

Girls open first softball season here

By: Willie Hlatt

No one can say that the first RCHS girls' softball team has failed to generate interest.

About 70 players, practically enough for a whole league, showed up for the team's first organizational meeting. But that number was soon trimmed to a more manageable 28 when they learned that Coach Debbie Cash requires wind conditioning and calisthenics.

"When they found out they had to do a lot of running and conditioning," said Cash, a teacher at RCHS, "that cut a lot right there."

With the help of grade problems and more dropouts, Cash has since cut the roster to 18. Problem is, the team has had only four days of practice and has already missed its first two games because of the weather.

The team still has 16 games, including double headers, remaining on the schedule.

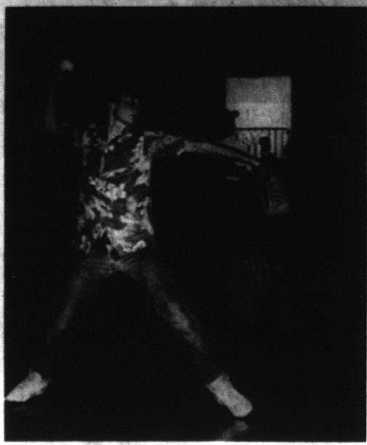

Some schools have had girls softball for two or three years, Cash said. "Some schools this is their first year. I expect a pretty good season. I've got about eight who seem to be pretty good players."

Cash plans to start freshman Gina Martin at first base, senior Cindy Fain at second, senior Celena Lear at shortstop, junior Lor Mink at third and freshman Stephanie Northern at catcher.

The outfield includes sophomore Sara Anderlin in right field, junior Regina Benge in right center, junior Rhonda Cobb in left center, and junior Shandra Gentry in left.

A lot of them have never really pitched before, said Cash, who plans to start senior Tammy Reeves in their opening game.

"We're having a problem finding someone who can pitch it over the plate."

Both the girls and boys teams have been confined to practicing in the gym as a late because of the bad weather. Above Chris Frith limbers up his throwing arm after school.

Boys lose season-opener 5-3 at Monticello Tuesday

By: Willie Hlatt

After scratching the first four games on the schedule because of snow and related bad weather, the RCHS baseball team finally took the field Tuesday afternoon at Monticello.

The Rockets, who have had only a handful of practices this spring, left the bases loaded in the top of the seventh inning in dropping their season opener, 5-3.

(Monticello had had a little bit more practice than we had," said RCHS coach David Perkins. "For the first game and it being cool, we played a pretty good ball game."

The Rockets led Monticello 2-1 before surrendering four runs in the fifth and sixth innings. They

scored one run in the seventh before stranding three.

Junior Tim Hodges, who went the distance for the Rockets, took the loss. He pitched a pretty good ball game until he got a little tired, Perkins said.

The Rockets' game at Whitley County scheduled for Wednesday afternoon was canceled because of wet field conditions. The team missed only three games in the entire 1986 season.

Although Perkins is still tinkering with the lineup, Tuesday's starters included senior Mike Hamilton at first base, senior David Dees at second, senior Kevin Bassell at shortstop, senior Brian McGuire at third and sophomore Chad Hodges behind the plate.

Sophomore Greg Abney got the starting nod in left field, junior Chris Larkins in center and senior Shannon Burton in right. Burton hit a third inning home run in the Monticello game.

Except for an infield gutted by graduation, the Rockets return a large part of last season's 13-7 team, which lost to Middleboro in the 13th Region Tournament. Gone are second baseman Troy Taylor, who led the team with 444 average, shortstop Benny Blanton, outfielder Tony Harrison and Kenning Graves.

The pitching rotation the team's biggest question mark will include Hodges, Burton, Bassell, McGuire, Hamilton and Chris Frith, most of whom also play other positions.

"If we get any pitching, we'll be a pretty fair team," Perkins said. "The players we have back are pretty good hitters."

Fishing Report

Fishing activity for the April 4-5 weekend was reported light statewide as periods of rain and snow kept anglers off the water. Several lakes in the eastern part of the state reported very little or no fishing activity due to severe weather and large quantities of snowfall. Water temperatures dropped at most every lake, but should begin rising slowly again towards the latter part of the week with the prediction of warmer weather. The lake-by-lake run-down, as reported by conservation officers and creel clerks at each lake:

Kentucky: Crappie were hitting tube jugs over submerged cover 15-17 feet deep; some black bass were hitting spinner baits over creek channels in 7-11 feet of water; clear to murky, rising, four and one-half feet below summer pool and 49 degrees.

Barkley: Crappie were taking minnows and jigs over stump rows, brush piles and drop-offs in 5-12 feet of water; black bass were hitting plastic worms and crank baits off rocky points 3-10 feet deep; clear, rising, four feet below summer pool and 53 degrees.

Barren: Crappie were hitting small jigs and minnows over brush piles 8-15 feet deep; black bass were taking crank baits along gravel banks 3-8 feet deep, white bass and crappie were highly active in the tailwaters on spinners, jigs and minnows; clear to murky, rising, seven feet below

"GIRLS TEAM" (Cont. From 14)

Although this is the team's first year, Cash said most of the girls have played in summer leagues. And a lot of the girls have been cheerleaders or have played basketball before.

"They seem real enthusiastic about it and are excited," Cash said. "They work hard and want to do well."

THANKS
To all our friends and relatives. We would like to thank all the friends and relatives that were so concerned over the recent critical illness of our father Mr. R. Rickels, of Mt. Vernon. We really appreciate all the cards and prayers that went out from all of you for his recovery. He is doing so much better and is home as of the sixteenth of March. If it hadn't been for the prayers from all of you, we believe he wouldn't be here today. Prayers are answered as we have seen in the past few weeks. You'll never know how much your concern was appreciated. Thank you all very much and may God bless each and every one of you.
Thanks again,
Ann (Rickels) Whitaker and
The Entire Rickels Family

Jail budget down from last year

A budget of \$119,788 to operate the Rockcastle County Jail for 1987 - 88 was approved by the Rockcastle Fiscal Court at its monthly meeting Tuesday.

The new budget is \$12,527 less than the 1986 - 87 budget which totaled \$132,315.

The magistrates complimented Jailor Billy Kirby for his smooth operation of the jail and approved an employee change at the jail.

Kirby will hire two fulltime deputies (men) on a salary instead of the present three deputies and a parttime deputy who work on an hourly basis.

The court approved a total of \$2,100 monthly for the two salaries.

Kirby said there would be little if any difference in the amount of money for the salaried deputies compared to those working on an hourly basis. He said it would help in keeping deputies who in the past have worked awhile and then resigned to take better paying jobs. Two deputies recently were hired by the Mt. Vernon Police Department.

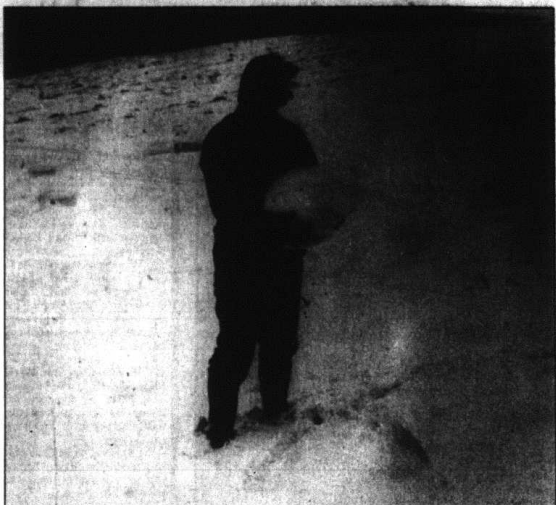

The jailer told the magistrates he had spent almost every night at the jail since taking office and would continue to help work the jail along with the new deputies.

After the 1987-88 budget figures are computed, the county contribution to the jail is estimated at \$8,500 as compared the \$21,615 last year, due to changes in state allocations and changes in jail operations.

State allocation (fees) in the 1987-88 budget are estimated at \$82,548. Last year, the fees were \$77,400. Estimated state fees for state prisoners is \$11,257 compared to last year's \$18,000.

Other receipts include: State medical allocation, \$5,401, court costs (\$5 per case) circuit court, \$7,500. Fees from state for driving.

The calendar may have read springtime last Saturday, but it turned out to be the snowiest of the season when over five inches fell at the weather station at Cox Funeral Home. The strong wind picked up the snow and rolled it along the ground forming snowballs like the one held by Mrs. Melberta Holman on Chestnut Grove Road. Most of the snow had melted by Monday.

Board narrows architects

By: Rick Anderkin

The Rockcastle County School Board narrowed the number of architects that they will consider for the new Mt. Vernon Elementary School at a meeting Tuesday night.

Remaining for consideration are Donald B. Shelton of Lexington, the architect for Rockcastle County High School and Johnson Romanowitz, also a Lexington based firm that employs former Rockcastle resident, Garland Vanhook.

Six architectural firms gave presentations to the board originally.

Vice Board Chairman Willie Taylor, who conducted the meeting, because Dr. Rudolph Burdette is no longer on the board, and board members, George Poynter and Edna Cameron all indicated that Johnson Romanowitz was their choice.

Kenneth Adams said that he thought the board should consider Shelton because of all the work he has done for the system.

"I don't think we should just

forget about Donald altogether," Adams said. "We should go look at some schools he has helped build and schools this other firm has built."

Shelton, who was present at Tuesday's meeting told the board that he would do the estimated \$3.5 million project for a 49 percent fee, although state guidelines call for architects to receive a fee of 5 percent.

After Shelton left the meeting Superintendent Charles Parsons reminded the board that other

Fuss erupts over illegal dumping on Low Gap Road

By: Ray McClure

Angered by garbage dumped in an area along Low Gap Road, Donald Clark and R.B. Miller confronted the Rockcastle Fiscal Court Tuesday asking that the problem be done about it and soon.

Clark told the magistrates garbage is piling up on property belonging to Eddie Norton and along the roadway, and the residue is seeping into his spring.

"Who is supposed to enforce the law against illegal dumping?" Clark asked. "It's worse now than when we had the greenboxes. People come out there and throw it out of their cars and trucks."

He said he had heard that the county had a drawer full of names and license numbers of persons who have dumped illegal land that nothing is being done about it.

R.B. Miller told the court he had seen garbage being dumped on the same property and he had taken license numbers, and in some cases he even knew the persons. He also repeated Clark that he had heard the county had a drawer full of names and was doing nothing about it.

County Judge Executive Hubert Thacker said he did not know of any names and license numbers. Magistrate Amos Burdette said he had heard the same thing and he personally knew the county didn't have a list of names.

Judge Thacker told Clark and Miller if the dumping was being done on county property then the county could do something about it. But if the dumping was on private property, a warrant would have to be obtained.

What can't go on someone's

property without a warrant," the judge said, and suggested the two men go to the county attorney and obtain a warrant to have the dump cleaned up at the expense of the property owner as prescribed by the county ordinance.

Sheriff Clarence Hasty told the men if a warrant is obtained, he would enforce the law, but they just couldn't go on private property without one.

Attorney James W. Lambert, who was legal adviser for the court in the absence of County Attorney James H. Lambert, agreed that it would be necessary to get a warrant. He said the county attorney would be willing to issue such a warrant quickly.

Attorney Lambert related that garbage is a real problem for the county and laws are difficult to enforce since residents hesitate to obtain warrants and that often times dumping is done at night.

Clark reminded the court that an ordinance governing garbage, including open dumping, was passed by the court and is now in effect.

She done him wrong, so

Pine Hill man took her to court

By: Ray McClure

Until the day he died, Marion insisted the trial was worth the heartache. Friends said, barely.

The story of Marion's "trial by fire" so to speak, was a sensation in Rockcastle Circuit Court in 1875, and most observers at the time agreed. If Marion had left well enough alone he would have been better off.

His story is true. Only the names have been changed to protect the innocent, whatever they may have said or done.

True, it was an unusual suit as remembered in 1902 by former Kentucky Governor W.O. Bradley who told it to the Cincinnati Enquirer newspaper.

Governor Bradley admitted in later years that he was "highly amused" by the trial despite his feeling that it set jurisprudence back a hundred years.

Governor Bradley, then a highly respected lawyer, recalled he was hired by a Pine Hill man named Marion to represent him in a suit in which Marion was suing for damages from a neighbor woman, Mrs. Jones.

In Signal's first 100 years

The evidence showed that Marion had indeed given his wife a harmless dose of medicine, and then later, she had taken another drug without his knowledge. The combination of the two chemicals had created a deadly poison. Therefore Marion was innocent of any guilty intent. That being so, Marion had been libeled and he asked for \$500 in damages from Mrs. Jones.

Mrs. Jones countered that actually Marion had been in love with a young lady named Nancy Jane, and despite having a sick wife, had tried to entice Nancy Jane to elope with him, which was the real reason he poisoned his wife.

To prove her point, from a pocket of her dress, she produced a letter supposedly from Marion to Nancy Jane written even while his poor wife lay dying from an overdose of something or other.

After much discussion, many objections and many rulings, the letter was admitted into the record. The defendant demanded it be read and it was:

Pinehill, Kentuck,

Rockcastle County

Oct. 12, 1874

Nancy Jane:

"I am going tew rite tew you wot moat tome tew let you no that i ha not forgot you, and i hope you ha not forgot me, me deare (think bout you moat and moat awl the tyme. I am sarr to think that i ha treat me so mi darlin. It grieves me to so that you wud believe what other peepel say befor you wud believ me. I had bin a frien to you awl mi life, and have allus told you how to do, an i am agoin tu tri yoar father wot time moat i luv ye mi darlin still, an i will never haif you, but there is won thing that i hate, mi deary, to think of, and this is you hav treat me so."

"I am agoin tu rite tu you and ask you wite tew me one tiam, and tell me wher ye hev hered, ploxie honie, if you hev hered what i hev hered you have hered it is a dingel he i dean beer who told it tew you, mi darlin, i want to speak tew mi honie, when i see you, lit it be ni at day, if you lovf me, i no that you cant haif me."

"Now if you want tew go i will rak you and marrie you, and bring you back home lik a ladie, honie, an i want you tew tell me iffer you told i had ask yoar yoar pappy for you or no, you told me you wud lovf me if i was the last man in the worl, if you ment this you aut tew prav it in some way, you was mistaken when you tolt that i had axed for you, i hev not but i can effen you say so."

[At this point a large red spot of what looks like blood appears on the page, and the letter continues.]

"Here is bludd it is from the sentar of mi hart, i will send it tew you tu let you no that mi hart is brok in-tew, mi darlin this is the best i kin do now, and nancy jane, i want you tew prae for me, mi darlin, at hoam and abrad get sistor to rite fer you an tell me sum of the questins i have ast you, mi honie, so i must cum tew a closs."

marion tu nancy jane.

Governor Bradley reported following the reading of the letter, defense attorney Kirtley asked Marion if the letter was written by him and Marion admitted it was. Kirtley is described by Governor Bradley as "a little hunchbacked lawyer of wonderful acuteness and ability, and whose wit was as keen as a Damascus blade."

In his cross examination of Marion, Kirtley suddenly pointed to Marion and said: "Was every-

KSP urges caution when hiring gypsy workers

Reports have been received by the Kentucky State Police Intelligence Section of gypsy groups or individuals in many areas statewide that offer to do work or repairs (beam painting, roof repair, asphalt paving) for a small sum, then do shoddy work and intimidate the victim into paying a larger fee.

Sightings of these gypsy groups and reports by victims have been recently coming in from areas around Lexington, Harrison County and Bowling Green, although previous sightings have been reported from one end of the state to the other.

Anyone is a potential victim, however, these groups usually run their "scam" or "confidence"

games on the elderly. Many individuals do not want to report that he or she was a victim of a "scam" and the crime goes unreported. The Kentucky State Police wants to remind the public that they should not be embarrassed to report a crime and that reporting such "scams" will aid in protecting others from being victimized.

There are several reasons why the elderly, in particular, are victimized. They can usually afford to have work done, things that the elderly cannot do for themselves.

They are very trusting and usually do not watch the individual or obtain any kind of certification or tags.

They may be intimidated. For a job, there usually is one price quoted for the service which, in most cases, is extremely low. If the victim is elderly, these individuals may intimidate him/her into paying a larger sum. Often, these individuals know they cannot get the victim's check cashed and will drive the victim to his/her bank and have them obtain the money for payment.

There are various "scams" which these individuals may use on their victims and they include many methods. There is one gypsy individual who has obtained a Kentucky Department of Agriculture identification badge. Obtaining one of these, means the individual can receive an indefinite number of cards for anyone working under him. These cards mean little more than that -- they work under him. These people are not actually certified in any type of labor.

The situation now is that not enough Americans work in our maritime industry -- a situation, which could be a problem in a national emergency.

Report to Kentucky

SENATOR WENDELL FORD

The Federal Highway Program is Needed

Everything you buy gasoline for your car or load diesel into your truck you are paying for part of the national highway system. The federal highway aid program is completely funded by the fuel buyer. Better than 10% of the price of every gallon of fuel purchased goes directly to Uncle Sam. The understanding is that the federal government will make sure that the states have enough money to build and maintain the interstate highways and federal-aid primary roads and to keep bridges in reasonable repair.

The system broke down last October because the federal highway program expired. Now the Reagan White House is doing everything possible to keep Congress from reviving the program and getting it back on track.

As of the first of the year, a quarter of the states had run out of interstate construction funds, and half of the states had exhausted their share of federal help for primary roads.

In Kentucky the situation is critical. Some \$150 million worth of construction -- over 100 projects -- awaits federal funding at this point. Three demonstration projects are on hold. These include widening KY 9 in Campbell County, widening KY 461 northeast of Somerset and improving 2 miles of US 119 in Pike County. A \$30.4 million federal contribution is involved in these three projects. Over 70 additional projects are stalled in the planning stage. The engineering, right-of-way acquisition and utility construction are all on hold while President Reagan tries to make his point.

The President's point is that too much money is being spent by the federal government. I agree that federal spending has to be brought under control. After all, President Reagan has doubled the national debt that all the Presidents preceding him had accumulated. But the federal highway program is not the culprit. The federal highway program is a pay-as-you-go situation with the highway user or the fuel buyer always picking up the tab. In fact, 86% of the current bill has already been paid for by highway users.

While this argument is being thrashed out in Washington, a critical period for outdoor construction is being reached in our state. One member of the Senate Public Works Committee says that if the Highway Bill is snafu is not ironed out by June the entire building season will be lost. That may not be entirely true in the Sun Belt, but, for states like ours, where cold weather stops outdoor construction, it is a fact of life.

The effect of all this is confusion and dislocation. You will continue to be taxed at the gasoline pump for highway construction and improvement you're not getting and may not get for more than a year. And for those looking for work in our state, this is not good news. I'm sure that a season without federal highway funds could cost the Kentucky economy 10,000 jobs.

AREA DEMONSTRATION CONTEST

By: John McQueary
County Extension Agent
for 4-H

Nine Rockcastle county 4-H'ers participated in the Wilderness Trail Area Demonstration contest held on Saturday, March 28th at London. These 4-H'ers won at the county level and then went on to the area contest. They were: Cindy Witt, Tracy Todd, Adam Trebolo, Melissa Hayes, Jerry Makin, Regina Collins, Jamie Phillips, Larissa Hayes and Kathy Howard.

Rockcastle County will have

six of these 4-H'ers going on to compete at the State Contest held at the University of Kentucky on June 5th. 4-H'ers winning at the area contest and going to the state contest were: Cindy Witt, "Homemade Bread - The Easy Way"; Tracy Todd, "How to Properly Sew a Button On"; Adam Trebolo, "Kentucky Landjudging"; Jerry Makin, "Two Important Parts of the Body"; Melissa Hayes, "How to Make Corn Meal Muffins"; Larissa Hayes, "How to Prepare a Dairy Animal for Show".

Congratulations to all the 4-H'ers who participated in the Area Demonstration Contest!

"Bunny Hop Bop" at RES

The Roundstone EXCELS Community Club recently held a "Bunny Hop Bop" at Roundstone Elementary. The dance was held March 28th for Roundstone students in the 4th - 8th grades. There were three main objectives for this event: (1) A social activity for the 4th - 8th grade students. (2) Canned foods donated as a part of the admission fee to be distributed to a needy family in the Rockcastle community as a part of our "Help Make Someone Happy This East-

er" drive. (3) Money collected for tickets is to be used to purchase a selected gift for the school.

We would like to thank everyone who came and donated to the dance. A special thanks is extended to the following: Mr. Bill Parsons, Anita Todd, Debbie Stevens, Patty Renner, Mark Cammins, Lisa Reams, Terri Sayble, Suzanne Thacker, and Shana Donovan. We would also like to thank the Roundstone P.T.O. for furnishing the refreshments.

State's 4-H camping program is second largest in the United States

Some 11,000 Kentucky young people will take part in this summer's 4-H Camping Program at five locations throughout the state. Another 11,000 participate in local day camps throughout the year making the Kentucky 4-H camping program the second largest (to Georgia) program in the country.

Rockcastle County youngsters will spend the week of July 6-10 at J.M. Felner. Parents interested in sending their children to 4-H Camp should call Rockcastle County Extension Service at 256-2403 or drop by the office to complete an application.

The Kentucky 4-H Camping program will begin on June 1 and continue throughout the summer with the last one ending on August 8.

Children do not have to be active in 4-H to attend the camp. In fact, summer camp is often a young person's first contact with 4-H. For many, it leads them to a continuing involvement with other 4-H programs.

The summer camping program is open to any people between 9 and 14, and we would be happy to welcome new members into 4-H through this program.

Campers will participate in diverse activities such as basketball, basket weaving, canoeing and archery as well as traditional favorites of swimming, volleyball and boating. Nature trails will help young 4-H'ers learn about the trees and flowers of Kentucky.

All camps are staffed with state certified emergency medical technicians and Red Cross certified life guards. They also will be served by 3,000 adult volunteers and a professional staff of some

140 members. Kentucky 4-H Camps also participate in the federally funded Summer Food Service Program for Children for low income families. This allows 4-H to keep costs down so that most families can afford to send children to camp. All campers are served the same meals.

The cost for camp this year will be \$42.00.

A slide presentation of past year's camps will be presented to 4-H clubs and applications will be given out. The deadline for returning the application and fee is May 29th.

BARGAINS IN MICROWAVE OVENS
By: Cheryl Witt
County Extension Agent
for Home Economics

Owning a microwave oven is no longer a luxury, only the well-to-do can afford. When on

sale, some microwaves sell for as little as \$70.

These low-priced ovens are most likely smaller and heat food more slowly than those in the higher price range, but they can still be a good buy.

Smaller microwave ovens usually cook three times slower than a standard-sized oven. This may not be a disadvantage at all, unless you are in a terrible hurry.

It means only two more minutes for one potato and about 15 additional minutes on a casserole. A small microwave will still cook foods much faster than a conventional oven.

Good buys in standard-sized, basic models start at \$150.

Another option to the economy-minded is to buy a used microwave oven. Many owners are trading their ovens in for new models. Take these precautions when buying a second-hand microwave:

• Examine the condition of the oven carefully. Avoid an oven that has dents or other physical signs of problems.

• Make sure the seal is in good condition and that the door shuts snugly. Otherwise the oven may leak radiation.

• Try to purchase an oven

made after October 1971. Ovens made after this date are required to meet government safety standards.

• Call appliance stores to determine the availability of parts and service for the brand and model you are considering.

• Microwave ovens can be tested for radiation leaks. Contact your county health department to obtain this service. There is usually a fee to test the oven. A reputable dealer can also check the oven for radiation leakage. Ovens should be checked only with certified leakage meters.

• Never check for leaks with a store-bought meter. This method is unreliable.

Families who can't afford to replace a faulty range oven may want to consider an inexpensive microwave oven, because with some modifications to recipes, many foods that are cooked in a conventional oven also can be microwaved.

• People who live alone and don't spend a lot of time preparing food might also find this a good investment.

• Peter the Great of Russia, in an attempt to encourage his subjects to adopt a Western look, levied a high tax on beards.

STRAWBERRIES

By: Tom Mills
County Extension Agent
for Agriculture

Strawberries can be very profitable and fit in well with tobacco production, bringing income in the spring. Since tobacco acreage is limited, strawberry production presents an excellent opportunity for farmers to grow another high-income per acre crop.

Labor requirements for strawberry production compare favorably with those for tobacco. Returns to labor and management per hour of man labor. According to one study, were almost as much from strawberries as from tobacco and could be considerably greater, if one were as conscientious in growing strawberries as in growing tobacco.

Total costs per acre are naturally higher as production goes up, but the cost per quart is considerably lower on high producing fields than on low-producing fields, since many of the costs are fixed. Studies show that a poor job of production (2,800 quarts per acre or under) will result in the grower breaking even or even losing some money. However, a good job of production (8,000 to 14,000 quarts per acre) can result in a net profit exceeding \$2,800 per acre. You'll realize the highest returns per acre when you follow the best recommended production and marketing practices. A successful grower will consistently produce 8,000 or more quarts per acre, and it is possible to produce 9,000 to 15,000 quarts per acre.

The selection of varieties may largely determine the success of the strawberry grower. You should select varieties that do well under your own particular soil and

climate conditions. Many varieties are regional in adaptation. They do well in one section but not in another.

Sunrise, Cardinal, Redchief, Guardian, Earliglow and Surecrop have been the leading varieties planted in Kentucky. In the last year or two Redchief and Earliglow have dominated most new plantings. This is partly due to the spread of red stele root rot and the resistance of these varieties to this disease.

Try to secure only the best plants. Order only virus-free plants. One of the most dependable plant sources. Much of the future usefulness of the planting may be determined by the condition of the mother plants. They should be vigorous and disease-free and should have an extensive, healthy, root system. Lightcolored, fibrous roots indicate a healthy condition. Dark or spotted roots with few fibrous roots may indicate a diseased or unhealthy condition.

Quite often the plants may arrive from the nursery at a time inconvenient for planting. If you plan to set them within a day or so, you may not need to heel in the plants. The package should be opened and the plants inspected for disease, insects and condition. The correctness of the order as to variety and number should be checked. The plants will be tied in bunches of 25 with a label in each bunch. Any discrepancy in the order, or any serious drying out, heating, or disease should be reported to the nursery at once. Then put the plants in a cool, sheltered place and keep them moist.

Planting distances in Kentucky vary with individuals from rows 40 to 48 inches apart. There is a trend now to plant most varieties in rows 3 1/2 feet apart and

2 1/2 feet apart in the row. This is being done to accommodate equipment and to narrow the matted row.

A rotation plan is necessary for success over a period of years. If strawberries are grown on the same land several years in a row, and insect problems are magnified to the point where profitable production is no longer possible. Rotations help control weeds; they also add organic matter and improve the physical properties of the soil. Strawberries are rather shallow rooted and require soil capable of holding moisture.

If the plants cannot be set for several days, they should be kept

above 32 degrees and heeled in. Do not store strawberry plants in the same cooler with fruit. Fruit and some vegetables give off ethylene which inhibits strawberry plant growth. For heeling, install a well-drained area that is protected from the sun and wind. Dig V-shaped trenches about 5 inches deep. Open the bunches and distribute the plants, one deep, along the trench. Cover the roots with fine, moist soil and firm well.

For more information on places to obtain plants contact the County Extension Office at 256-2903.

Corn and Soybean planting down

USDA's Prospective Planting Intentions Report issued March 31 showed a significant reduction in the number of acres to be planted in both corn and soybeans this year.

"The lowered intentions are indicators that both the federal feed grain program and the conservation reserve program (CRP) have substantially reduced the number acres to be planted in corn and soybeans," said Steve Riggs, agriculture economist. Intentions for planting corn were 67.6 million acres-down from 76.7 million acres planted last year, Riggs said.

"Even with these significant reductions, there still will be an abundance of corn for domestic use, because of extreme carryover levels. That means prices will hover around the government support rate for at least the next year," he said.

The planting intentions for soybeans reported by the USDA are signs of hope for some price increase, the economist said.

Planting intentions for soybeans were 56.9 million acres, significantly lower than an earlier

trade estimate for this year of 59.1 million acres.

"Planting intentions are the lowest since 1977 and 1978 when only 58.8 million acres of soybeans were planted," Riggs said.

With an anticipated harvest of 1.7 billion bushels from the 56.9 million acres planted, use will exceed the harvest by about 200 million bushels-enough for some carryover supplies to be used to meet consumption.

However, he said, if weather is exceptionally good and record yields are equalled, there may be little use of those carryover stocks and prices would remain under pressure from large total supplies.

With the prospects of using some of the carryover stocks, prices may rise somewhat. Such increases may give farmers advantageous opportunities for pricing both remaining old crop and at least a percentage of anticipated 1987 production," he said.

World supplies, however, will be more than adequate to meet needs for the next year. The South American harvest looks excellent and the chance for any large increase in prices seems unlikely, Riggs said.

About 50 attend forestry seminar

By: David Stipes

A forestry seminar was held on March 25th at the Rockcastle County Agricultural Service Center. The seminar, held in conjunction with the Soil Conservation District, Kentucky Division of Forestry and the U.S. Forest Service and was attended by approximately 50 interested community leaders.

Information on informative subjects on Forestry Resources in the Community, Forestry Management, Fire Control and Tree Planting were presented to the group. The U.S. Forest Service program on the Daniel Boone National Forest was presented by Richard Wilcox of the Forest Service. A program on Timber Management, Fire Control and

Farmers take advantage of mild winter weather

Despite end-of-March snows, farmers have already taken advantage of the mild winter and early spring weather to get a jump on fieldwork according to the Kentucky Agricultural Statistics Service.

"Planting is about 45 percent complete, compared to 33 percent by this time last year. But we need to remember that many farmers are using minimum or no-till practices rather than conventional plowing," said Agriculture Commissioner David E. Boswell.

The recent rain and snow will slow fieldwork to some extent, but it will also bring needed moisture. As of Friday, March 27, soil moisture across the Common wealth was reported 4 percent very short, 54 percent short, 39 percent adequate and 3 percent surplus.

"Some corn acreage has been planted in far western Kentucky, but activities in most areas have centered around seeding tobacco beds, fertilizing wheat and pastures, and, in general, preparing for the planting season," Boswell said.

Most of Kentucky's fall-seeded crops have come through the winter in good condition thanks to the mild, dry weather, but the week's cold could cause damage, especially to fruit trees in bloom.

Tobacco plant bed preparation and seeding has advanced rapidly and was a near-record 75 percent complete by Sunday, March 29. This compares to 56 percent last year and 58 percent on the average.

Only the 76 percent recorded in 1974 rivals this year's progress. Small grain and legume acre-

age loss due to winter kill has been minimal in most sections of the state. Average winter loss was reported at less than 2 percent statewide.

Winter damage to alfalfa and clover seedlings was slightly greater than that to small grains, but spring growth began early and is progressing well.

Pasture growth is about the

same as it was at this time last year. Approximately one-fourth of the current roughage requirements for cattle are being supplied by pastures. Almost 80 percent of the state's livestock farms still have animals on winter feed.

Hay supplies are adequate in all areas of the state. Most livestock are in good condition following the mild, dry winter.

Discouragement

Do you ever feel downhearted or discouraged? Do you fear that you shall never gain the victory? Well, it is fairly certain that you occasionally do, for discouragement is a very common ailment.

There was a time in David's life when he reached the point of despair, but he came out of it. How was he able to overcome his discouragement? Notice the antidote David applied to his life: "And David was greatly distressed—but David encouraged himself in the Lord his God" [I Sam. 30:8]. From the context of this passage, here are some thoughts that will help us to overcome discouragement.

GET ALONE IN THE PRESENCE OF GOD. David did that as he "inquired of the Lord" [I Sam. 30:8]. This is the first step we must take if we are to cast off discouragement. Get into the presence of the Lord and tell Him everything—"Casting all your care upon Him, because he careth for you" [I Pet. 5:7]. There is a wonderful release even in the process of telling Him of our discouragement and asking Him for help to overcome.

SEEK THE FELLOWSHIP OF THE PEOPLE OF GOD. David went to Abiathar the priest [I Sam. 30:7]. There is a great value in sharing our joys, sorrows, and discouragements with others who are like-minded with us. If you are discouraged, try encouraging someone else and it will help make your own discouragement disappear.

LEAN UPON THE PROMISES OF GOD. David depended upon God in this dark moment. Notice the words, "Thou shalt surely...without fail..." [I Sam. 30:8]. There are many promises which God has made us, and they are all "Yes and amen in Christ Jesus" [2 Cor. 1:20]. Not one of them has ever failed, nor will one of them ever fail [Mark 13:31]. Is there anything, anywhere, that will more quickly banish discouragement than God's precious promises? [See 2 Peter 1:4].

REMEMBER THE PROVIDENCE OF GOD. Although David was passing through a time of upheaval, loss, distress and discouragement, God was silently planning in love for him. Read I Sam. 30:11-16, 23. Notice in particular verse 23: "...the Lord...hath given us...preserved us, and delivered the company that came against us into our hand..." We must never forget God's ability to make "all things work together for good to them that love God, to them who are called according to His purpose" [Rom. 8:28]. "Be not dismayed, what'ere betide, God will take care of you."

by: Scott Adams

On Friday, April 3, the F.F.A. Chapter from Rockcastle County High School attended the regional F.F.A. day in Richmond.

The chapter was very success-

ful in the activities that they participated in. In speaking contests, they had two first places and two second places. The first place speakers were Grant Martin and Tim Burdette in Dairy, Impromptu and Horticulture. Impromptu

in production contests, they had three first places and three second places. The first places were: Becky Parsons in Hay Production; Chris Craig in Crop Production; and Carol Sigmon in Swine Production.

Rockcastle County also won the Chapter Meeting team contest. This, according to the chapter, is the most sought after award. The team, consisting of Scott Adams, Anthony Lewis, Chris Craig, Jeff Hayes, Carol Sigmon, Greg Brown, Mike Whitehead, Becky Parsons, Tim Burdette, Marty Harris and Tony Bullock, will compete in June at the State Convention for the state title.

The chapter entered a total of 22 contests, and received 17 superior ratings, 4 excellent ratings and one good rating.

Selected for honor

Seven local young women have been selected as Outstanding Young Women of America for 1986. Their complete biographies will appear in the annual awards publication, Outstanding Young Women of America.

Those receiving this award were: Lisa Shaffer of Livingston; Catrina C. Hasty of Broadhead; Jerri Lynn Nunneley Smith; Debbie Webb Bugg; Cloye Spencer Mills; Judith Ann Bullock of Mt. Vernon and Regina Russell Martin of Flatwoods.

The Outstanding Young Women of America program seeks to recognize the achievements and abilities of women between the ages of 21 and 36. These women are being honored for their outstanding civic and professional contributions to their communities, their state, as well as to their nation.

Brodhead Scouts Pack 69 holds annual Blue and Gold Banquet

A feast it was for Boy Scouts of Brodhead Pack 69 and their families. The Blue and Gold Banquet was held Mar. 17, 1987, at Brodhead Baptist Church basement. It is a big heritage dinner for Cub Scouting.

The ceremony began with Den 2 telling the story of the Blue and Gold colors. Dressed as Indian braves, they poured in a mixing pot: blue from the sky, and yellow from the sun, with the help of food coloring and dry ice. It was very impressive! The color Blue stands for truth and loyalty. The color yellow for happiness, sunlight and good cheer.

Den 2 was awarded their wall patches and performed a skit full of laughs about safety on a Cub Scout campout.

Writing Workshop

The Ky. Department of Education sponsored a Regional Writing Workshop at Cumberland Falls on March 23 and 24. The workshop was taught by RCHS teachers Iris Young at right and Martha Lay. The purpose of the workshop was to instruct other teachers in Southeastern Kentucky in methods of implementing the writing/process into the curriculum in grades 7-10. Mrs. Young is also the local Millon board member.

High school teachers workshop

The fourth annual Math/Computer Science High School Teacher's Workshop will be held in Eastern Kentucky University on Saturday, April 11.

The workshop will run from 9 a.m. to 12:15 p.m. in the Perkins Building on EKU's campus. The workshop is free and open to secondary educators across the state.

Sponsored by EKU's Department of Mathematics, Statistics and Computer Science, the workshop will discuss topics a high school mathematics or computer science teacher could use in the classroom. These topics include calculus in high school, implementing problem-solving in the classroom, and generating spiraterals on a microcomputer.

Registration deadline for the workshop is April 9.

For registration information, contact Patrick Costello, Department of Mathematics, Statistics and Computer Science, EKU, Richmond, Ky. 40475 or (606) 622-1925.

Walking clubs for older persons

The formation of walking clubs for older persons in Rockcastle County as one level in a three-tiered program known as "The Governor's Pacesetters" will be undertaken by Cumberland Valley Area Development District, Bernice Miracle, Director of the Area Agency on Aging announced today.

Following participation in scheduled "County Center" walks and regional "Fun and Fitness Furlongs" clubs from across the state will gather in Frankfort July 31 to lead the procession of athletes following torchlighting ceremonies that launch this year's Bluegrass State Games.

Noting the growing number of walking clubs that are springing up around the country, Mrs. Miracle said people are finding that walking is a perfect blend of physical fitness and fellowship.

"No longer is jogging the preferred exercise in individual weight reduction and health maintenance efforts," Mrs. Miracle said, "walking is replacing it."

Organizational efforts now underway involve the identification of existing clubs that might

"Illegal Dumping"

[Cont. From Front]

"Where do we get some thing done about it," Clark said. He added that the signs around the county are not helping. "They just show them hulks of metal," he said.

In parting shot, Clark told the court if something isn't done he would be back, and continue to attend court members until something was done.

During the meeting it was suggested that the court ask Steve Middleff, state health environmentalist for Rockcastle County, to help, perhaps investigate dump sites and obtain permits.

In the ordinance on garbage, the county set a fine of up to \$500 for illegal dumping.

Very little has been done in the past few weeks on the county's garbage plan. Still to be done is hiring of a coordinator and taking bids for a franchise.

One of the magistrates said Tuesday the court would begin the process again soon.

"Things have been quiet for awhile," another official said. "I guess they decided to let things cool down before they get on the problem again. Taking the greenbooks out gave them a little breathing room."

It was learned at the meeting, state environmentalists are expected to the county soon to look at the situation, apparently before things get too cool.

In other action, the court asked Attorney Lambert to compose a letter to R.V. Brock inform-

ing him that he has a fence on county property and it must be removed at Brock's expense so that the Mareburg-Spivo Road can be reconstructed. If the fence is not removed a circuit court order will be obtained for removal.

"SCHOOL BOARD"

[Cont. From Front]

architects, including Johnson-Romanowitz had offered to do the Mt. Vernon project for a fee of 4.5 percent. George Poyner and Parsons agreed that if Shelton were employed as architect for the new school, he would have to bring his price down to 4.5 percent. If not, the job would go to

someone else. Johnson-Romanowitz indicated during their presentation that they would do the project for 4.5 percent.

Dolores Alaright, local parent and Brechtfield PTA member asked Parsons if there had been some problems with the construction of the high school.

Parsons admitted that there had been some problems with the roof and the electrical wiring at the school but, he said that the roof had been fixed and the wiring had also been corrected. He said that the biggest fault he had with Donald Shelton was the size of his staff. Shelton is the only architect in his firm as where Johnson-Romanowitz has 50 employees.

The question on just about

everybody's mind was still not answered Tuesday as the board did not appoint anyone to take Dr. Burdette's place.

Elected member George Poyner asked Superintendent Parsons near the end of the meeting the status of the new board member. Parsons said that the recent federal trial had kept them very busy and that they really had not had time to do anything. He said that there were a couple of people interested, but he did not disclose any names.

The board still has 60 days in which to appoint someone to fill Dr. Burdette's position until the fall general election.

The state has suspended William E. Robinson's contract

The Mt. Vernon Signal Thursday, April 9, 1987 P.9

to audit the school board's books for fiscal year 1986. Robinson says to have had the job completed by Sept. 1, 1986, but he has not completed the audit. Therefore the state has contracted with Griffin and Greer the same local company that won the 1987 contract, to do the 1986 audit as well.

Parsons told board members that he had tried to contact Robinson concerning this matter, but that he would not return his messages. "The state has control now," he said.

In other business the board voted to re-employ all certified personnel for the 1987-88 school term, except for those teachers

teaching their first year in the system excluding first year special education teachers.

Approved G.E.D. certificates for Tommy L. Linville, Carolyn T. Griffin, Rita D. Klaby, Tonya E. Eller, Beatrice A. Chastain, Katherine Alcorn and Mary D. McFerron.

Employed Donald Shelton as architect for a new roof on the Harry Sparks Vocational School at a rate of 5 percent. The cost of the project will be between \$50,000 and \$60,000.

Approved the revised school calendar which will put the

Owens arrested

James Edward Owens, Jr., of Rt. 4 Mt. Vernon pleaded not guilty Wednesday morning in Rockcastle District Court to driving under the influence, attempting to elude police officer, no headgear and second degree criminal mischief.

Owens was arrested Sunday night by state trooper Jimmy Silvers after he apparently broke out a windshield with an ax and kicked in the side of a car.

According to the police report Owens drove his motorcycle through Kentucky Utilities lawn, hitting the Police car's blue light and siren about 9 p.m.

Judge William Cain set an April 29 trial date at which time Owens will defend himself. He is free on bond until the trial date.

thing that you said in this letter true?"

Marion swore that it was every last word of it.

"That drop of blood, on the left side from the center of your head," she wailed.

"There was a long pause and perspiration broke out upon the brow of the witness. Governor Bradley remembered, and Marion finally gasped. "No!"

"Then from whence did it come?" huffed Kirtley.

"I got it outen a chickens laig," Marion whispered.

After much laughter and gavel pounding the verdict was read. Marion was awarded one cent which was duly paid.

Whatever happened to Marion and Nancy Jane you may ask? Marion finally, in later years, married Nancy Jane. It was the second marriage for her and the third for him. Her first spouse and her second came to sad endings. One of them fell off a cliff while hunting. The other choked to death on a piece of chicken. Marion and Nancy Jane, reportedly, lived happily ever after into their 80s.

safe walking sites, the dissemination of information on proper walking techniques and the cataloging of potential new club members.

"Any older person wishing to join a walking club should call Shirley Cummings, 256-4316, Rockcastle County Senior Citizens." Mrs. Miracle said. "We hope to have several clubs ready to participate in both the local Center in early May and the regional walk to be held in late May in conjunction with the Mt. Laurel Festival in Pinville.

A regional walking clinic is scheduled for April 27 at Union College in Barbourville to both draw attention to the walking events and demonstrate walking techniques. It is also hoped new members can be enrolled in new and existing clubs at that time.

Mrs. Miracle said participating clubs at all levels will be known at "The Governor's Pace-

EXTEND YOUR FILING DATE

There are a number of reasons for not filing your tax return by April 15th. Some people have financial transactions or joint ventures which may be difficult to summarize by the April 15th filing deadline. Others simply don't get around to it. The "automatic" extension does not require that you state a reason for requesting additional time. To avoid penalties for filing later than April 15th, certain steps must be taken. You must file for an extension and show an estimate of your tax liability. If your estimate of the total taxes due exceeds the amount you have already paid in, you are required to send the difference along with your extension request. If your tax estimate on the extension request is less than the tax on your final return, you may be subject to penalties.

The automatic extension period is from April 15th to August 15th. Additional time can be obtained by filing a request for further extension. This second extension requires that you state the reason for the delay. You will also be asked whether or not your tax returns for the three prior years were timely filed. You'll have to state whether or not your estimated tax payments, if any, were made on time.

If you are not in the United States on April 15th, you have until June 15th to file your return. This does not require the filing of an extension form. When you file your tax return, you attach a statement showing your whereabouts on April 15th. Since the "automatic" extension is available to everyone, there is no longer a tax reason to be out of the country on April 15th.

The rules for extending the filing date of state tax returns varies from state to state. If you need an extension, check on the rules for the states in which you will be required to file.

"SO YOU WANT TO BE PRESIDENT" ENCORES ON KET

In a March 1984 presidential candidate Gary Hart is sitting on the corner of a desk reading a sheet of papers handed him by one of his advisors. Slowly he begins to shake his head.

"No," he says quietly. "No, no, no."

Hart hands the papers, scripts for possible campaign commercials, back to the advisor.

"Let me tell you something," he says. "If we become a divisive campaign that's not what people want. I think that is why Glenn is not doing well and I think that's why Mondale will not do well. Atrocious fun in the short run, and it puts the tuxes flowing, but it's not what the people in this country want."

This revealing scene is from *So You Want to Be President*, a Frontline special airing Thursday April 9 at 9 p.m.

Girls present for the Girl Scout Promise Circle in March from the Roundstone Brownie Troop 1079 were, front row, from left: April Reams, Kara Owens, Elaina Leger and Jerusha Stallworth. Back row: Jama Cornelius, Michelle Chastain, Arny Trust, Jamie Coffey, Amber Coffey, Tereasa Robinson, Jessica Rosenberg, Lisa Mickliff and Marie Whittemore. Afterwards, they enjoyed decorating a 75th anniversary cake (bottom photo) and having refreshments.

Linda McGuire reports that his son-in-law Joe Crouch, who has been in the hospital in Richmond for eight days, due to surgery, is now recuperating fairly well at his home. We hope he continues to do well.

Mrs. Joey Reynolds visited Mrs. Fannie L. Albright recently. Other visitors were Mrs. Joy Savage of Cincinnati, Ohio, who is staying with her until she recuperates from a fall she received last week. We hope she improves fast. Other drop in visitors were Gilbert Burton, Wilma Burton, June Latham, Ruby McWilliams, Don Thompson, Mary Jane Randolph, Bruce Latham, Paula Hargis and

son Clark of Somerset. Henry and Rinda Brown, Alice Latham of Somerset, Arvil Burton, Pam Roberts and son Devin and daughter Teresa, Oakley Hammons, Sue Todd, Dovie Cummins and Frances Barr.

Mrs. Carol Singleton and daughter Leslie Gayle of London were Monday morning visitors of Mary McWhorter. They all went on to Danville for a visit at the home of Dan and Marion Wells and son Daniel and the new baby daughter. Mrs. Dorothy Wells of Louisville is visiting and helping with the children. She returned home with Carol for a visit in London before returning home to Louisville.

Bertha, Linda and Brandi Adams and Carolyn McKinney were in Mt. Vernon shopping Saturday.

Mary McWhorter attended the funeral of Mrs. Ella Baldwin last week at the Martin Funeral Home in Crab Orchard. The Baldwin family have our deepest sympathy. The Funeral Home Chapel was filled with friends and relatives, among those from out of town were some of my good friends and customers in our store along time ago. I sure was glad to see Mrs. Maggie Brummett and daughter Emma Mae and her husband of Cincinnati, Ohio and all the others from Copper Creek. The granddaughters of Charlie Carmack, Mary Carmack of Crab Orchard, Lucille Pittman of Irvine, Charlotte and husband of Richmond. I also met a nice interesting lady, Betty Gaeberly, granddaughter of Mrs. Litha Pennington, who said she was a relative of the McWhorter's. I forgot where she was from, her grand-mother

lives in New Mexico and is interested in finding out more about the McWhorters. I gave her my sister-in-law's address at London, thinking she could tell her more, as she is the only one living around here who might know.

Recent visitors of Myrtle Halcomb were: Mr. and Mrs. Leroy Adams of Meason, Ohio, Mr. and Mrs. Fred Bishop of Berea and granddaughters Josie and Dentae, Mr. and Mrs. Eugene Halcomb and Tena, Phyllis Deethrege and sons Joey and Lee of Mt. Vernon, J. and Stella Burke, Mary Bow and Alice Hill and Marissa and Jamie Fredrick.

James and Leona Clark of Stanford were visitors of Bob and Mary Adams.

Mrs. Ramona Denny and daughter Gayle and Chris Craig spent the week-end in Madisonville with Patrick and Ann Denny Craig.

Recent visitors of Arvil Burton, Mary Jane and Linda Randolph were Garland Brown, Beanie Smith, Norma Hales, all of Pine Bluff, Arkansas, Lucille Hoover of Porter Texas, Mr. and Mrs. Randy Parson of Nancy, Mr. and Mrs. Owen Burton, Betty Lou Vaughn of Frankfort and G.D. Burton.

Arvil Burton celebrated his birthday recently with a dinner at Lakeview Restaurant at Burnside Saturday also we say happy birthday to Arvil, Willie Taylor and Mary Bussell.

Jack and Geneva Bradley of Louisville were week-end visitors of Margaret Bradley, Mrs. Irene Watkins and family in Lancaster and Mr. and Mrs. Monroe Renner and family Sunday afternoon.

Visitors of Mrs. Lula Bussell over the weekend were Mr. and Mrs. Eddie Durham and Stevie of Hamilton, Ohio and Mrs. Janet Bowman of High Point, Ohio. They were also at Livingston Sunday for the birthday dinner of Lee Durham where all the children

gathered for his birthday dinner. Happy birthday to Mr. Durham.

Mrs. Della Mae Taylor of Berea, Mrs. Irene Adams and Mrs. Bertha Adams were in Corbin Friday shopping and had a good dinner at the steak house.

Mrs. Bertha Adams, Bro. Don Jones, John E. Harts and wife Edith, Mary Ann Brown, Jean Albright and Martha Owens all attended the associational meeting at Livingston Baptist Church Friday night.

BRODHEAD TRAVELS TO FILM AND VIDEO FESTIVAL

The faculty advisors and several members of Brodhead Elementary School's News Team braved the wintery conditions to travel to Lexington on Saturday for the Film and Video Festival. The festival was sponsored by and held at Kentucky Educational Television.

Those attending were able to choose from more than twenty possible workshops offered throughout the day. The W.B.E.S. crew took advantage of workshops on video production, animation, in which the participants made a 30 second cartoon, setting up a school studio, editing videos, hosted by Sam Groves a young producer who has had work aired on public television, going around with cameras, in which the students got

actual "hands on" use of professional cameras and acted in short scripts. Most students also chose to sit in on a behind-the-scenes look at Pee Wee Herman's Playhouse, a Saturday morning presentation of CBS. The students left the session at 4:00 p.m. official "The Joneses" vowing to follow in the footsteps of the famous comedian/actor. A general session on science fiction production was presented by Ralph Langer, a secondary teacher from Pittsburgh. He demonstrated techniques that has guided his students to win several national awards. Footage showing techniques of major science fiction movies was also shown. He discussed his work in Hollywood in movies such as "Down of the Dead", "The Tomb" and "Beach Blanket Blood

Beth".

During lunch participants viewed the winners of the 1986 CLOJ Awards. The award is given to the best U.S. and International commercials.

Because of their work in video this year, the students and faculty of Brodhead were invited to attend along with several other schools, universities and private filmmakers. The festival was free and students financed the transportation costs through fund-raising activities such as their recent "50¢" dance.

Attending the festival were Mike Bullock, Keith Carpenter, April Thorpe, Rachel Johnson, Chris Crouch, Teresa Vaughn and Chris Thompson. Faculty members were Nancy Parkerson and Michael Radford.

Rumpelstiltskin

The Rockcastle County Council for the Arts presented *Rumpelstiltskin*, twice last weekend at the Roundstone Elementary School. Above from left are performers, Carol Ann Kirby, Peggy Fahn, Tracey Burdette, Scarlett Dudley, Brian Lay, Louis Tagliaboschi and Jennifer Witt. Almost 70 people turned out for the Saturday night performance although the weather was terrible. According to H. Allen Penick, the director of the play the Arts Council is planning another performance for the general public in the next few weeks because of the weather. This was the council's first play of the year. Their next event is this Saturday night when they will present the Woodwind Quintet at the Cedar Rapids Country Club at 7:30 p.m. This year's picnic in the park is scheduled for May 3. Also in the above photo is Jack Lewis at the piano. Jack arranged the music for *Rumpelstiltskin*.

Hubert and I certainly enjoyed the two nights that we attended the revival at the Scaffold Cane Baptist Church. Those people out there are very dear to us.

Mr. and Mrs. Glen Ponder were recent guests of their good friends Mr. and Mrs. Charles Dwan of Osgood, Ind. They were neighbors at one time and Mrs. Dwan is very ill. She needs our prayers.

Mrs. Charlene Hall is slowly improving from her recent illness. We thank God that she is better. Charlene - you have our prayers.

Enjoying a nice evening and a delicious meal at Peoples Restaurant in Berea last Friday night were Mrs. Hubert Chasteen and members of her Sunday School class - Young Adults - and their families. Present were Hubert Chasteen, Mr. and Mrs. Anthony

Abney, Scott Abney, and Tonya Church. Mr. and Mrs. Luther Isaac's Mr. and Mrs. Bill Fowler, Gwen and Billy and Billy's friend Greg Bowman. Mr. and Mrs. Jeff Blair and three children. Mr. and Mrs. Bill Parsons, Mrs. Judy Cummins and daughters, Janica and Monica and Mrs. Exibbe McCollum and son Roy. We fall enjoyed being together.

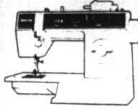

Please remember our revival which is in progress.
