# From gardening to politics is Adams writing forte'

Politics and vegetables may not have much in common for most people, but for Ike Adams, they're common companions. Any faithful Points East reader knows that vote buying and roto-tilling create the balance that keeps Ike's writings fresh.

"I am disgusted with Kentucky politics," said Ike, "Yet I don't know whether to consider that an inspira-tion or disinspiration for my write

ings.

Its main objective in his column is to get people more aware and a part of responsible government as opposed to vote selling. "I wish there was trust in the government, justified trust, but I don't have that," he said.

According to Ike, columns pertaining to gardening often serve to soften the bite of his hard-hitting attack on politics. "Sometimes the politics get too serious and the only way to back off is through humor." he said, which is often relayed through his gardening antics. "It's healthy for the body and soul to see the lighter side of life and humor in common things."

side of life and judicial.

A native Letcher Countian, Ike Adams has spent all of his life in Eastern Kentucky, and has worked as everything from a teacher to an investment company representative. "I worked on the industrial site in Mt.

Vernon, organizing the legal entities, along with the industrial council," said lke. "I just got burned out though, working sometimes 80 hours a working week."

Ike found his niche when he joined the staff of Christian Appalachian Project as a Foundation Grant Man-ager, which utilizes both his experi-

ager, which utilizes both his experience in investments as well his writing talents. "How this job," said Ike. "If's more up my alley."

The idea to begin a column came from an article like wrote in response to a piece in the Sentinel-Echo of London. "Charles House had a piece in there about hillibility slang which I replied to and he asked me to continue." He has been a columnist now. ue." Ike has been a columnist now for over 10 years and appears in

A retired school teacher, Hilda ites for both the Signal and the writes for both the Signal and the Berea Citize and she says people like to hear about themselves and she has dedicated her column to writing about simple things. "I don't write about young people. They have enough fun in life," said Hilda. "I just go to visit with people and pick on the little things. I'll write about what's in their garden, etc."

Hilda reflects her viva

of humor through her writings. "I'm 49 in my column," said Hilda. "Jack Benny used to say he was 39 all his life, but after a while of saying I was 39, I figured I better move it up fo 49, so I'm 49 now. A cousin of mine said that was the fastest she'd ever seen anybody age!"

#### Section 8 Housing Assistance

The Rockcastle County Comm The Rockeastle County Commu-nity Housing Development Board now has some applications for rental assistance. To qualify, an applicant must be 62 years old, handicapped, disabled, constitute a family and fall within income guidelines for Rock-castle County. Applicants are placed on the ap-

castle County.

Applicants are placed on the ap-propriate waiting list. Kentucky Housing Corporation hinks there will be an opportunity to apply for addi-tional funds by early fall. Your appli-cation will make a difference. Cer-tificate vouchers are allocated based on need, which is justified by having a large number of applicants on the waiting list.

waiting list.

If you qualify and want to be placed on the waiting list for rental assistance, applications can be picked up at the Housing Board office in the Court House next door to Judge Mullins' office. Office personnel will be happy to help you complete the application.

## 'In memory of Eli Rarnett who passed away July 2, 1984'

We will never forget that Saturday afternoon when the angels came and took you away.

Even though you are gone from us here on earth, you are always in our

heart.
You never had time to say farewell or goodbye. You were gone before we knew it and only God knows why.
One heart of gold stop beating.
Two shining eyes at rest. God broke

our hearts to prove to us He only

takes the best.

To some you are forgotten. To others a part of the past. But to the ones who love you dearly, your memory will for ever last.

Sadly missed by your family.

## Men arrested for burglary

Two Brothead area men- one wanted in Florida- was arrested by state police Thursday and charged with burglary in the third degree. Jimmy Lee Mason Jr., 24, was charged in Florida for assault on a police officer. He and Lonnie Ray Denny, 20, were charged by sheriff deputies with burglary from a bar owned by Millard Robbins of Brothead.

Mason reportedly waived extradi-tion and will be returned from Flor-

Workers rescued the city's oldest fire truck after the roof in the rear of Bryant Brothers Store collapsed, pinning the truck. Support beams, a bulldozer and a RECC truck were put to use in the effort.

# Old fire truck escapes damage in roof fall

Mt. Vernon Fire Department's old fire truck, a 1937 Ford, escaped damage over the weekend when the roof caved in where it was parked in

Bryant's Garage.
The old truck was in the building along with the first ambulance in th ty when an overhead support broke and landed about mid-

way of the truck.
Fire Chief John Cox said there were
no dents or damage, "We were lucky,"

A back hoe was used to take the beam off the truck. The old truck has a meager 2900 miles on it. It has the original tires. The engine blew up during a fire at the home of William J. Norton when lived on Perciful Street. "We used the truck for pumping water and it was pumped a lot," Cox noted." It was pulled into a garage and a new motor was installed. I think it was last used in the 1950s." Cox said two beans broke because of the rain and flat roof.

## Joe Lambert off EKU board

It wasn't much of a surprise, but Gov. Brereton Jones did not re-ap-point Supreme Court Justice Joe Lambert to the Farmanian and the Court Justice Joe Lambert to the Eastern Kentucky University Board of Trustees.

No one from Rockcastle was ap pointed to any of the university boards in the state. Jones said in a statement that sit

ting judges had potential conflicts of interest as board members.

interest as board members.
Two other judges were not reappointed. They were Supreme Court
Justice Robert Stephens on the U of
K board, and Charles Lester, Chief
Judge of the State Court of Appeals.
Principal loser of all was former
Gov. Wallace Wilkinson who appointed himself to the UK board
before his term was over.

Terry Burton has been appointed to the Rockcastle County Board of Education by the state board of education to replace Clayton Cash, who elected to take a teaching position in the local school system.

Cash vacated the seat to take a position as Physical Education instructor and boys baskethall coach or the coming school year.

"I think he (Burton) has a lot to 'ffer," Superintendent Bige W. Towery said. "He is certainly responsible in the community and Terry is the type of individual that I think wants to serve people and I just look forward to working with him."

Towery said that Burton will most likely be sworn in at the Tuesday. "He's cager to get started," Tow-yaid, "He I'probably be asworn in at the beginning of the board meeting."

A resolution approving a garbage collection center at Renfro Valley, requested by Linda McWhorter, was denied by the Mt. Vernes Cit. Cit.

cil at a special meeting Monday.

The council said she could continue to pickup garbage in the city, but where she will dispose of it was

not reported.

The council vote was 4-2 with councilors Bessie King and Clarice Kirby abstaining. Voting to deny the resolution were Lee Keene, Joe

Mullins, Lou Vanhoose and Bob Bailey.

Mrs. McWhorter needed a resolu-tion from the council to take to the Rockeastle Fiscal Court in order to get a permit to operate the center. The county has jurisdiction over all garbage in the county as well as the city.

She could ask the court to approve a permit to operate a collection cen-ter somewhere in the county. The court meets July 7.

# Fiscal court ends year approving several bids

With the fiscal year only hours away, the Rockcastle Fiscal Court met Monday afternoon to put the final touches on county business,
The court adopted- finally- the 1992-93 county budget of \$1,668,099.

In other business, the court ap-royed the sale of five aluminum fuel proved the sale of the aluminum fuel tanks, removed from county trucks, and no longer in use, to Bill Hale for a total of \$294.05.

Other bids accepted were: a bid of \$18,598.34 for insurance and bonds went to KACT Ole Line Funds of

road department at \$24,500. Kentucky Stone Company was successful bidder in the Mt. Vernon

area for crushed stone.

Mt. Vernon Produce was success-

ful bidder for culverts.

Vulcan Materials Co., of Chattannoga, Tenn., was the successful bidder for asphalt emulsion.

# School positions filled

Two positions in the Rockcastle County School System have been recently filled, one that had been vacant for over a year. Francis Johns of Richmond was

hired as a speech and language thera-

pist.

According to Superintendent Bige
W. Towery, the position had been
vacant for over a year.

Towery said it is difficult to find
qualified individuals for that role in
the schools.

Another hiring made by the site based decision making councils was the hiring of Mary Whitlock, also of Richmond, as an elementary music

teacher.

There are still two openings at Roundstone Elementary, according to Towery, who said the deadline was July 2nd for the applicants.

One of the positions requires certification in science and one other

Dear Editor,
I find the Signal is still conting to
me and I thank you sincerely. I do

enjoy hearing from Rockeastie County, the place where I was born. I was sincerely sorry to hear of the death of Charles Edward Hur. I do remember when he was a child of four years old. My little sister and I were sent to the downsown area in Brothhead, to my daddy's store to get supplies for my mon. Charley Hurr and his wife Lena lived at the top of the hill on Main Street and were highly respected. Little Charles Edward would run out to the sidewalk to naik to my little sister and me. Many times we would at thown in the yard and play and talk about the sidewalk to naik to my little sister and me. Brodhead at the time had a population of about eighth hundred. The mads between Brodhead and Gum Sulphur were starting to be paved with asphalt. There was a small movie up over the bank where Albert Hiatt was president. Ed. Hurt, Albert Hiatt, Herman Frish, Ida Adams, Delmas Owens, W.J. Owensand my dad were some of the main business people in the downtown area. To believe the men all belonged to the Masonic Lodge. If we was a fine and the common some of my conjectures here.

but I'll never read it again because of that column about my home county of Wolfe County.

I was born and raised in Wolfe County.

I was born and raised in Wolfe County and, spent most of my life there at Rogers, Pine Ridge and Campton. He really got my dander up by the way he described our county that he spent most of the time purked on the side of the road searching a road, map to find where it was. He railed diagraceful like they were uncivilized. He said they had trash on the side of the roads all put there by the Wolfe Countians and tourists on the side of the roads all put there by the Wolfe Countians and tourists on the side of the roads all put there by the Wolfe Countians and tourists. Did he forget about the Red River Gorge? Sky Bridge and all the beautiful scenery there? Also it's near Natural Bridge State Park where tourists throng by the thousands all summer and fall. It is simply swamped with currists in the fall months because of the multi-colored leavis on the trees. I wonder where Mr. Adams lives?

I don't go to my home county but once a year and that's the first Satur-once a year and that's the first Satur-

the multi-colored leavies on the trees. I wonder where Mr. Adams lives? I don't go to my home county but once a year and that's the first Saturday in each October to our family reunion. That day alone (we keep count) and at least 12 to 15 different states are represented. Including Florida, Maine, Texas. Wisconsin, La, Mo, Michigan. I cain't name them all here. So you're sure wrong about tourists not visiting Wolfe County. He also threw slurs at our school teachers. He stated that they sfill spank the children in school. Now I do not know if he is right but if he is I say "More power to them' for in this day and time about all the discipline they get is at school. He also said instead of spanking them they should take them out and make them pick up the trash along the road. But he said no for they'd have to supervise them and not get to sit there and draw their big pay they didn't deserve.

I'm proud of all our teachers and feel they're under paid for they sure carn every dollar they get. He may be right about trash along the road and I guess he is but no one can say if's not be only county that has is, Where

saying thanks for the rebuttal,
We left Wolfe County and worked

# Rogers issues statement on abortion ruling

Kentucky Congressman Harold Rogers issued the following state-ment today regarding the decision of the U.S. Supremem Courr in a Penri-sylvania abortion case: "As someone who strongly opposes abortion, I was hoping the Supreme Court would completely reverse Roe v. Wade - and affirm that the undirect child has a constitutional right to life. Instead, we got a week commorting.

Instead, we got a weak compromise.

"Although the court did not rule that abortion is illegal, it did affirm the right of state governments to place restrictions on abortions. For example, it permits states to require a 24-hour waiting period before an

24-nour waung period before an abortion.

"This ruling will likely result in 50 different state laws. It will allow states to impose laws that protect babies in the womb. But, at the same time, it should not be left to the whim of the legislature to protect the life of an unborn child.

"The membersion members are not

"The pro-abortion people are not happy with this decision, and they're not about to give up. That means we'll have to keep fighting to protect the lives of unborn children.

"One of the biggest battles will be in Congress, where pro-abortion forces are trying now to pass the Freedom of Choice Act." In the simplest terms, it would absolutely prohibit states from placing any restrictions on abortions. That is wrong. I will work against it -- and vote against it.

it.
"This is also certain to be an issue in the next Congress. So it will be more important than ever that we elect members of Congress who are firm in their opposition to abortion.

Matuic Lake Pigg had puiled some vinces off the fence near the house. Next morning she felt "lichy" but just scratched and went on about the day. The family noticed that she scratched heres! I more than usual but she told them no matter the red bumps and blisters would go away. Mattie finally admitted she must have gotten in some poison ivy! In my last paragraph in last week's paper, I think the primers or someone made a mistake in saying I should go to Mt. Vernon as the Anderkins wanted to make changes. I meant they might want to take some chances on my arfile. (They might really want to make some changes after this is over). I want to sell a ticket to Jason for sure. They're getting a new apart-ment so will have room for ducks, and Richard must have a chance to

# A Tribute - Alice Mize

Hamp and Alice Mize lived about a mile from our place but it seemed tike five to me. To get to their place we first had to climb up a steep hill on a rough, nocky path, through mader growth that had come as a result of either burned over timber or time that had been cut too closely. This kind of growth, is always had up to the burned to get through because of all the tiny twigs

yellow jackets, bumble bees, deer flies, and plain old gnats. I think the gnats were the worst of the lot. I'll swear, I believe there were more kinds of gnats in that area than any ento-mologist ever dreamed of. The kind I dreaded most was one so tiny the naked eye could scarcely see it and its naked eye could scarcely see it and its bite was like acid being dripped onto any bit of exposed flesh it could find. It was a pest one could not get away from day or night. In the day time they swarmed and could cover a person in a minute, at night they would creep through the finest net screens and torment anyone who happened to be handy. I was always handy, and my flesh looked like I had the measles and itched like I had been infected with poison ivy. The fundy

thing was, that is if one can call torture funny, everyone wasn't at-tacked by them. Mat had no problem with them and couldn't understand with them and couldn't understand what I was complaining about. It must have had something to do with the chemistry of certain folks. Really, it seemed to be us folks from the city that were affected most. The hother insects that bit or strug usually attacked in the day time. These were the yellow jackets that watched for someone to get close to the apple trees, and the sweat bees watched for the sweaty person who was busy honing in the garden, the bumblebees took care of the invaders of the flower garden, deer flies and horseflies were sure to be ready for the one driving between the came of mules in the fields. And so/on and on went the misery caused by these little pests nesting in the innocent looking new growth of the next generation of trees. ally, it seemed to be us folks from the

Anyway, to get to the Cedarville Post Office that was our new address, and to the store both of which Alice run, we had to go by this path or up a yet steeper hill by way of an old worn out wagon road that twisted and turned to way down another hill before welling out to join the path I would be taking through the field, which was filled with blackberry briars leaded with chiggers. To go either way had to walk ned carry lay dutil she was big enough to walk herself. It was young and anxious to be a good neighbor and one way to begin was to meet the people and introduce Judy to the ways of life she would be living from now on. What better place could I begin than at the store and post toffice where Alice always made everyone feel the warmth of her welcome. The post office was a part of her house its way down another hill before

would take on the appearance of community reunion. and the store was in a small building in the corner of the yards so when a customer went to either place he was treated as a guest in the home. It didn't matter how busy Alice was I was always asked to sit awhije and visit. And always if it was near noon I was asked to set awhije and visit. And always if it was near noon I was asked to set awhije and visit. And always if it was near noon of all country folks and I began the same practice. I learned much from Alice and her family, She was the matriarch of her family and was respected and loved by everyone. Her from yard was the meeting place of all of us, picduling the youth of the area, to sit and talk or play James in the evening. Alice would join in as we would play blind man's buff, hide and go Seck, Jacco hand Rachel, and drop the handerchief. All were action games and taugether. Many an evening there would be two or three families playing in that big front yard. The laughter of the adults and shricks of the children as they hald on to the slither-of the adults and shricks of the children as they hald on to the slither-of flagrent typing not to get caught could be heard by neighbors living figure trying not in IT. There was too much action to give grass a chance to begin every day though, Alice or a daughter-in-law woulds weep it clean, and and the store was in a small building in the corner of the yard so when a community reunion.

Alice's brother, George Jones, lived with them also. When I look back, I think they must have slept in shifts because she had a very small house and a large family to care for. But she had the gift of making space when seemingly there was none. In time I developed the same gift. Maybe it was she who taught me how. More later.

In Ac. 10:44-48, we read about the Holy Spirit falling on Cornelius and his house, and then them being baptized in water. Why did the Holy Spirit fall othern? Let's look for the Bible answer.

First, let's look at several reasons why it did ng fall on them. It was not to save them. For Peter was to go and tell them words whereby they could be saved, Ac. 11:13-14. The Holy Spirit fell on them, not to purify their hearts for in Ac. 15-9. we read "And put not difference between us and them, purifying their hearts by faith." It was not to give them faith for Peter said that by his mouth they should hear the word of the gospel and believe, Ac. 15:7. Paul said the same in Rm. 10:17, that faith comes by hearing the word of God. The Holy Spirit fell on them, not to purify their souls for that is done in obeying the truth I'Pet. 1:22. Nor did it fall to give them remission of sins for this is done to to sanctify them, for God's truth does that, Jn. 17:17. It fell on them not to sanctify them, for God's truth does that, Jn. 17:17. It fell on them not to sanctify them, for God's truth does that, Jn. 17:17. It fell on them not to sall them what they ought to do for Peter was to do that, Ac. 10:65. The Holy Spirit fell on them. All the All them was the purify them give them faith, so prove to be Lewish brethren at Jenusalem, he said. "Forsamuch them as God gave the little gift as he did unto us, who beleved on the Lord Jesus Christ. What it, Ala I could withstand God?" After hearing Peter's total explanation of this matter vs. 4-17. When they heard these things, they held their pecaca of god'n'd with you.

Torrential rains washed away plants, soil and fertilizer

The torrential rains that bombarded The torrential rains that bombarded parts of Kentucky will mean some farmers have to replant tobacco and put out more fertilizer on tobacco and corn, according to an agronomist at the University of Kentucky.

"The impact of the rain on tobacco ranges from total destruction to the creation of unhealthy growing conditions," said Ken Wells, Extension consecutions with the IM Colleger of

tions," said Ken Wells, Extension specialist with the UK College of Agriculture.
"Tobacco was washed right out of the ground in some fields," he added.
"Other fields were flooded, but the plants were not washed away. However, plants probably will be lost if the water stood for more than a few hours.

Where soils were saturated with
water, it created conditions that are
unhealthy for tobacco growth. These
problems can range from sealding to
increased likelihood of root diseases.
Plant yellowing and stunting nearly
always will occur. Cultivation will
help as soon as fields dry enough to
do so."

Wells said the rain also caused loss of nitrogen in tobacco and com fields through erosion, denitrification and

leaching.
"Where fields were washed out, the plow layer was lost along with the fertilizer it contained," he said. "In fields where water stood or the soil was saturated, most of the fertilizer nitrogen previously applied has been

Nothing much can be done in fields that were totally or partially washed out until farmers can get in and work up the soil again, according to Wells. If you integle to replant, disk in actual phosphate at the rate of 100 pounds and actual potash at the rate of 300 pounds per acre; "he said Then, apply nitrogen at the rate of 250 pounds per acre total in two sid-quess applications, beginning about aweek after replanting." Wells cautioned farmers to watch carefully for manganese toxicity which occurs under extreme acidic conditions, in the replanted fields, "The rain that removed the plow play also took lime away," he explained, Irmanganese toxicity appears before lay-by, topdress with about 1,00 pounds of bagged lime per a require such add of cultivation."

Nitrogen loss due to denitrification ahead of cultivation.

Nitrogen loss due to denitrification or leaching will be most prevalent in tobacco and corn fields with heavy soils that tend to waterlog and in low

In these cases, you might as well assume you've lost all your previ-ously applied fertilizer nitrogen," he said. "In tobacco fields, sidedress in another 200 to 250 pounds of actual ntirogen per acre. In corn fields, topdress 75 pounds of actual nitrogen

# Scaffold Cane Missionary Baptist Church -- alive and well for 200 years

By: George Ferrell

Established in 1792, the Scaffold Cane Missionary Baptist Church is celebrating their 200th anniversary

his year.

Rev. Wayne Harding, a descendant of one of the original members, said the church has been a cornerstone for the local community.

Church records begin in 1802 and Harding said he does not know who served as the first pastor of the church. "We're having a homecoming celebration the third week of Sep-

tember and our 200th birthday cele-bration will be the third Sunday of September," Harding said. The church began with humble

origins, according to Harding, who said the original building was a log

That church was remodeled in 1976 to better serve the church's 256 resident members. In 1792 the state of Kentucky had just gotten its start, and Rockeastle County was not in existence. Harding, who served as pastor from 1963 to 1969 before returning to the post, said seven generations of the Hooten family have attended the church.

Originally the church was called the Silver Creek Baptist Church but the name was changed in 1815 to the Church of Christ at Scaffold Cane.

In the 1840s it was renamed the United Baptist Church of Christ at Scalfold Cane. The minutes, kept by church sec-retaries, go back to 1802 and record various trials over disagreements between members of the congrega-

The church has grown since those times, and so has its arm of outreach into the community.
