity. During the first few months of pregnancy, these calorie requirements are the same. From the fourth through ninth months of pregnancy, a woman needs to eat about 2,400 calories each day.

If a woman is overweight, pregnancy is not the time to lose weight. The increased need for essential nutrients during pregnancy can't be met by a calorie-restricted diet.

Excessive calorie consumption can result in too much weight gain and a difficult pregnancy. So, a wise choice of foods which provide protein, vitamins and minerals along with fiber, energy and essential fats is important for a healthy mother and baby.

Hello from Clear Creek! God gives us beauty each season in the colorful flowers that grow by the roadside. Goldenrod is just that with its yellow color, the bittersweet vine has the orange color with its berries, and purple flower is found in masses by the roadside. We know summer has faded into fall but the colors are still big orange pumpkins lying in the cornfield. Many people drive through Clear Creek to see the gorgeous colors nature has begun to paint the trees. We would not attempt to scatter color on a landscape as nature so boldly does. I saw a green leaf maple tree with a slash of red color down one side as if you had cut the tree open much as you do a ripe watermelon.

I see Calvin Morgan of Brindle Ridge has challenged the people of the county with his plume of the large cabbage head he had raised. Come on, Clear Creek, and throw your hats in the ring by your cabbage raising round the community.

My thanks to County Clerk Irene Bales for her nice letter telling me how she appreciated a column I wrote recently about her work at the courthouse.

My thanks to Peggy, who left with Peggy's mother, Mary Payne, from Berea, visited Cleve and Blanche Payne. They probably were checking on the fat cattle, hoping, as I did, he might have turned one into steaks but no such luck as yet.

I was lucky in attending church at Macedonia Sunday where the ending of a year was celebrated by a dinner (not on the ground as people used to say) but given by the congregation and spread on a tractor trailer with Cousins Bill and Flossie Stephens asked us to stay and I was glad I did when they brought out a pot of fried country ham. I never say such an array of food-country cooking as was brought out by the women of the church. One I did brought by Goldie Bullen Isaacs was fried, pickled corn. If you haven't eaten any, you should for it beats McDonald's hamburgers anytime. Mollie Bowman, the pastor's wife, had an apple cake that would melt on your tongue. There were many other good cooks as was shown by their dishes also. Bro. Dillard Bowman is the pastor of Macedonia and his preaching has brought out many visitors from Berea and from as far as Lexington.

The "teller of tall tales", Armon Neeley, relates about his old grandpa's courtships who in later life as a widower went to see one woman during the daytime and courted another in the evening hours. Now this was leading a romantic life until one of them caught him and Armon says he finally married again but I'm not sure which one believed all the things he probably said in order to win her.

The closing of the Payne Grocery Store on Clear Creek ended a long career of a merchant's son who followed in his father's footsteps. Cleve Payne the youngest and last son of O.M. Payne, who had a long career as a storekeeper on Clear Creek with three of his sons, Stanley, Howard and John running a Payne Grocery in turn after their father has now closed out the only store on Clear Creek and gotten out of the business. With supermarkets being a few minutes' drive away a country store finds it hard to compete with their prices. But people will miss the sitting room and the store on winter days swapping tales with other men who have left the

Pearlie VanWinkle, a one time resident of lower Clear Creek, who lives at Sowder Nursing Home in Brodhead, had a birthday last month but that doesn't mean she gets old. Pearlie is full of talk and enjoys the recreational programs they have there for the residents. She gets about in a wheel chair but is alive with interest in the world about her. Her

granddaughter, Sue Cromer and children, came to help Pearlie celebrate her 85th birthday bringing a cake and presents. So I add, "Happy Birthday, Pearlie."

Clear Creek Baptist Church celebrated its 84th birthday recently by a Homecoming which was well attended. Seven members who had been active in the church for 40 years were given awards for their faithfulness. They are: Martha Hill, Mary Sheerer Thomas, Charlie and Sarah King, Mary Harding, Raymond Hupley and Bertha Long. Thelma award was given to Carolyn Nicely for her faithful work as music-

ian in the church for many years. These people are to be congratulated for their devotion to the Lord and His House.

Jim Kirby has been called for his third year as pastor of the Clear Creek Church. Speaking of birthdays, Nettie Hurley Croucher, who came from Hamilton, Ohio with her husband, Charlie recently, to attend a family reunion at Berea Park, was pleasantly surprised by her brother, Raymond and wife, Lorene Hurley, with a birthday cake, which came on the day of the reunion. Todd Fields, second from left, is shown with some of the campers he served as counselor for a while in Israel last summer.

counselors who worked with the children during these weeks were young local Arab Christians.

On the weekends, the Lytle's who are Baptist Missionaries there and close family friends of the Fields, Todd and Valerie, added a great deal more spiritual meaning to her summer.

They all admitted that living in war-torn Israel would have been rougher if they had not been living at the Baptist Village. "We had our own little America," Valerie said. "When asked if they were of the war, Todd said they often saw military movement, tanks and planes, but they were not in the range of the war noises. Carolyn, who is a freshman at Northern Kentucky University this fall,

was absent from the interview, but the three others who traveled to Israel agree the summer provided a chance for spiritual deepening and stimulated a desire to return. Valerie said simply, "I feel we will be back one day." Valerie, a 1982 graduate of Rockcastle County High School, is a freshman at Georgetown College. She has plans to enter the field of medicine.

Todd Fields is a junior

at Eastern Kentucky University where he is majoring in fishery management, a field which he envisions as a possible answer to the concern of Georgetown. Todd says he realizes that part of the attraction Israel holds for him and his sister is going back to familiar childhood surroundings and seeing old family friends." He says, however, that Israel has a good program in fishery management and he is now thinking of possibly returning to study in Israel for a year, perhaps in a couple of years.

While there, Lynelle checked into employment in the work field she is entering. She will graduate from the University of Kentucky in May as a dental hygienist. Before working there, she found out, she would have to go to an Arab language school. Todd says she wants very much to return to the place she enjoyed so much this summer.

ditional or colleges, the decision is mine.

I am also guaranteed freedom of religion by the Constitution. I am free to decide what, if any, god to worship and what church to go to.

I think that these rights and freedoms are the reason our country has remained one nation, undivided.

If the Constitution had not been written, our lives might be totally different. We might not have some or any of the freedoms and rights we enjoy today. Living without a constitution could even mean living under communist rule. Our founding fathers seemed to know the direction our nation would take. They managed to find solutions to the problems our nation would face even though such problems were not prevalent during their lives.

Most people don't seem to realize how much the Constitution means to our lives and our freedom. Others who do know its meaning take it for granted. These people don't seem to understand that we as Americans must constantly fight for our rights and for our freedoms.

We have to keep our laws from becoming archaic and from becoming restrictive to the growth of our country. Since some of the older laws don't apply to society today, we have to change them, but keep the basic principles our forefathers started out with. If we all take part in this process, our country will remain free.

Our forefathers took an active part in their government and the Constitution of the United States of America was borne.

Winning second place in the DAB essay contest was Jeanna Payne, daughter of Mr. and Mrs. Jackie Payne of near Brodhead. Jeanna is also a Junior at RCHS.

What the Constitution Means to Me by Jeanna Payne
Our Constitution, written almost two hundred years ago, is one of the greatest documents ever written. It represents freedom and democracy to me as well as to all the

people of the United States.

The Constitution of the United States is the center of our nation. It defends and warns the people. It was written not for, nor by the states but for the people of the states as individuals. It is our constitution and our government. It was made for us and by us and is answerable to us.

The first ten amendments to the constitution are called the "Bill of Rights". The personal rights guaranteed by these ten amendments are yours and mine. I think they should be considered as ten of the most important statements because they represent our independence. The Bill of Rights represent rights that colonists and Englishmen fought a hard war to preserve and they still protect my individual rights. As Americans, should look upon them with great respect.

In my opinion, our constitution is a most magnificent document. Therefore, we must protect it, respect it and understand it. A government, even that of the United States, has a specific temptation to seize as much power as it possibly can. Our forefathers, who were smarter than we, erected certain barriers to prevent these temptations. The three powers of government—The Presidency, The Courts, and The Congress—are established with completed independence from one another on the

supposition that never could all three of them combine against the people or against the law which gave them being.

The Constitution guarantees each and every American citizen life, liberty and the pursuit of happiness. It also gives us freedom and citizenship.

To me, nothing could possibly be more important to any man or woman than the perpetuity of the institutions which protect our lives, our liberty and our property. Our Nation has a proud history. With God as our lader, we have grown strong and thus have become one of the strongest world powers today.

Can we as American citizens fail to see that governments and institutions cannot survive themselves? They will only be saved by the guardianship of the people to whom they are committed.

Our constitution gives us our rights but only if we use them correctly will we concern ourselves. Most of us don't even know what the constitution says, much less how it can work for us.

Upon us, as citizens.

What the Constitution Means To Me by Crystal Blackburn

The Constitution of the United States has a document that has protected Americans for many years. It guarantees us many rights and freedoms.

Because of the Constitution, I may go where I please and with whom I please. I may live where I please and travel as much as I like without fear of being ostracized from my family and friends.

I can choose what music to listen to, what television programs to watch, and what newspapers and magazines to read. I am able to choose the schools of my choice. Whether the schools are vo-

GA's and Acteens recognized in Missions work

Sunday night, September 26 was a very eventful time for the young ladies of First Baptist Church. The girls belong to mission groups known as "Girls in Action," grades 1 through 6 and "Acteens", grades 7 through 12.

The theme, "Jewels of His Kingdom" was used to represent the outstanding individual work that they have completed. These girls have studied missions and have participated in doing missions projects.

The girls not only were recognized but received pins and badges that represent the mission adventures that they have completed. The highest adventure step in Queen Regent which Mary Beth Baker has attained.

She was presented with her golden cape to be added to her crown and scepter that she had already attained. A reception was also held in their honor.

These groups are open to all young girls in Mt. Vernon and meet each Wednesday night at 7 p.m. at the First Baptist Church, West Main Street, Mt. Vernon.

But I'll recall this ghastly one,
 When silk hose came just above the knee,
 With a dark seam up the back for all to see,
 To run that seam straight was a try,
 And every noticed as you walked by,
 No matter if you looked like a fashion plate,
 You were just plain tackey, if your seams weren't straight.
 Talk about hurting a girl's pride,
 If they got twisted and ran to the side,
 So, we wore garters to keep them in line,
 When they were straight,
 Your legs looked fine,
 Fashions have changed, I'm so glad,
 We go away from that antique building,
 I never want another pair of those,
 Thank goodness, for the seamless panty hose,
 It rises that name from the great goddess of the rainbow.
